Orders and Notifications by the Government of India republished for general information.

FINANCE DEPARTMENT.

NOTIFICATION.

Simla, the 5th September 1925.

No. F.-10/III-F.E./25.—The following Resolution by the Secretary of State for India in Council is published for general information :—

In exercise of the powers conferred by sub-section (*2*) of section 96B of the Government of India Act, the Secretary of State for India in Council, with the concurrence of the majority of votes at a meeting held on the 12th day of August 1925, hereby makes the following amendments in the General Provident Fund Rules :—

1. In Rule 18 of the said Rules—

(*i*) for clauses (1) and (2), the following shall be substituted, namely :—

"(1) A subscriber proceeding on leave preparatory to retirement, at any time between the date of his proceeding on leave and the date of retirement, subject, however, to the condition that he may be required, should he return to duty at the end of his leave, to repay to the Fund the whole amount withdrawn by him with interest thereon."

(*ii*) Clause (3) shall be renumbered as clause (2).

2 In Rule 21 of the said Rules—

(*i*) In clause (*viii*) (*b*), the words "Sub-rule (*viii*) (*d*)" shall be substituted for the words "Sub-rule (*viii*) (*c*)."

(*ii*) After clause (*viii*) (*b*), the following shall be inserted, namely :—

"(*c*) Save as provided in sub-rule (*viii*) (*d*), the policy may also be reassigned to the subscriber before the date of his actual retirement in the cases and subject to the conditions laid down in Rule 18, and subject also to the further condition that, should he return to duty at the end of his leave, he may be required to reassign the policy to the Secretary of State, or, in the event of the policy having lapsed or become incumbered or otherwise incapable of assignment, to repay into the Fund either the amounts of substituted payments or of subscriptions withdrawn from the Fund, as the case may be, with interest thereon, or, in the event of the policy having matured the sum realised from the Insurance Company."

(*iii*) Clause (*viii*) (*c*) shall be renumbered as clause (*viii*) (*d*).

And the said Rules shall have effect as though they had been so amended with effect from the 27th March 1922.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 23rd September 1925.

Summary.—Excepting heavy showers in parts of North Bengal rainfall was generally light almost throughout the province. More rain is urgently required in the West Bengal districts for the growth of standing crops. Weeding of winter rice and preparation of fields for early spring crops continue. The average price of common rice for the province has risen by about 0·73 per cent. as compared with that of the previous week.

POLICE DEPARTMENT.

NOTIFICATIONS.

No. 3405Pl.—The 10th September 1925.—Whereas the Governor in Council has reason to believe that a gang of burglars and dacoits ordinarily residing in the jurisdiction of police-station Bhanga in the district of Faridpur, and commonly known as the "Kutiya Bhuiya's gang" are addicted to the systematic commission of non-bailable offences:

Faridpur.

Now, therefore, the Governor in Council, in exercise of the power conferred by section 3 of the Criminal Tribes Act, 1924 (VI of 1924), hereby declares the said gang to be a criminal tribe for the purposes of that Act.

No. 3406Pl.—The 10th September 1925.—In exercise of the power conferred by section 10 of the Criminal Tribes Act, 1924 (VI of 1924), the Governor in Council hereby directs that every registered member of the "Kutiya Bhuiya's gang", which has been declared by notification No. 3405Pl., dated the 10th September 1925, to be a criminal tribe, shall, in the prescribed manner, report himself at fixed intervals and notify his place of residence, any change or intended change of residence, and any absence or intended absence from his residence.

Faridpur.

NOTIFICATIONS.

Simla, the 19th September 1925.

No. M-1055 (1).—The following draft of regulations which it is proposed to make in exercise of the powers conferred by section 29 of the Indian Mines Act, 1923 (IV of 1923), is published as required by sub-section (*1*) of section 31 of that Act for the information of all persons likely to be affected thereby and notice is hereby given that the said draft will be taken into consideration on or after the 20th December 1925. Any objection or suggestion which may be received from any person in respect of the draft before the date specified will be considered by the Governor General in Council :—

Draft Regulations for Coal Mines.

1. (*1*) These regulations may be called the Indian Coal Mines Regulations, 1925.
(*2*) They shall apply only in respect of coal mines.
2. In these regulations, unless there is anything repugnant in the subject or context—
(*a*) "the Act" means the Indian Mines Act, 1923;
(*b*) "the District Magistrate", in relation to any mine, means the District Magistrate of the district in which the mine is situated :

Provided that in the case of a mine which is situated partly in one district and partly in another, the District Magistrate for purposes of these regulations shall be the one authorised in this behalf by the Local Government ;

(*c*) "Form" means a Form as set out in the Schedule ;
(*d*) "Schedule" means the Schedule to these regulations.

CHAPTER I.

RETURNS, NOTICES AND RECORDS.

3. (*1*) On or before the tenth day of every month, the owner, agent or manager of every mine shall send to the Chief Inspector a correct return in Form I of all raisings and despatches during the preceding calendar month.

(*2*) On or before the twenty-first day of January in each year the owner, agent or manager of every mine shall forward to the District Magistrate and to the Chief Inspector annual returns in respect of the preceding year in Forms II, III, IV, V, VI, VII and VIII.

(*3*) If any mine is abandoned or the working of any mine has been discontinued over a period exceeding three months or if a change occurs in the ownership of any mine, the returns required by sub-regulation (*2*) shall be submitted within one month from the date of abandonment or change of ownership or within four months from the date of discontinuance:

Provided that the Chief Inspector may by order in writing extend the period for the submission of such returns up to any date not later than the twenty-first day of January in the year following that to which they relate:

Provided further that nothing in this sub-regulation shall be deemed to authorise the submission of any return later than the twenty-first day of January in the year following that to which it relates.

4. The notice required by section 14 of the Act shall be furnished in duplicate and, shall specify the name and situation of the mine, the names and addresses of the owner and the manager, and, in the case of a new mine, the date on which it was opened. The District Magistrate shall on receipt of the notice forward one copy thereof to the Chief Inspector.

5. When a mine or seam has been abandoned, or the working thereof has been discontinued over a period exceeding two months, the owner of the mine shall, within one month after the abandonment or within seven days after the expiry of the said period, as the case may be, send to the Chief Inspector notice in writing specifying the name and situation of the mine, the name and address of the owner, and the date and cause of the abandonment or discontinuance.

6. When a mine or seam is re-opened after abandonment or discontinuance, the owner, agent or manager shall, within one month after the date of the re-opening, send to the District Magistrate notice in writing in duplicate specifying the name and situation of the mine, the names and addresses of the owner and the manager, and the date of the re-opening. The District Magistrate shall on receipt of the notice forward one copy thereof to the Chief Inspector.

7. When a change occurs in the name of, or in the ownership of, a mine, notice in writing of the change and of the date thereof shall be sent by the owner, agent or manager to the Chief Inspector within one month from the date of the change.

8. When any new appointment is made of an agent or manager of a mine, or any change of address of any agent or manager occurs, notice of the appointment or change and of the date thereof shall be sent by the owner, agent or manager to the Chief Inspector within one month from the date of the change.

9. When the ownership of a mine is transferred, the previous owner or his agent or manager shall make over to the new owner all plans, books and other records required to be kept under the Act, and all correspondence relevant to the working of the mine with the Department of Mines and other Government departments.

10. If the owner, agent or manager of any mine intends to commence or extend any mining operations under his control at or to any point within fifty yards of any railway subject to the provisions of the Indian Railways Act, 1890, or of any public work in respect of which this regulation is applicable by reason of any general or special order of the Local Government under clause (*u*) of section 29 of the Act, he shall, not less than sixty days before commencing to carry out his intention, give, in the case of a railway, to the Railway Administration concerned or, in the case of any such public work as aforesaid, to such authority as the Local Government may, by general or special order, direct, and in any case to the Chief Inspector, notice in writing of such intention.

11. If the operations in respect of which notice is given under regulation 10 are not commenced within twelve months from the expiry of the period of sixty days therein referred to, the notice shall be held to have lapsed and the provisions of that regulation shall apply as if no such notice had been given.

12. The notice to be given under regulation 10 shall specify the position of the workings of the mine in relation to the railway or public work in question, the manner in which it is proposed to carry out the intended new operations, the limits to which it is proposed to carry the said operations, and shall include a plan showing the existing and the intended mining operations in so far as they affect the railway or public work in question.

13. When any accident occurs in or about a mine causing loss of life or serious* bodily injury, or when an accidental explosion, ignition, outbreak of fire or irruption of water occurs in or about a mine, the owner, agent or manager of the mine shall forthwith inform the inspector by telephone or telegraph, and shall also, within twenty-four hours of the occurrence of such accident, explosion, ignition, outbreak or irruption, send notice thereof in Form IX to the District Magistrate, or to the Subdivisional Magistrate, who shall forward it to the Chief Inspector.

14. When any person dies from the result of an injury already reported as serious under regulation 13, the owner, agent or manager of the mine shall, within twenty-four hours of his being informed of the death, send notice thereof to the District Magistrate or to the Subdivisional Magistrate, who shall forward it to the Chief Inspector.

* See definition of the words "serious bodily injury" given in section 3 (*k*) of the Act.

CHAPTER II.

PLANS.

15. (*1*) All plans prepared in accordance with the provisions of this Chapter shall, so far as possible, be accurate and shall—

(*a*) bear the name of the mine and of the owner ;
(*b*) show the scale together with the magnetic meridian and the date of the latter ;
(*c*) be properly inked on durable paper, or on tracing cloth ; and
(*d*) be on a scale of 100 feet to the inch :

Provided that where plans have been prepared on any other scale before the passing of these regulations, the plans need not be re-drawn unless the Chief Inspector by order in writing expressly so directs.

(*2*) The owner, agent or manager of every mine shall keep a plan of the workings of the mine. The position of the workings at the time of the last survey shall be shown by a dotted line drawn through the ends of the workings ; such dotted line shall be marked with the date of the last survey. The plan shall also show all shaft and incline openings, all goaves, the boundaries of the underground leasehold, where possible, and all important features, such as railways, roads, rivers, streams and reservoirs which overlie any part of the workings or any point within 600 feet of any part of the workings measured on the horizontal plane ; also the general direction and rate of dip of the strata, the depth of every shaft, a section of the seam being worked and the position of all faults and dykes with the amount and direction of their throw. There shall be a separate plan of the workings of each seam, and of each separate section of each seam.

(*3*) The owner, agent or manager of every mine shall also keep a separate tracing of a surface plan showing all surface features referred to in sub-regulation (*2*), and in addition all buildings and erections on the surface and within the boundaries which overlie the workings of the mine or any point within 600 feet of the workings measured on the horizontal plane.

(*4*) The plans required by this regulation shall be maintained up to date within six months, and shall be kept in the office at the mine.

(*5*) Nothing in this regulation shall be deemed to apply to any mine in which the workings do not extend below the super-jacent ground :

Provided that the Chief Inspector may direct that the regulation shall apply to any such mine to such extent as he may think fit.

16. The Governor General in Council may direct that after such date as he may appoint in this behalf the plans required to be kept under regulation 15 shall be prepared by or under the supervision of a surveyor who has been granted a surveyor's certificate under these regulations.

17. The owner, agent or manager of every mine shall at any time on the request of the Chief Inspector or of any Inspector produce to him at the office at the mine such plans and sections, and also, on the like request, mark on such plans and sections the then state of the workings of the mine ; and the Chief Inspector or Inspector shall be entitled to examine the plans and the sections, and for official purposes to make or have a copy made of any part thereof respectively.

18. Where any mine or seam is abandoned, or the working thereof has been discontinued over a period exceeding one year, the person who was the owner of the mine at the time of the abandonment or discontinuance shall, within three months after the abandonment or within fifteen months after the discontinuance of working, as the case may be, send to the Chief Inspector accurate plans and sections of the working of the mine or seam up to the time of the abandonment or discontinuance, showing the pillars of coal remaining unworked and all other features required in compliance with these regulations, or a true and accurate copy of the same :

Provided that if a change of ownership occurs after the abandonment or discontinuance and before the expiry of the three months or the fifteen months aforesaid, as the case may be, such plans and sections shall be sent forthwith.

19 After the expiry of ten years from the date of abandonment or discontinuance of working in any mine or seam, the Chief Inspector may, on such conditions as he thinks fit to impose, permit any person having an interest in the said mine or seam to inspect the plan or section of such mine or seam sent to him in accordance with the provisions of regulation 18 ; and he may further, on such conditions as he thinks fit to impose, supply to any such person copies of the like plan or section.

CHAPTER III.

MINE OFFICIALS.

20. For the purposes of this chapter every system of underground workings interconnected in such a manner that communication is practicable from any one part of the system to any other part by means of underground channels shall be deemed to constitute one mine. If access from one system of underground workings to another such system is not so practicable, each such system shall be deemed to constitute a separate mine.

21. A duly qualified manager may be permitted by order in writing of the Chief Inspector to manage more than one mine, if the Chief Inspector is of opinion that the mines supervised by him are near enough to one another to permit of effective supervision being exercised, and that an adequate subordinate supervising staff is maintained at such mines. The Chief Inspector may at any time by order in writing revoke any such permission and such order shall be final.

22. Save as provided by regulation 21 no person shall act as manager of more than one mine.

23. Save as hereinafter provided in regulation 24—

(*a*) no person shall act as manager of a mine, the average output of which exceeds 2,500 tons a month, unless he holds a first class manager's certificate granted under these regulations;

(*b*) no person shall act as manager of a mine, the average output of which exceeds 600 tons a month, unless he holds a first or second class manager's certificate granted under these regulations; and

(*c*) no person shall act as the manager of a mine, the average output of which does not exceed 600 tons a month, unless he is the holder of a first or second class manager's certificate or of a manager's permit granted under these regulations:

Provided that the Chief Inspector may, by order in writing, direct that in the case of any such mine as is referred to in clause (*b*) the manager thereof shall be the holder of a first class manager's certificate granted under these regulations, and that in the case of any such mine as is referred to in clause (*c*) the manager thereof shall be the holder of a first or second class manager's certificate granted under these regulations:

Provided further that an appeal from any order passed by the Chief Inspector under the foregoing proviso shall lie to the Mining Board constituted under section 10 of the Act or, if no Mining Board has been so constituted for the Province in which the appellant is employed, to the Local Government and the order of the Mining Board or of the Local Government thereon shall be final.

24. (*1*) The Chief Inspector may by order in writing authorise any person, whom he may consider competent, to act as manager of any mine or mines for a specified period, notwithstanding that such person does not possess the qualifications prescribed in that behalf by regulation 23; and may by a like order revoke any such authority at any time, without giving any reason for his action and at his sole discretion, and such order shall be final.

(*2*) In every mine daily personal supervision shall be exercised by the manager.

(*3*) Where by reason of absence or for any other reason the manager is unable to exercise daily personal supervision the owner, agent or manager shall authorise in writing a person whom he considers competent to act as manager of the mine:

Provided that—

(*a*) such person holds a first or second class manager's certificate or an underground sirdar's certificate;

(*b*) no such authority shall have effect for a period in excess of one month;

(*c*) the owner, agent or manager, as the case may be, shall send to the Chief Inspector with the least possible delay, a written notice intimating that such an authorisation has been made, and stating the reason for the authorisation, the qualifications and experience of the person authorised and the dates of the commencement and ending of the authorisation; and

(*d*) the Chief Inspector may by order in writing revoke any authority so granted and such order shall be final.

25. The manager of every mine shall appoint in writing such number of competent persons as will be sufficient to secure a thorough supervision of all the operations in the mine and the enforcement of the requirements of the Act and of the regulations, rules and bye-laws made thereunder. He shall assign to every such person his particular duties, shall on his appointment make over to him a copy of the regulations, rules and by-laws which affect him and shall take all possible steps to ensure that every such person understands and carries out and enforces the provisions therein contained. Copies of all appointments made by the manager shall be kept in the office at the mine.

26. Every person employed in a mine as an underground official subordinate to the manager and superior to the underground sirdar shall hold either a first or second class manager's certificate or an underground sirdar's certificate granted under these regulations:

Provided that this regulation shall not come into force until the 1st day of July, 1926.

27. With effect from such date as the Governor General in Council may notify in the *Gazette of India* no person shall be employed as a surveyor in a mine unless he holds a surveyor's certificate granted under these regulations.

28. No person shall be employed as a winding engineman unless he has attained the age of 21 years; and the manager or some competent person appointed by the manager for the purpose shall before appointing any such person satisfy himself that such person is competent to perform the duties assigned to him.

CHAPTER IV.

CERTIFICATES OF COMPETENCY, PERMITS AND AUTHORISATIONS.

29. (*1*) There shall be constituted a Board of Examiners for the purposes of these regulations, which shall consist of the Chief Inspector, who shall be the Chairman of the Board, and of two other persons, possessing technical qualifications fitting them to serve on the Board, who shall be appointed by the Governor General in Council for a term of three years :

Provided that on the expiry of any term for which he has been appointed, any such person shall be eligible for re-appointment

(*2*) A person appointed under sub-regulation (*1*) shall receive such remuneration as the Governor General in Council may fix.

30. (*1*) Certificates under these regulations shall be granted by the Board of Examiners, and all decisions of the Board regarding the grant of such certificates shall be final.

(*2*) Certificates granted by the Board shall be valid throughout British India, and shall be of the following kinds :—

(*a*) first and second class certificates of competency to manage a mine (in these regulations referred to as manager's certificates) ;

(*b*) certificates of competency to survey the workings of a mine (in these regulations referred to as surveyor's certificates) ;

(*c*) certificates of competency to make the inspection hereinafter required by regulation 70 [in these regulations referred to as underground sirdar's (or examiner's) certificates].

31. (*1*) Certificates shall be granted to candidates after such examination and in such form as the Board of Examiners may prescribe.

(*2*) The examinations shall be held at such times and at such centres as may be fixed by the Board, and shall be conducted by local examiners, who shall be appointed by the Board.

(*3*) The local examiners so appointed shall be subject to the orders of the Board in respect of all matters relative to the conduct of the examinations, and shall receive such remuneration as the Board, with the sanction of the Governor General in Council, may fix.

(*4*) The Board may make rules as to the conduct of the examinations ; and shall, so far as may be practicable, provide that the standard of knowledge requisite for the grant of certificates of any particular class shall be uniform throughout British India.

(*5*) Every rule made by the Board under this regulation shall be published in the *Gazette of India* and in such local official gazettes as the Board may direct, and, except as regards examinations for underground sirdar's certificates held before the 1st day of July 1926, no such rule shall have effect until six months from the date on which it was first so published.

32. Full information regarding the date and place of each examination for manager's and surveyor's certificates shall be published under the orders of the Board of Examiners in each issue of such local official gazettes, and in such other publications as the Board may direct, for a period of not less than three months prior to the date fixed by the Board for receiving applications.

33. No person shall be admitted as a candidate at any examination for a manager's certificate unless he has gained a First Aid Certificate of the St. John Ambulance Association or other Society or Body approved by the Government of India :

Provided that the Board of Examiners may dispense with such qualifications in the case of any candidate if it is satisfied that a candidate has not had sufficient opportunity to obtain such a certificate.

34. No person shall be admitted as a candidate at any examination for a first class manager's certificate unless he has attained the age of 23 years, and has satisfied the Board of Examiners that he has had practical experience in a coal mine for a period of not less than five years :

Provided that this period may, if the Board of Examiners thinks fit, be reduced to three years in the case of a candidate who has received a diploma in scientific and mining training after a course of study of at least two years at an educational institution approved in this behalf by the Governor General in Council, or who has taken a degree in scientific and mining subjects at an University approved in this behalf by the Governor General in Council.

35. No person shall be admitted as a candidate at any examination for a second class manager's certificate unless he has attained the age of 21 years, and has satisfied the Board of Examiners that he has had practical experience in a coal mine for a period of not less than three years :

Provided that this period may, if the Board of Examiners thinks fit, be reduced to two years in the case of a candidate who has received a diploma in scientific and mining training after a course of study of at least two years at an educational institution approved in this behalf by the Governor General in Council or who has taken a degree in scientific and mining subjects at an University approved in this behalf by the Governor General in Council.

36. The periods of practical experience in a coal mine prescribed in regulations 34 and 35 may, subject to such conditions as the Board of Examiners thinks fit, be reduced at the discretion of the Board in the case of a candidate part of whose experience has been obtained in mines other than coal mines.

37 The nature of the practical experience required of a candidate under regulations 34 and 35 shall be experience gained in one or other of the following capacities in a coal mine, namely :—

(*a*) as an underground workman having direct practical experience in the work of getting coal, and of stone work, timbering and repairing ;

(*b*) as an underground sirdar, deputy, overman, foreman, assistant or under-manager, or other underground official :

(*c*) as a mining apprentice, mine surveyor or colliery engineer, whose practical experience has included—

(1) actual practical work (other than the work of mine surveying or colliery engineering) of not less than two years in the case of candidates for first class certificates, and of not less than one year in the case of candidates for second class certificates, in any part of the underground workings of a coal mine, or ;

(2) direct supervision of such work during a like period.

38. No person shall be admitted as a candidate at any examination for a surveyor's certificate unless he has attained the age of 21 years and has satisfied the Board of Examiners that he has had two years' practical experience of surveying, of which at least six months shall have been practical experience of surveying the underground workings of a mine.

Explanation.—For the purposes of this regulation approved attendance at classes in theoretical and practical surveying at a technical institution approved in this behalf by the Board of Examiners shall be considered to be practical experience of surveying other than practical experience of surveying the underground workings of a mine.

39. No person shall be admitted as a candidate at any examination for an underground sirdar's certificate unless he has attained the age of 21 years, and has satisfied the Board of Examiners that he has had practical experience in a coal mine for a period of not less than three years :

Provided that this period may, if the Board of Examiners thinks fit, be reduced to one year in the case of a candidate who has received a diploma in scientific and mining training after a course of study of at least two years at an educational institution approved in this behalf by the Governor General in Council, or who has taken a degree in scientific and mining subjects at an university approved in this behalf by the Governor General in Council.

40. Examinations for underground sirdar's certificates shall be conducted orally in English or in the vernacular language of the district in which the examination is held and shall be designed to test the candidate's knowledge of the following subjects, namely :—

(*a*) timbering,

(*b*) methods of examination of the roof and sides of working places and travelling roads,

(*c*) shot-firing,

(*d*) mine gases and ventilation,

(*e*) the provisions of the regulations, rules and bye-laws under the Act, relating to the safety of persons employed in mines,

(*f*) in the case of candidates for the endorsement referred to in the proviso to sub-regulation (*1*) of regulation 71, the methods of testing for and detecting the presence of inflammable gas.

41. Applications for admission to an examination for first or second class manager's or surveyor's certificates shall be made to the Chief Inspector not less than one month prior to the date fixed for the examination. Every such application shall be submitted on a form which shall be supplied free of charge by the Chief Inspector on application made in this behalf.

42. (*1*) An application for admission to an examination shall be rejected, unless the fee hereinafter prescribed in respect thereof has been paid to the Chief Inspector within not less than one month prior to the date fixed for the examination, or, in the case of an examination, for an underground sirdar's certificate, before the date so fixed.

(*2*) The fees referred to in sub-regulation (*1*) shall be chargeable according to the following scale, namely :—

	Rs.
(*a*) in the case of an examination for a first class manager's certificate	25
(*b*) in the case of an examination for a second class manager's certificate	15
(*c*) in the case of an examination for a surveyor's certificate ...	15
(*d*) in the case of an examination for an underground sirdar's certificate	5

(*3*) The amount of any fee referred to in clause (*a*), clause (*b*) or clause (*c*) of sub-regulation (*2*) less Rs. 5, shall be returnable to the person by whom it has been paid if the application of such person for admission to the examination is rejected.

43. (*1*) The Board of Examiners may grant without examination to any person holding a manager's certificate or a surveyor's certificate or a certificate equivalent to an underground sirdar's certificate granted under any Act for the regulation of mines for the time being in force in the United Kingdom, or in any Colony, a certificate of a similar class under these regulations, and may grant to any person holding a certificate of proficiency in mining or surveying, who satisfies the Board that he possesses the requisite knowledge and experience and that he is of good character, a manager's or surveyor's certificate under these regulations.

(*2*) The Board of Examiners may grant without examination a surveyor's certificate to any person who satisfies the Board that he has had not less than five years' experience of surveying in mines and that he possesses the requisite knowledge and is of good character : Provided that application for such certificate is made within one year of the date on which these regulations come into force.

(*3*) The following fees shall be chargeable in respect of applications for certificates to be issued under this regulation :—

	Rs.
(*a*) In the case of a manager's or surveyor's certificate ...	5
(*b*) In the case of an underground sirdar's certificate	2

The fee shall be paid to the Chief Inspector and the application for the grant of a certificate shall not be considered by the Board until the Chief Inspector has certified that the fee has been paid.

44. If any person proves to the satisfaction of the Board of Examiners that he has without any fault on his part lost or been deprived of a certificate granted to him under these regulations, the Board may, upon such terms and conditions as it thinks fit, cause a copy of the certificate to be delivered to him. The word "Duplicate" shall be stamped across every such copy, and a fee of Rs. 2 in the case of a first or second class manager's or surveyor's certificate and a fee of Re. 1 in the case of an underground sirdar's certificate shall be payable in advance to the Chief Inspector in respect thereof.

45. The Chief Inspector shall issue to every person to whom the Board of Examiners grants an underground sirdar's certificate a metal check marked with the registered number of the certificate.

46. (*1*) The person to whom such metal check is issued shall, so long as the corresponding certificate remains in force, retain such check in his immediate possession, and shall not transfer it or dispose of it in any way. In the event of the corresponding certificate being cancelled, the check shall be returned to the Chief Inspector.

(*2*) No person other than the holder of the corresponding certificate for the time being in force shall be in possession of a metal check issued under this regulation.

(*3*) If any person proves to the satisfaction of the Chief Inspector that he has without any fault on his part lost or been deprived of the metal check issued to him under regulation 15, the Chief Inspector may, upon such terms and conditions as he may determine, cause a second metal check bearing the registered number of his certificate to be delivered to him. The letter "D" shall be stamped on the reverse of every such check and a fee of annas 4 shall be payable in advance to the Chief Inspector in respect thereof.

47. (*1*). The holder of an underground sirdar's certificate shall deliver such certificate to the owner, agent, or manager of any mine in which he is for the time being employed; and such owner, agent, or manager shall in exchange for the certificate deliver a receipt for the same to the holder, and shall retain the certificate so long as the holder thereof is employed in such mine, and shall return it to the holder on his ceasing to be so employed.

(*2*) The owner, agent, or manager of any mine shall, on the demand of an Inspector, produce any underground sirdar's certificate held by a person employed in the mine.

48. If at any time a representation is made by the Chief Inspector to the Local Government that the holder of a first or second class manager's certificate or of a surveyor's certificate has been guilty of misconduct or incompetency in the discharge of his duties, or has been convicted of any offence made punishable by the Act with fine which may extend to Rs. 500 or more, or with imprisonment which may extend to three months or more, the Local Government may cause an inquiry to be made into the matter; and with respect to such inquiry the following provisions shall have effect, namely :—

(*a*) The inquiry shall be public, and shall be held at such place as the Local Government may appoint, and by such person or uneven number of persons as it may direct (hereinafter in this regulation referred to as the Court), either alone or with the assistance of any assessor or assessors appointed by the Local Government. Such assessors shall be practical mining engineers or persons with a knowledge of the practical working of mines. The functions of the assessors shall be purely advisory and they shall not be regarded as members of the Court.

(*b*) The Local Government shall, before the commencement of the inquiry, furnish the person whose conduct is under inquiry with a copy of the representation on which the inquiry is instituted.

(*c*) The Local Government may appoint any person to undertake the management of the case.

(*d*) The person whose conduct is under inquiry may attend the inquiry, and may either conduct his case personally or be represented by any other person approved by the Court.

(*e*) If a majority of the persons constituting the Court thinks fit, the person whose conduct is under inquiry may be required to deliver up his certificate at any time before or during the inquiry, and such person shall be bound to comply with such requisition, unless he shows sufficient cause to the contrary.

(*f*) The Court shall, on the conclusion of the inquiry, send to the Local Government a report containing a full statement of the case together with its opinion thereon and such account of or extracts from the evidence as it may think fit, and if it considers that the certificate in question should be cancelled or suspended it shall add a recommendation to that effect. In the event of disagreement between the members composing any Court, the dissentient or dissentients from the opinion of the majority may forward a separate report to the Local Government with a statement of their recommendations.

(*g*) After considering the report or reports and the recommendation or recommendations (if any) submitted under clause (*f*), the Local Government may cancel or suspend the certificate, and, if it does so, the fact of such cancellation or suspension shall, if the certificate is produced, be endorsed upon it, and, if it is not produced or if at any time a duplicate has been granted under regulation 44, be notified in the *Gazette of India* and in the local official gazette.

49. If, in the opinion of an Inspector, a person to whom an underground sirdar's certificate has been granted is guilty of misconduct or incompetence in the discharge of his duties, the Inspector may suspend the certificate and recommend its cancellation by the Board of Examiners. The Board shall thereupon, after such inquiry as it thinks fit, either remove the suspension or cancel the certificate, and the decision of the Board shall be final.

50. (*1*) A permit (in these regulations referred to as a manager's permit) may be granted by the Chief Inspector at his discretion to any person authorising such person to act as the manager of any specified mine the average output of which does not exceed 600 tons a month.

(*2*) All such permits shall be signed by the Chief Inspector and shall be valid for such period not exceeding one year as he may specify therein.

(*3*) A fee of Rs. 5 shall be chargeable for the grant of a manager's permit.

(*4*) The Chief Inspector may at any time renew any manager's permit for a further period not exceeding one year, notwithstanding that such permit has already been so renewed. No fee shall be chargeable in respect of any such renewal.

(*5*) A manager's permit may be cancelled at any time by the Chief Inspector by order in writing without assigning any reason for such cancellation and such order shall be final.

(*6*) Notwithstanding anything hereinbefore contained no manager's permit shall be granted on or after the first day of July, 1926, to any person who is not already the holder of an underground sirdar's certificate.

51. A register showing the names and addresses of all holders of certificates or permits granted under these regulations and all cancellations of such certificates or permits shall be maintained in the office of the Chief Inspector.

52. The holders of certificates, permits and authorisations specified in the first column of the table below which may have been issued under the Indian Mines Act, 1901, or under any rule made thereunder and which may be valid at the commencement of these regulations, shall for the purposes of the Act and these regulations, be deemed respectively to be in possession of the certificates, permits and authorisations under these regulations as specified in the second column of the table without being required to obtain the latter.

CHAPTER V.

SHAFTS AND OUTLETS.

53. (*1*) The owner, agent or manager of a mine shall not employ any person in the mine, or permit any person to be in the mine for the purpose of employment therein, unless there are at least two shafts or outlets with which every seam for the time being at work has a communication, so that such shafts or outlets afford separate means of ingress and egress available to the persons employed in the seam.

(*2*) Proper arrangements shall be made for persons to descend to, and ascend from, the mine at each of such shafts or outlets. If apparatus is necessary, it shall be kept on the works belonging to the mine, and shall be constantly available for use.

(*3*) Such shafts or outlets shall not be less than 45 feet distant from one another at any point, and each shall be connected with the other by means of a communication not less than 4 feet high and 4 feet wide.

(*4*) Whenever communication between the two outlets which are required to be maintained under sub-regulation (1) has been blocked, or fenced off under regulation 137, only such persons as are necessary to clear the obstruction, or to repair the dangerous part of the communication or to make a new second outlet, shall be employed in the mine until such time as the communication has been re established or a new second outlet has been provided.

(*5*) The foregoing provisions of this regulation with respect to shafts and outlets shall not apply—

(*i*) while a shaft is being sunk or an outlet is being made.

(*ii*) to any working for the purpose of making communication between two or more shafts or outlets,

(*iii*) to any working for the sole purpose of searching for or proving mineral,

so long as not more than 40 persons are employed below ground at any one time in the whole of the different seams in connection with a single shaft or outlet:

Provided that nothing in this sub-regulation shall be deemed to authorise the driving of ordinary galleries for development before a second outlet has been made in accordance with the said provisions.

(*6*) The Chief Inspector may exempt from the operation of this regulation, subject to such conditions as he may think fit to impose, any mine in the case of which special difficulties exist which in his opinion make compliance with the provisions of this regulation not reasonably practicable.

(*7*) So much of this regulation as requires two shafts or outlets to be separated by a distance of not less than 45 feet shall not apply to any shafts the sinking of which was commenced before the 10th day of March, 1904.

54. Where the natural strata are not safe, every working or pumping shaft and every shaft in course of being sunk, shall be securely cased, lined or otherwise made secure.

55. Every part of a mine shall, where practicable, be provided with at least two ways affording means of egress to the surface.

56. Where it is necessary for persons to pass from one side of a winding shaft to the other, provision shall be made enabling them to do so without crossing the shaft.

57. A competent person or persons, of not less than 21 years of age, appointed by the owner, agent or manager for the purpose shall, once at least in every week, examine the state of the shafts by which persons ascend or descend, and shall without delay write or cause to be written a full and accurate report of the result of such examination. Every such report shall be recorded in a paged book to be kept at the mine for the purpose, and shall be signed and dated by the person who made the examination.

CHAPTER VI.

RAISING AND LOWERING PERSONS OR MATERIALS.

58. At every shaft or incline where persons or materials are lowered or raised by means of machinery the following provisions shall have effect, namely :—

(*a*) A single linked chain shall not be used for lowering or raising persons, except for the short coupling chain attached to a cage, skip, bucket or tub.

(*b*) Where the apparatus ordinarily used for raising and lowering persons to or from the surface is worked by mechanical power, it shall, if the shaft is vertical and exceeds 150 feet in depth, be provided with a detaching hook. The space between the detaching hook and the detaching plate when the cage is at the normal position at the top of the shaft shall not be less then 6 feet where a geared winding engine is used, and not less than 12 feet where a direct acting engine is used.

The provisions of this clause shall not come into force until one year from the date on which these regulations are made.

(*c*) There shall be attached to every machine worked by mechanical power, and used for raising and lowering persons, one or more brakes of sufficient power by themselves to hold the cage, skip, bucket or tub, when loaded, at any point in the shaft, and a proper indicator (in addition to any mark on the rope) showing to the person who works the machine the position of the cage, skip, bucket or tub in the shaft; and, if the drum is not on the crank shaft, there shall be an adequate brake on the drum shaft:

Provided that in the case of a shaft not exceeding 100 feet in depth so much of this clause as requires an indicator shall not apply.

(*d*) Every apparatus on or in which persons ride in a working shaft, shall be provided with a sufficient cover overhead, except—

(*i*) in a shaft not exceeding 150 feet in depth where buckets or other appliances are used for winding, or

(*ii*) in a shaft in course of sinking, or

(*iii*) where persons are employed at work in a shaft.

(*e*) Every working shaft used for the purpose of drawing mineral or for lowering or raising persons shall, if exceeding 150 feet in depth, be provided with proper means of communicating distinct and definite signals from the bottom of the shaft, and from every entrance for the time being in use between the surface and the bottom of the shaft, to the surface, and from the surface to the bottom of the shaft and to every entrance for the time being in use between the surface and the bottom of the shaft. Signals between the top of a shaft and the winding engine shall be transmitted by mechanical or electrical means.

(*f*) (*i*) The first three or principal signals shall be:—

One rap	... ...	RAISE when engine at rest.
One rap	... ...	STOP when engine in motion.
Two raps	... ...	LOWER.
Three raps	... ...	MEN ready to ascend or descend.
Three raps	... ...	IN REPLY. Men may enter the cage or other conveyance.

(*ii*) Any other signals shall be in addition to, and shall not interfere with, the foregoing.

(*iii*) A printed copy of the code of shaft signals shall be posted at the shaft top, and at every inset, and also at the winding engine.

(*iv*) No person other than the banksman or onsetter shall give any signal unless he is an official of the mine or is authorised in writing by the manager to give signals.

(*g*) Every working shaft (except a shaft in course of sinking) used for lowering or raising persons shall, if exceeding 150 feet in depth, be provided with guides.

(*h*) At the bottom of every working shaft in which a cage is used, protective roofing shall be provided sufficient to prevent danger from things falling in the shaft.

(*i*) At all places where persons have to work underground in the immediate vicinity of shafts adequate stationary lights shall be provided and used during working hours, and a similar provision and use shall be made after dark at the tops of all working shafts and at all winding engines used for raising and lowering persons.

(*j*) There shall be on the drum of every machine used for lowering or raising persons such flanges, horns or other appliances as may be sufficient to prevent the rope from slipping. The rope shall be securely fastened round an arm or the shaft of the drum, and there shall be at least two turns of the rope on the drum when the cage, skip, bucket or tub is at the bottom of the shaft. After any stoppage of winding for more than two hours, the cage, skip, bucket or tub shall, before any person is allowed to ride therein, be run a complete trip up and down the working portion of the shaft at least once, to ensure that everything is in good working order.

(*k*) Every cage shall be provided with catches or some other suitable contrivance to prevent tubs from falling out, and, if used for lowering or raising persons, shall be covered in completely at the top and closed in the two sides in a sufficient manner to prevent persons or things from projecting beyond the sides, and shall be provided with suitable gates or other rigid fences and with a rigid hand bar fixed in a position where it can be easily reached by all persons in the cage.

(*l*) A competent person or persons, of not less than 21 years of age, appointed by the owner, agent or manager for the purpose shall, once at least in every 24 hours, examine the state of the external parts of the machinery and of the head-gear, ropes, chains, cages, guides, and conductors in the shafts and other similar appliances of the mine which are in actual use, both above ground and below ground, and shall without delay write or cause to be written a full and accurate report of the result of such examination. Every such report shall be recorded in a paged book to be kept at the mine for the purpose, and shall be signed and dated by the person who made the examination.

59. No person shall get on or off a cage, skip, tub or bucket used for lowering or raising persons after the same has been set in motion, or leave it until it has reached the appointed stopping place; nor shall any such person ride on the top or edge of any cage, skip, tub or bucket except when engaged upon special work in the shaft.

60. No person, when ascending or descending a shaft, shall take with him any tools or other bulky materials, save when engaged in repairing the shaft or when otherwise specially authorised by the manager:

Provided that, in the case of tools only, the manager may, by general order, permit the same to be carried.

61. No person shall ride in a shaft on, or against, a loaded cage, skip, tub or bucket.

62. Every person, when at or about the top or the bottom of a shaft, shall obey the orders and directions of the shaft attendants on duty at the time.

63. Not more than such number of persons as may be authorised by the manager shall be allowed to ride in the same cage, tub, skip or bucket at one time, and a notice specifying the authorised number shall be posted at the top of every shaft and at every inset in a shaft.

64. No woman or person under 18 years of age shall descend or ascend a shaft in a cage, tub, skip or bucket unless accompanied by at least one person over 18 years of age.

65. When the winding apparatus is not provided with some automatic contrivance to prevent overwinding, a point shall be fixed and marked on the indicator of the winding engine at which, when persons are being raised, the cage or other conveyance shall not be raised at a speed exceeding three miles per hour after it is within a distance of twice the circumference of the drum from the surface.

66. (*1*) All cage chains in general use shall be annealed, and all detaching hooks shall be cleaned and refitted, and all winding ropes shall be re-capped, once at least in every six months, or, if necessary, at shorter intervals.

(*2*) The date of each re-capping of a winding rope shall be recorded in a book kept at the mine for the purpose.

CHAPTER VII.

ROADS AND WORKING PLACES.

67. The roofs and sides of all working places and travelling roads, including airways and travelling roads to second outlets, shall be made and kept secure.

68. In any mine or part of a mine where the roof is of such a nature as to require timbering, an Inspector, after consulting with the manager, may require such timbering to be systematic, and may give notice to that effect to the manager, who shall, by notices posted in conspicuous places at the mine, specify the manner in which timbers are to be set and advanced and the maximum intervals:—

(*a*) between each set or row of timbers,

(*b*) between the last set or row of timbers and the face.

69. (*1*) In open workings the overburden and all loose grounds and material shall be removed sufficiently far from the edge, or otherwise made secure, in order to prevent danger to persons employed in the mine.

(*2*) The sides of open workings shall be sloped, stepped or secured, in such a manner as to prevent danger from falls of material.

(*3*) When an open working is worked in steps, the steps shall be of sufficient breadth in comparison with their height to secure safety.

70. (*1*) For the purposes of inspections before the commencement of a period of work constituting a shift at a mine, one or more stations shall be fixed by the manager at the entrance to the mine or to different parts of the mine, as the case may enquire, and no workman shall pass beyond any such station until the part of the mine beyond that station has been examined and reported to be safe in the manner hereinafter provided.

(*2*) A competent person or persons having the prescribed qualifications, appointed by the owner, agent or manager, shall within such time, not exceeding two hours before the commencement of work in a shift, as may be fixed by the bye-laws of the mine inspect every part of the mine, situated beyond the station or each of the stations fixed by the manager in which work-persons are to work or pass during the shift, and all working places in which work is temporarily stopped and the edges of all goaves within any

ventilating district in which persons have to work, and shall ascertain the condition thereof so far as the presence of gas, ventilation, roof and sides and general safety are concerned. The result of every such inspection shall be recorded in a book kept at the mine for the purpose.

(*3*) A like inspection shall be made twice at least in the course of each shift, and once at least in every five hours during which the shift continues, of all parts of the mine which are situated beyond the station or each of the stations aforesaid and in which work-persons have to work or which they have to traverse during that shift, but it shall not be necessary to record the result of such inspections in a book unless the last inspection in a shift is the inspection required to be made under sub-regulation (*2*).

(*4*) Except in the case of a mine in which inflammable gas has never been found or is unlikely to be found, the inspection shall be made with a locked safety lamp of a type approved by the Chief Inspector and no other light shall be used during the inspection.

(*5*) Every report referred to in sub-regulation (*2*) shall be made by the person inspecting, either when underground or immediately on his return to the surface, and shall be a full and accurate report of the inspection, specifying whether or not, and where, if any, noxious or inflammable gas was found, and whether or not any and, if any, what defects in roof or sides and other sources of danger were observed. The report shall be signed by the person who made the inspection and shall state the date and time of the inspection and the date and time when the report was written.

(*6*) The part of a mine or mines assigned to a competent person under this regulation shall not be of such a size, nor shall any duties which may be assigned to him other than his duties under this regulation be such, as to be likely to prevent him from carrying out such last-mentioned duties in a thorough manner. If any question arises whether the part of a mine or mines assigned to any such person is too large or whether the additional duties assigned to him are too great, the decision of the Chief Inspector shall be final.

(*7*) A competent person or persons appointed by the manager shall inspect all airways and travelling roads leading to second outlets at least once a fortnight, and shall record the result of his inspection in a book kept at the mine for the purpose.

(*8*) For the purposes of this regulation the period of employment constituting a shift at the mine shall not exceed 24 hours.

71. (*1*) With effect from the first day of July 1926, no person shall, save as hereinafter provided, be appointed to make any inspection required by regulation 70 unless he—

(*i*) has within the preceding five years obtained a certificate from an authority and in a form to be prescribed by the Board of Examiners constituted under these regulations to the effect that his powers of eyesight and hearing are such as to enable him to make the inspection efficiently, and

(*ii*) (*a*) holds a first or second class manager's certificate or a manager's permit or is for the time being authorised under sub-regulation (*1*) of regulation 24 to act as manager of the mine in which the inspection is to be made, or

(*b*) holds an underground sirdar's certificate :

Provided that the holder of an underground sirdar's certificate shall not be appointed to make any such inspection in a mine in which safety lamps are used or in which inflammable gas is likely to occur, unless his certificate bears an endorsement to the effect that he is competent to test for and detect the presence of inflammable gas.

(*2*) A fee of one rupee shall be chargeable from every person whose eyesight and hearing are examined for the purpose of enabling the grant to him of a certificate of adequate eyesight and hearing referred to in clause (*i*) of sub-regulation (*1*), unless such examination is made in the course of an examination held under regulation 40.

(*3*) Where an emergency exists, the owner, agent or manager of a mine may appoint any person to make the inspection required by regulation 70 who, in his opinion, is competent to make such inspection, notwithstanding the fact that such person does not possess the qualifications prescribed in sub-regulation (*1*) :

Provided that such appointment shall not extend over a period exceeding one month :

Provided further that every such appointment and the reasons therefor shall forthwith be reported to the Chief Inspector. The Chief Inspector may cancel any appointment so made, and such cancellation shall be final.

72. (*1*) If at any time it is found by the person for the time being in charge of a mine or any part thereof that, by reason of inflammable or noxious gases prevailing in the mine or part, or of any cause whatever, the mine or part is dangerous, every workman shall be withdrawn from the mine or part, and a competent person appointed for the purpose shall inspect the mine or part, and in every case shall make a full and accurate report of the condition of the mine or part and no workman shall, except in so far as is necessary for enquiring into the cause of danger, or for the removal thereof, or for exploration, be re-admitted into the mine or part, until the same is reported by the person appointed as aforesaid not to be dangerous. Every such report shall be recorded without delay in a paged book, which shall be kept at the mine for the purpose, and shall be dated and signed by the person who made the inspection.

(*2*) If the danger arises from inflammable gas the inspection shall be made with a locked safety lamp.

73. Where any part of a mine is so situated that there is any danger whatever of irruption of surface water into the mine adequate protection against such an irruption shall be provided and maintained.

74. Where any working has approached within 100 feet of any place containing or likely to contain an accumulation of water or other liquid matter, or of disused workings (not being workings which have been examined and found to be free from accumulation of water or other liquid matter) the working shall not exceed eight feet in width or height, and there shall be constantly kept extending to a sufficient distance, not being at any time less than 10 feet, in advance at least one bore-hole near the centre of the working, and sufficient flank bore-holes on each side, and, where necessary, above and below at intervals of not more than 15 feet.

75. Where work is being done in any seam or part of a seam below another seam or part of a seam containing an accumulation of water, adequate precautions shall be taken against such an irruption of water into the lower seam as would be likely to endanger the lives of the workmen in the mine.

76. (*1*) No working shall be made within a distance of 25 feet of the boundary of any mine property, or, in the case of a disputed boundary, within a distance of 25 feet of the boundary claimed by the owner of an adjacent mine until such time as a binding agreement has been reached as to the correct boundary or the question has been finally determined by a court of law.

(*2*) Notwithstanding anything contained in sub-regulation (*1*) the Chief Inspector may, by order in writing, permit the working of any mine or part of a mine to extend to within any shorter distance than 25 feet of the boundary of the mine, or may require that the working of any mine or part of a mine shall not extend further than any specified distance (not exceeding 50 feet) of the boundary of the mine.

(*3*) The owner of any mine affected or likely to be affected by any order passed by the Chief Inspector under sub-regulation (*2*) may prefer an appeal to the Mining Board constituted under section 10 of the Act, or, if no Mining Board has been so constituted for the province in which the mine or part of a mine is situated to the Local Government, and the order of the Mining Board or of the Local Government thereon shall be final.

77. In any mine or part of a mine in which persons have to work or which persons have to traverse, the pillars left to support the roof shall be of such a size as to prevent sudden or unexpected collapse of the workings in such a way as would be likely to endanger the lives of the persons in the mine.

78. The extraction of pillars of coal which have been left in the first working of the seam shall be conducted in such a way as to prevent as far as possible a collapse or subsidence of the goaf extending over pillars which have not been extracted. Adequate timber or other supports shall be used where necessary.

79. Where the method of extraction is to remove all the coal, or as much of the coal as is practicable and allow the roof to fall in, operations shall be conducted in such a way as to leave as small an area of uncollapsed roof as possible and, where practicable, means shall be taken to bring down the roof at regular intervals.

80. In any mine in which two or more seams are in close proximity to each other, the pillars in the one seam shall be, as far as practicable, vertically above or below the pillars in the other seam. No work in a higher seam shall be done over an area in a lower seam which may collapse unexpectedly.

81. Reasonable provision shall be made in every mine to prevent—

(*a*) an outbreak of fire in the mine or the spread of fire to the mine from any mine adjacent to it,

(*b*) inundation by water from a neighbouring mine, and

(*c*) the premature collapse of workings, and

to isolate, control or remedy, as the case may require, any such outbreak, inundation or collapse which may occur.

82. No person shall work in any place other than a place in which he has been ordered to work by an official of the mine or by any person in whose charge he has been placed by an official of the mine.

83. Every person shall examine his own working place before commencing work, and also at intervals during the shift. If any dangerous condition is observed by him he shall either remedy it or immediately leave the place and report the fact to an official of the mine, who shall deal with the matter without delay.

84. No person shall cut coal from any pillar, roof or floor unless specially so authorised by the manager, under-manager, or other person empowered by the manager in that behalf.

CHAPTER VIII.

HAULAGE.

85. Every haulage road on which the haulage is worked by gravity or mechanical power shall be provided with sufficient manholes for places of refuge, occurring at intervals of not more than 60 feet, and being not less than 5 feet in height, 3 feet in width and 4 feet in depth. Where the inclination is more than 1 in 6 the manholes shall be at intervals of not more than 30 feet. Every manhole shall be kept clean and nothing shall be placed across the entrance thereto so as to impede ingress:

Provided that in any case in which an Inspector considers that there are difficulties which make the provision of a manhole at the above specified distance from another manhole or of the above specified dimensions not reasonably practicable, he may, by order in writing, specify a greater distance or reduced dimensions.

86. Every haulage road on which the haulage is worked by gravity or mechanical power, and which exceeds 100 feet in length, shall be provided with some proper means of communicating distinct and definite signals from all regular stopping places to the place or places at which the persons who control the haulage machinery are stationed :

Provided that the Chief Inspector may, at his discretion and by order in writing, require that there shall be means of communicating signals in the reverse direction also.

The first four or principal signals shall be :—

Three raps	START when at rest.	
One rap	STOP when in motion.	
Two raps	LOWER SLOWLY or HAUL IN SLOWLY.	
Four raps	RAISE SLOWLY or HAUL OUT SLOWLY.	

Any other signals shall be in addition to and shall not interfere with the foregoing :

Provided that the Chief Inspector, by order in writing, may, at his discretion, permit the use of a different code of haulage signals.

87. A printed copy of the code of haulage signals shall be kept posted at the brake-wheel or haulage engine, and at both ends of the haulage road and at every signalling station.

88. The signal handle or attachment at every stopping place on any haulage or self-acting incline shall be placed in such a position as will enable the person operating the signals to be safe in the case of a runaway tub or tubs on the incline.

89. At the top of every incline on which the haulage, not being endless rope or endless chain haulage, is worked by mechanical power or gravity there shall be stop-blocks or other similar contrivances to prevent tubs from running away. Additional stop-blocks or runaway switches, or some other appliance for arrresting the descent of tubs in the event of a runaway, shall be fixed below the first stop-blocks at a greater distance than the length of a train of tubs. There shall also be provided and attached behind the ascending tub or train of tubs a back-stay, drag or other suitable contrivance for preventing the tub or tubs from running back.

90. No person shall permit a tub or tubs to run uncontrolled except with the consent of the manager :

Provided that the Chief Inspector may, by order in writing, prohibit the uncontrolled movement of tubs at any place where, in his opinion, there would be danger of injury to persons.

91. Where haulage is effected by means of an endless rope or chain, automatic catches shall be fixed at such points on the haulage road as may be necessary to prevent tubs from running away.

92. No person shall ride on any tub, truck or wagon, either above or below ground, except with the written permission of the manager.

93. Where the Chief Inspector so requires, travelling roads, to and from the working places, separate from the haulage roads, shall be provided.

CHAPTER IX.

EXPLOSIVES.

94. No owner, agent or manager shall store, or knowingly allow any other person to store, within the premises of the mine, any explosives otherwise than in accordance with the provisions of rules made under the Indian Explosives Act, 1884.

95. No explosive shall be stored in the workings of a mine or kept in a dwelling house.

96. No explosive shall be used in a mine except that provided by the manager.

97. The manager shall appoint in writing a competent person or persons to be in charge of every magazine for the storage of explosives, and no person shall be in charge of a magazine without such written authority.

98. Explosives shall be issued only to competent persons appointed in writing by the manager, and no unauthorized person shall have explosives in his possession.

99. Gunpowder shall not be issued for use in blasting operations in a mine, or used in a mine except in the form of cartridges.

100. Explosives unused and left over at the end of a shift shall be returned to the magazine immediately after the end of the shift. Such returned explosives shall be re-issued before fresh stock is used.

101. The person in charge of a magazine shall keep a correct record of the quantity of gunpowder and of the numbers of cartridges of other kinds of explosives and of detonators issued from the magazine to each authorized person, and a similar record of explosive returned to the magazine.

102. The preparation of cartridges from loose gunpowder, the drying of gunpowder and the re-construction of damp cartridges shall be carried out only by a competent person or persons appointed in writing by the manager for the purpose, and only in accordance with the conditions laid down in rules made under the Indian Explosives Act, 1884, and in a place approved by the licensing authority.

103. No explosive shall be taken into a mine except in secure closed cases or canisters, containing not more than five pounds each, and no person shall have in use or keep for use at one time in any one place, more than one such case or canister. The place, in the mine at which any such case or canister is in use or is kept for use, shall, unless solid ground directly intervenes, not be less than 30 feet from a place at which any other such case or canister is in use or kept for use :

Provided that the Chief Inspector may, in special cases, and by order in writing, permit subject to such limitations as he may prescribe the use at one time in one place of more than one such case or canister.

104. Every charge shall be placed in a properly drilled and placed shot-hole and shall have sufficient stemming. A sufficient supply of clay or other suitable stemming material shall be provided at places convenient to the shot firers.

105. No shots shall be stemmed or fired save by, or under the personal direction of, a competent person appointed by the manager, by an order in writing, for the purpose.

106. Any person so authorised, when about to fire a shot, shall give sufficient warning to all persons likely to be endangered by the same.

107. When two working places have approached to within 10 feet of one another, no blasting shall be done in any one of such workings unless the workmen have been withdrawn from the other working, and the same has been fenced.

Explanation.—For the purposes of this regulation, any place to which workmen have lawful access shall be deemed to be a working place.

108. In the process of charging or stemming for blasting, no person shall use or have in his possession any iron or steel pricker, scr: per tamping rod, or stemmer, and only clay or other non-inflammable substance shall be used for tamping or stemming.

109. When a hole has been charged, the explosive shall not be unrammed, and no hole shall be bored at a distance of less than 12 inches from any hole where a charge has misfired.

110. Detonators shall be kept in a securely locked box separate from any other explosive and no detonator shall l e inserted into the priming cartridge until immediately before it is to be used :

Provided that in the case of a wet working, priming cartridges may be prepared at the nearest convenient dry place adjacent to the working.

111. No explosive shall be forciby pressed into a hole of insufficient size.

112. In any place in which the use of a locked safety lamp is for the time being required by or in pursuance of these regulations, or which is dry and dusty, the shot firer shall not fire a shot or allow a shot to be fired until he has examined both the place itself. where the shot is to be fired, and all contiguous accessible places within a radius of 60 feet, and has found such place safe for firing.

113. If in any mine inflammable gas has been reported to be present in the ventilating district in which a shot is to be fired, the shot shall not be fired—

(*a*) unless a competent person, appointed by the manager, has examined the place where gas has been so reported to be present, and has found that such gas has been cleared away, and that there is not at or near such place sufficient gas issuing or accumulated to render it unsafe to fire the shot; and

1 & 2 Geo 5, ch. 50. (*b*) unless the explosive used is one of the "Permitted Explosives" allowed to be used by any order under the Coal Mines Act, 1911.

114. After a shot has been fired the person who fired the shot or a competent person appointed in writing by the manager of the mine shall, before any other person enters the place, make a careful examination and with his assistants make the place safe. No other person shall enter the place until the examination has been made and the place has been declared to be safe in all respects.

115. When a shot has misfired, the entrance to the firing place shall be fenced, and no person shall go beyond the fence until the expiration of one hour from the time of firing; but when the shot has been fired by means of an electric apparatus, this interval may be reduced to such time, not being less than ten minutes after the cable has been disconnected from the firing battery, as the manager of the mine may in each case direct.

116. When a shot has misfired, the official or other competent person in charge of the explosive at the time of the misfire shall report the failure to the manager or under-manager, who shall record the fact in a book to be kept for the purpose; and such official or other competent person shall give information of the failure to such person as may relieve or take over charge from him.

117. When a misfired charge of explosive has been blasted out, a careful search for cartridges and detonators, if any, shall be made amongst the debris, and, if not located underground, the tubs into which the debris is loaded shall be marked and a further search made on the surface.

CHAPTER X.

VENTILATION AND LIGHTING.

118. An adequate amount of ventilation shall be constantly produced in every mine to clear away smoke and to dilute and render harmless inflammable and noxious gases to such an extent that the working places of the shafts, levels and workings of the mine, and the travelling roads to and from these working places, shall be in a safe state for persons working or passing therein.

119. In every mine in which inflammable gas has been found within the previous twelve months or where workings have been walled off on account of fire, the quantity of air in the main air currents or splits shall, at least once in every month, be measured and entered in a book.

120. No lamp or light other than a locked safety lamp of a type approved by the Chief Inspector shall be allowed or used—

(*a*) in any place in a mine in which there is or is likely to be any such quantity of inflammable gas as to render the use of naked lights dangerous, or

(*b*) in any working approaching near a place in which there is likely to be an accumulation of inflammable gas, or

(*c*) in any seam in which an explosion or ignition of inflammable gas has occurred within the previous twelve months:

Provided that in the case of any mine an exemption may be given by the Chief Inspector on the ground that on account of the special character of the mine, the use of safety lamps is not required.

121. In any mine in which inflammable gas has been found during the previous twelve months, safety lamps shall be used as a precautionary measure in all galleries driven in advance of the ordinary galleries.

122. Where the use of safety lamps has been introduced in any part of a ventilating district, naked lights shall not be used in any other part of the same ventilating district situated between the place where such lamps are used and the return airway, except where the use of safety lamps in that part of the district has been introduced as a precautionary measure, and the conditions are not such as to render necessary the introduction of the use of safety lamps throughout the district.

123. All safety lamps in ordinary use shall be numbered, and such record shall be kept of the persons to whom the lamps are issued that the user of any particular lamp can at any time be identified from the record.

124. In any mine or part of a mine in which the use of safety lamps is for the time being required by or in pursuance of these regulations, the following provisions shall have effect, namely:—

(*a*) A competent person shall be appointed by the manager to clean, trim, examine and securely lock all such lamps before they are taken into the workings for use, and such lamps shall not be used until they have been so examined and found to be in safe working order and securely locked.

(*b*) The banksman or other competent person appointed by the manager for the purpose shall examine every safety lamp at the surface immediately before it is taken underground for use and shall assure himself as far as practicable from external observation that each lamp is in safe working order and securely locked.

(*c*) No safety lamp shall be unlocked except at the appointed lamp station.

(*d*) No person, unless he has been authorised in writing by the manager either for the purpose of examining or relighting safety lamps, shall have in his possession any contrivance for opening the lock of a safety lamp.

(*e*) No person shall have in his possession any unlocked safety lamp, naked light, match, smoking apparatus, or any apparatus of any kind for striking a light except within a completely closed chamber attached to the fuse of a shot; and if it appears to any person that any safety lamp in his possession is defective or insecure he shall at once remove it from the mine and return it to the person authorised to issue safety lamps.

Explanation.—For the purposes of this regulation the term "manager" includes an under-manager and any person for the time being carrying on the duties of the manager.

125. Where the use of safety lamps is for the time being required by or in pursuance of these regulations, one or more lamp stations for lighting or relighting the lamps shall be fixed by the manager at the entrance to the mine or part of the mine, as the case may require. No such lamp station shall be in a return airway. Every such lamp station shall be in charge of a person authorised in writing by the manager.

126. No person other than a person authorised by the manager to examine and lock safety lamps shall either himself take or give out for use any safety lamp.

127. No person shall wilfully damage, or improperly use, or by improper means extinguish, any safety lamp, and no one except a person duly authorized by the manager in that behalf shall unlock or open or attempt to unlock or open any safety lamp.

128. If any person discovers the presence of inflammable gas in his working place he shall immediately withdraw therefrom and inform the sirdar, overman or manager.

129. In any underground part of a mine where stationary lights are not in use, every person shall carry a light.

130. No person shall leave a light or fire in any underground part of a mine unless before doing so, he has placed it in charge of some person remaining therein.

131. Every person after passing through a door or brattice-cloth shall at once close it.

132. No person shall wilfully kindle a " feeder " or an accumulation of gas.

133. After the 1st day of July, 1927, or such later date as the Chief Inspector may fix for any mine in view of the special circumstances thereof, there shall, in every mine in which a mechanical contrivance for ventilation is used, be provided and maintained, in a condition to be put into immediate operation, adequate means for reversing the air current.

CHAPTER XI.

FENCINGS AND GATES.

134. (*1*) Every side entrance to a mine from the surface, and the top and all entrances between the top and the bottom, including the sump (if any), of every working, ventilating, or pumping shaft, and the top of every open excavation, shall be kept properly fenced :

Provided that any fence may be temporarily removed for the purpose of repairs or other operations, if proper precautions are used.

(*2*) Shafts and quarries temporarily or permanently out of use and any place in or about an excavation which is dangerous shall be kept properly fenced.

135. (*1*) Every side entrance to a mine from the surface, by which the mine can be entered on foot and which is regularly used as a travelling or haulage road, shall be provided with a gate, which shall be kept closed and locked when there are no persons underground in the mine, and shall be so constructed as to prevent effectually, when closed the entrance of persons into the mine.

(*2*) Every side entrance to a mine from the surface by which the mine can be entered on foot, which is not regularly used as a travelling or haulage road, shall be permanently closed or kept properly fenced, across the whole width of the entrance. When an entrance is fenced, the fencing shall be so constructed as not to prevent egress in case of emergency.

136. Every entrance to any place in a mine (including airways and travelling roads to second outlets), which is not in actual use or course of working or extension, shall be kept properly fenced across the whole width of the entrance, and every such fence shall be so constructed as effectually to prevent persons from entering such place inadvertently.

137. Where any place in a mine is found to be dangerous, all approaches to the place shall be kept securely fenced off so that it cannot be entered inadvertently.

138. Every fly-wheel and all exposed and dangerous parts of the machinery of whatever kind used in or about a mine shall be kept securely fenced, guarded or cased in such a manner as may be necessary to prevent accident.

CHAPTER XII.

MISCELLANEOUS.

139. If any person, when in charge of any machinery, apparatus or appliance used in or about a mine, observes any defect or dangerous flaw therein, he shall immediately report the fact to the manager, under-manager or engine-wright, or other responsible official.

140. Every person shall strictly comply with all lawful orders issued by the manager or such other official as may be empowered by the manager to issue the same.

141. No person who has been appointed by the manager in writing for a specific duty shall depute another person to do his work without the sanction of the official to whom he is subordinate; and no such person shall absent himself without having previously obtained permission from such official for the term of his absence or without having been relieved by another person appointed as aforesaid,

142. No person who has been appointed in writing by the manager for a specific duty shall sleep whilst on duty.

143. No person shall negligently or wilfully do anything likely to endanger life or limb in the mine, or negligently or wilfully omit to do anything necessary for the safety of the mine or the persons employed therein.

144. No person shall damage, destroy or improperly interfere with anything provided for or used in the working of the mine.

145. No person shall remove or pass through any fence, or remove or pass any danger-signal, unless so specially authorised by the manager or an officer empowered by the manager in that behalf.

146. A competent person or persons appointed by the owner, agent or manager for the purpose shall keep a correct record of the number of persons going below ground daily and returning from below ground daily and if required by the manager every person shall immediately before going below ground and after returning from below ground record his presence in accordance with any system approved for the mine by the Chief Inspector or an Inspector :

Provided that this regulation shall not apply in the case of any person appointed to carry out duties of superintendence, management or control.

147. When wagons are about to be moved persons likely to be endangered shall be warned by the persons in charge of the work.

148. The movement of railway wagons by gravity or manual power shall only be carried on under the direct supervision of a responsible male person who shall either himself control the brake or depute a competent person to do so. Where more than one wagon at a time is being moved the wagons shall be coupled together. Persons employed in moving wagons shall do so only by pushing from behind the last wagon. No child shall be allowed to assist in the movement of railway wagons.

149. After an explosion of fire damp or coal dust or an outbreak of fire in a mine only such persons as are authorised by the manager or an official appointed by the manager for the purpose, or in the absence of the manager or such official by the principal official of the mine present at the surface, shall be allowed to enter the mine.

150. Where rescue or recovery work is being undertaken in a mine or part of a mine likely to contain an irrespirable atmosphere, no party of less than three shall be allowed to enter.

151. In any mine in which an underground fire exists, whether such fire has been sealed off by means of stoppings of non-inflammable material or not, or in which an explosion of firedamp or coal dust is likely to occur, two or more small birds or mice for the purpose of testing for carbon mon-oxide and two or more safety lamps for the purpose of testing for inflammable and other gases shall be kept at the mine constantly available for use :

Provided that the Chief Inspector or an Inspector may require compliance with this regulation in the case of any other mine if he thinks that the circumstances of the mine are such as to require it.

152. Where any person required by these regulations or by any rule or bye-law to make any report is unable to write, he shall be present when his report is written for him, and shall have it read over to him, and shall attach his thumb-mark to it. The person writing the report shall also sign his name at the end together with a statement that it has been read over to the person for whom it was written.

[SEE REGULATION 13.]

Notice of Accident.

From—

To—The Chief Inspector of Mines,

through the $\frac{\text{District}}{\text{Subdivisional}}$ Magistrate of

Dated 19 .

SIR,

I have the honour to furnish the following particulars of a fatal accident / a serious accident / an accidental explosion or ignition / an outbreak of fire / an irruption of water which has occurred at the Mine :—

1. Situation of the mine, (Village, Station, District, Province.)			
2. Name and postal address of owner ...			
3. Name and sex of persons—		Age.	Occupation.
Killed.	Injured.		
4. Date and hour of the occurrence ...			
5. Place of the occurrence			
6. Cause and description			
7. Classification of accident*			
8. Nature of injury, and if fatal cause of death			

I have the honour to be,

SIR,

Your most obedient servant,

Owner.

Agent.

Manager.

* Under one or other of the following heads, namely—

(1) Explosions and ignitions of fire damp ; (2) falls of roof ; (3) falls of sides ; (4) in shafts (overwinding) ; (5) in shafts (ropes and chains breaking) ; (6) in shafts (while ascending or descending by machinery) ; (7) in shafts (falling down shaft) ; (8) in shafts (things falling down shaft) ; (9) in shafts (miscellaneous) ; (10) suffocation by gases ; (11) by explosives ; (12) irruptions of water ; (13) haulage ; (14) by underground machinery ; (15) sundries underground ; (16) by surface machinery ; (17) boilers or pipes bursting ; (18) on surface railways or tramways belonging to the mine ; (19) by electricity ; (20) miscellaneous on surface.

No. M.-1055 (2).—The following draft of regulations which it is proposed to make in exercise of the powers conferred by section 29 of the Indian Mines Act, 1923 (IV of 1923), is published as required by sub-section (1) of section 31 of that Act for the information of all persons likely to be affected thereby and notice is hereby given that the said draft will be taken into consideration on or after the 20th December 1925. Any objection or suggestion which may be received from any person in respect of the draft before the date specified will be considered by the Governor General in Council :—

Draft Regulations for All Mines except Coal Mines.

1. (*1*) These regulations may be called the Indian Metalliferous Mines Regulations, 1925,

(*2*) They shall apply to every mine of whatever description other than a coal mine.

2. In these regulations, unless there is anything repugnant in the subject or context—

(*a*) "the Act" means the Indian Mines Act, 1923 ;

(*b*) "the District Magistrate", in relation to any mine, means the District Magistrate of the district in which the mine is situated :

Provided that in the case of a mine which is situated partly in one district and partly in another, the District Magistrate for purposes of these regulations shall be the one authorised in this behalf by the local Government.

(*c*) "Form" means a Form as set out in the Schedule ;

(*d*) "Schedule" means the Schedule to these regulations.

CHAPTER I.

RETURNS, NOTICES AND RECORDS.

3. (*1*) On or before the 21st day of January in each year the owner, agent or manager of every mine shall forward to the District Magistrate and to the Chief Inspector annual returns in respect of the preceding year in the following Forms :—

Mica Mines	In Forms I, II, III, IV, VI and VII
Manganese Mines	In Forms I, II, III, IV, V, VI and VIII.
Mines other than Mica and Manganese Mines.	In Forms I, II, III, IV, V, VI and IX.

(*2*) If any mine is abandoned or the working of any mine has been discontinued over a period exceeding three months or if a change occurs in the ownership of any mine the returns required by sub-regulation (*1*) shall be submitted, within one month from the date of abandonment or change of ownership or within four months from the date of discontinuance :

Provided that the Chief Inspector may by order in writing extend the period for the submission of such returns up to any date not later than the twenty-first day of January in the year following that to which they relate :

Provided further that nothing in this sub-regulation shall be deemed to authorise the submission of any return later than the twenty-first day of January in the year following that to which it relates.

4. The notice required by section 14 of the Act shall be furnished in duplicate, and shall specify the name and situation of the mine, the names and addresses of the owner and the manager, and, in the case of a new mine, the date on which it was opened. The District Magistrate shall on receipt of the notice forward one copy thereof to the Chief Inspector.

5. When a mine has been abandoned, or the working thereof has been discontinued over a period exceeding two months, the owner of the mine shall, within one month after the abandonment or within seven days after the expiry of the said period, as the case may be, send to the Chief Inspector notice in writing specifying the name and situation of the mine, the name and address of the owner, and the date and cause of the abandonment or discontinuance.

6. When a mine is re-opened after abandonment or discontinuance, the owner, agent or manager shall, within one month after the date of the re-opening, send to the District Magistrate notice in writing in duplicate, specifying the name and situation of the mine, the names and addresses of the owner and the manager, and the date of the re-opening. The District Magistrate shall on receipt of the notice forward one copy thereof to the Chief Inspector.

7. When a change occurs in the name of, or in the ownership of, a mine, notice in writing of the change and of the date thereof shall be sent by the owner, agent or manager to the Chief Inspector within one month from the date of the change.

8. When any new appointment is made of an agent or manager of a mine, or any change of address of any agent or manager occurs, notice of the appointment or change and of the date thereof shall be sent by the owner, agent or manager to the Chief Inspector within one month from the date of the change.

9. When the ownership of a mine is transferred, the previous owner or his agent or manager shall make over to the new owner all plans, books and other records required to be kept under the Act, and all correspondence relevant to the working of the mine with the Department of Mines and other Government departments.

10. If the owner, agent or manager of any mine intends to commence or extend any mining operations under his control at or to any point within fifty yards of any railway subject to the provisions of the Indian Railways Act, 1890, or of any public work in respect of which this regulation is applicable by reason of any general or special order of the Local Government under clause (*u*) of section 29 of the Act, he shall, not less than sixty days before commencing to carry out his intention, give, in the case of a railway, to the Railway Administration concerned or, in the case of any such public work as aforesaid, to such authority as the Local Government may, by general or special order, direct, and in any case to the Chief Inspector, notice in writing of such intention.

11. If the operations in respect of which notice is given under regulation 10 are not commenced within twelve months from the expiry of the period of sixty days therein referred to, the notice shall be held to have lapsed and the provisions of that regulation shall apply as if no such notice had been given.

12. The notice to be given under regulation 10 shall specify the position of the workings of the mine in relation to the railway or public work in question, the manner in which it is proposed to carry out the intended new operations, the limits to which it is proposed to carry the said operations, and shall include a plan showing the existing and the intended mining operations in so far as they affect the railway or public work in question.

13. When any accident occurs in or about a mine causing loss of life or serious* bodily injury, or when an accidental explosion, ignition, outbreak of fire or irruption of water occurs in or about a mine, the owner, agent or manager of the mine shall forthwith inform the inspector by telephone or telegraph, and shall also, within twenty-four hours of the occurrence of such accident, explosion, ignition, outbreak or irruption send notice thereof in Form X to the District Magistrate, or to the Subdivisional Magistrate who shall forward it to the Chief Inspector.

14. When any person dies from the result of an injury already reported as serious under regulation 13, the owner, agent or manager of the mine shall, within twenty-four hours of his being informed of the death, send notice thereof to the District Magistrate or to the Subdivisional Magistrate, who shall forward it to the Chief Inspector.

CHAPTER II.

PLANS.

15. (*1*) The following provisions in respect of plans shall apply to all mines for gold, manganese, copper, lead, tin, and wolfram and to such mines or classes of mines as the Governor General in Council may, by notification in the *Gazette of India*, specify.

(*2*) Nothing in this regulation shall be deemed to apply to any mine in which the workings do not extend below the super-jacent ground :

Provided that the Chief Inspector may direct that this regulation shall apply to any such mine to such extent as he may think fit.

16. The owner, agent or manager of every mine shall keep in the office at the mine an accurate plan and section or sections properly inked in on durable paper, of the workings of the mine on a scale of not less than 100 feet to 1 inch, showing the workings up to a date not more than six months previously. The name of the mine and of its owner and the scale shall be shown on the plan and sections, and the magnetic meridian with date shall be shown on the plan. The plans and sections shall also show all shafts, drives, crosscuts, winzes, rises, excavations (stoped ground), and any tunnels and passages connected therewith. They shall also show the boundaries of the underground leasehold, where possible, and all important surface features within the boundaries such as railways, roads, rivers, streams and reservoirs which overlie any part of the workings or any point within 600 feet of any part of the mine workings ; also the general strike of the veins or mineral deposits, with their dips at different points, and the dislocations of the strata.

17 The owner, agent or manager of every mine shall, at any time on the request of the Chief Inspector or of any Inspector produce to him at the office at the mine such plans and sections, and also, on the like request, mark on such plans and sections the then state of the workings of the mine ; and the Chief Inspector or Inspector shall be entitled to examine the plans and the sections, and for official purposes to make or have a copy made of any part thereof respectively.

18. (*1*) Where any mine or any considerable part of a mine is abandoned, or the working thereof has been discontinued over a period exceeding one year, the person who was the owner of the mine at the time of the abandonment or discontinuance shall, within

* See definition of the words "serious bodily injury" given in Section 3 (*k*) of the Act.

three months after the abandonment or within fifteen months after the discontinuance of working, as the case may be, send to the Chief Inspector accurate plans and sections of the workings of the mine up to the time of the abandonment or discontinuance, or a true and accurate copy of the same :

Provided that if a change of ownership occurs after the abandonment or discontinuance and before the expiry of the three months or the fifteen months aforesaid, as the case may be, such plans and sections shall be sent forthwith.

19. After the expiry of ten years from the date of abandonment or discontinuance of working in any mine or in any considerable part of a mine, the Chief Inspector may, on such conditions as he thinks fit to impose, permit any person having interest in the said mine or part of a mine to inspect the plan or section of such mine or part of a mine sent to him in accordance with the provisions of regulation 18 ; and he may further, on such conditions as he thinks fit to impose, supply to any such person copies of the like plan or section.

CHAPTER III.

MANAGEMENT.

20 (*1*) In every mine daily personal supervision shall be exercised by the manager.

(*2*) Where by reason of absence or for any other reason the manager is unable to exercise daily personal supervision the owner, agent or manager shall authorise in writing a person whom he considers competent to act as manager of the mine :

Provided that—

(*a*) no such authority shall have effect for a period in excess of one month ;

(*b*) the owner, agent or manager, as the case may be, shall send to the Chief Inspector with the least possible delay, a written notice intimating that such an authorisation has been made, and stating the reason for the authorisation, the qualifications and experience of the person authorised and the dates of the commencement and ending of the authorisation ; and

(*c*) the Chief Inspector may by order in writing revoke any authority so granted and such order shall be final.

CHAPTER IV.

SHAFTS AND OUTLETS.

21. Where any part of a mine is so situated that there is any danger whatever of an irruption of surface water into the mine adequate protection against such an irruption shall be provided and maintained.

22. (*1*) At every mine, other than an open quarry, where more than 20 persons are employed below ground, or where in the opinion of the Chief Inspector it is necessary, there shall be at least two shafts or outlets, not nearer to one another than 20 feet, affording separate means of ingress and egress available to all the persons employed in the mine.

(*2*) Proper arrangements shall be made for persons to descend to, and ascend from, the mine at each of such shafts or outlets. If apparatus is necessary, it shall be kept on the work belonging to the mine and shall be constantly available for use.

(*3*) The foregoing provisions of this regulation with respect to shafts and outlets shall not apply—

(*i*) while a shaft is being sunk or an outlet is being made ;

(*ii*) to any working for the purpose of making a communication between two or more shafts or outlets.

(*4*) The Chief Inspector may exempt from the operation of this regulation, subject to such conditions as he may think fit to impose, any mine in the case of which special difficulties exist which in his opinion make compliance with the provisions of this regulation not reasonably practicable.

CHAPTER V.

RAISING AND LOWERING PERSONS OR MATERIALS.

23. At every shaft or incline where persons or materials are lowered or raised by means of machinery the following provisions shall have effect, namely :—

(*a*) A single linked chain shall not be used for lowering or raising persons in any working shaft or plane, except for the short coupling chain attached to a cage, skip, wagon or bucket.

(*b*) Ropes used in raising and lowering persons and all cappings or sockets and shackles shall be of the best materials and kept in good condition. The working load shall at no time be more than one-sixth of the breaking load of the rope. A similar spare rope shall always be kept in reserve at mines where there is only one hoisting shaft.

(*c*) There shall be attached to every machine worked by mechanical power, and used for raising and lowering persons, one or more brakes of sufficient power by themselves to hold the cage, skip, wagon or bucket, when loaded, at any point in the shaft, and a proper indicator (in addition to any mark on the rope) showing to the person who works the machine the position of the cage, skip, wagon or bucket, in the shaft; and if the drum is not on the crank shaft, there shall be an adequate brake on the drum shaft :

Provided that in the case of a shaft or winze not exceeding 100 feet in depth or a shaft or winze in course of sinking so much of this clause as requires an indicator shall not apply.

(*d*) Every apparatus on or in which persons ride in a working shaft, shall be provided with a sufficient cover overhead, except—

(*i*) in that portion of a shaft which is being extended by sinking, or
(*ii*) where persons are employed at work in a shaft.

(*e*) Every working shaft used for the purpose of drawing mineral or for lowering or raising persons, shall, if exceeding 150 feet in depth, be provided with proper means of communicating distinct and definite signals from the bottom of the shaft, and from every entrance for the time being in use between the surface and the bottom of the shaft, to the surface, and from the surface to the bottom of the shaft and to every entrance for the time being in use between the surface and the bottom of the shaft.

(*f*) (*i*) The first three or principal signals shall be :—

One rap or bell	...	... RAISE when engine at rest.
One rap or bell	...	... STOP when engine in motion.
Two raps or bells	...	... LOWER.
Three raps or bells	...	... MEN ready to ascend or descend.
Three raps or bells	...	... IN REPLY. Men may enter the cage or other conveyance :

Provided that an alternative code may be used where the written permission of the Chief Inspector has been obtained.

(*ii*) Any other signals shall be in addition to, and shall not interfere with, the foregoing.

(*iii*) A printed copy of the code of shaft signals shall be posted at the shaft top and at every inset, and also at the winding engine.

(*g*) Every working shaft used for lowering or raising persons by machinery, other than machinery operated by hand labour, shall if exceeding 150 feet in depth be provided with guides to within not less than 100 feet from the bottom of the shaft.

(*h*) At all winding engines used for raising and lowering persons adequate stationary lights shall be provided and shall be used during working hours after dark.

(*i*) There shall be on the drum of every machine used for lowering or raising persons such flanges, horns or other appliances as may be sufficient to prevent the rope from slipping. The rope shall be securely fastened to the drum, and there shall be at least two turns of the rope on the drum when the cage, skip, bucket or box is at the bottom of the shaft

(*j*) Every cage shall be provided with catches or some other suitable contrivance to prevent tubs from falling out, and, if used for lowering or raising persons, shall be covered in completely at the top and closed in at the two sides in a sufficient manner to prevent persons or things from projecting beyond the sides, and shall be provided with suitable gates or other rigid fences and with a rigid hand bar fixed in a position where it can be easily reached by all persons in the cage.

(*k*) The manager, or a competent person or persons appointed by the owner, agent or manager for the purpose shall, once at least in every 24 hours examine the state of the external parts of the machinery and of the head-gear, ropes, chains, cages, guides, and conductors in the shafts and other similar appliances of the mine which are in actual use, both above ground and below ground, and, if more than 20 persons are employed in the mine simultaneously, shall without delay write or cause to be written a full and accurate report of the result of such examination. Every such report shall be recorded in a paged book to be kept at the mine for the purpose, and shall be signed and dated by the person who made the examination.

24. No person shall get on or off a cage, skip, tub or bucket used for lowering or raising persons after the same has been set in motion, or leave it until it has reached the appointed stopping place ; nor shall any such person ride on the top or edge of any cage, skip, bucket or box except when engaged upon work in the shaft.

25. No person, when ascending or descending a shaft, shall take with him any tools or other bulky materials, save when engaged in repairing the shaft or when otherwise specially authorized by the manager :

Provided that, in the case of tools only, the manager may, by general order, permit the same to be carried.

26. No person shall ride in a shaft on, or against, a loaded cage, skip, bucket or box.

27. Every person, when at or about the top or the bottom of a shaft, shall obey the orders and directions of the shaft attendants on duty at the time.

28. Every windlass, whim or whip in use at a shaft or winze shall be provided with a stopper, lynch peg, or other reliable holder.

29. The bucket, skip or any wagon in the cage shall not be filled up to such a height that any of the contents can fall out, and the bottom of the cage shall be kept clean.

30. When tools, wood, etc., with ends projecting over the top of the cage, skip or bucket are being lowered or hoisted, the projecting ends shall be securely fastened to the rope or bow.

31. Not more than such number of persons as may be authorised by the manager shall be allowed to ride in the same cage, tub, skip or bucket at one time, and a notice specifying the authorised number shall be posted at the top of every shaft and at every inset in a shaft.

32. When the winding apparatus is not provided with some automatic contrivance to prevent overwinding, a point shall be fixed and marked on the indicator of the winding engine at which, when persons are being raised, the cage or other conveyance shall not be raised at a speed exceeding three miles per hour after it is within a distance of twice the circumference of the drum from the surface.

33. In shafts exceeding 300 feet in depth, where persons are raised or lowered by machinery, suitable devices shall be fitted if, in the opinion of the Chief Inspector, such are required to provide against the overwinding of cages, skips or other conveyances or to safeguard persons liable to be injured in the case of an overwind

CHAPTER VI.

MINE WORKINGS.

34. The sides of open workings shall be sloped, stepped or secured in such a manner as to prevent danger from falls of material.

35. When an open working is worked in steps, steps shall be of sufficient breadth in comparison with their height to secure safety.

36. In open workings, trees liable to fall, the overburden and all loose ground and material, shall be removed sufficiently far from the edge, or otherwise made secure, in order to prevent danger to persons employed in the mine.

37. The roofs and sides of all travelling roads and working places shall be made and kept secure.

38. Where the ground is not safe, all shafts in use shall be made secure with suitable timber-work or other means of support.

39. A competent person or persons appointed for the purpose by the manager or underground manager shall inspect, at least once in every shift, every part of the mine in or through which any person has to work or pass, for the purpose of ascertaining the condition thereof as far as ventilation, roof, sides and general saftey are concerned, and, if more than 20 persons are employed in the mine simultaneously, shall without delay write or cause to be written a full and accurate report of the result of such inspection in a book to be kept at the mine for the purpose, and shall sign and date his report.

40. Every place where work is carried on or where men are stationed or pass shall be placed under the charge of a competent person appointed by the manager or underground manager.

41. If a working place or travelling road is found to be unsafe, all persons shall be withdrawn immediately from the dangerous area and all access to such working place or travelling road, except for the purpose of removing the danger or saving life, shall be prevented by securely fencing the full width of all entrances to the place.

42. The top and all entrances between the top and bottom of shafts, winzes, shoots or sliding holes and any openings in to a stope more than 10 feet deep below a drive and other dangerous openings, shall be provided with a permanent or removable barrier in order to prevent persons or things from falling into them. When a shaft, winze, rise or stope leads directly into a travelling road or place where persons are stationed at work, the traffic at such points shall be protected against danger from anything falling from above.

43. At every shaft station where it is necessary for persons to pass from one side of the shaft to the other, provisons shall be made enabling them to do so without entering or crossing a winding compartment.

44. All ladders, ladderways, platforms, doors, fences and other appliances and things in use underground shall be maintained in proper repair. Temporary ladders, platforms or other means of climbing or keeping a footing while at work shall be provided in sinks, winzes, rises, stopes and other places where they are needed.

45. Where any working is approaching any place containing or likely to contain a dangerous accumulation of water, the working shall not exceed 6 feet in width or height, and bore-holes shall be constantly kept at such a distance in advance of the face and at such angles from the working as is necessary to obviate the danger of a sudden breaking through of such water.

46. An adequate amount of ventilation shall be constantly produced in every mine to clear away smoke and to dilute and render harmless inflammable and noxious gases to such an extent that the working places of the shafts, levels, and workings of the mine, and the travelling roads to and from these working places shall be in a safe state for persons working or passing therein.

47. Underground workings and shafts, sumps and winzes, which have been in disuse for some time shall be examined before again being used in order to ascertain whether foul air or other dangerous gases have accumulated therein, and also to ascertain the condition of the roof and sides; and only such workmen as may be necessary to make such examination shall be allowed to proceed to such places until such places are certified to be in a safe state to work and travel in.

48. At all places where persons have to work underground in the immediate vicinity of shafts adequate stationary lights shall be provided and used during working hours, and a similar provision and use shall be made after dark at the tops of all working shafts.

49. In any underground part of a mine where stationary lights are not in use, every person shall carry a light.

50. No person shall work in any place other than a place in which he has been ordered to work by an official of the mine or by any person in whose charge he has been placed by an official of the mine.

CHAPTER VII.

LADDERWAYS.

51. In ladder-shafts making an angle of 25 degrees of less with the vertical, platforms shall be provided at intervals not exceeding 35 feet. Ladders shall be placed so as to cover the openings in the platforms: Provided that in cases where timber and supplies are handled, a portion of this opening may be to one side of the ladder and in the opposite corner of the platform. Except in respect of the lowest 30 feet of a sinking shaft, ladders shall be fixed at an inclination of not less than one foot horizontal for every 10 feet vertical: Provided that where exceptional circumstances require they may, with the consent of an Inspector, be fixed at a steeper inclination.

52. In ladder-shafts where the slope is less than 65 degrees and more than 30 degrees with the horizontal, platforms shall be placed at intervals of not more than 55 feet along the underlie or slope of the shaft.

53. All platforms shall be securely fenced.

54. All ladders shall be securely fastened to the sides of timbering of the shaft.

55. All ladders shall project at least three feet above the shaft-top and above every platform, of strong holdfasts shall be provided at these places in convenient positions.

56. A ladderway, which is a compartment of a shaft used also for other purposes, shall be closed off from the other compartments to such an extent as to prevent injury to workmen passing up and down the ladderway.

57. Every ladderway-opening in any travelling road or place where men are stationed or pass shall be provided with a door or with a substantial fence.

58. No person shall carry or be permitted to carry any drill, tool or any loose material on a ladderway in a vertical or steeply inclined shaft or winze, except so far as may be necessary in executing repairs.

CHAPTER VIII.

EXPLOSIVES.

59. The explosives provided for use in the mine shall be of good quality and, as far as can be practically known, in good condition, and only detonators of one strength and of sufficient power for every class of explosive used shall be kept for use in the same mine.

60. Explosives shall not be kept in a dwelling house, but only in a properly constructed magazine.

61. (*1*) Explosives shall not be stored underground in a mine except with the approval of an Inspector in writing, and in a magazine or magazines duly licensed in accordance with the provisions of rules made under the Indian Explosives Act, 1884.

(*2*) The manager shall appoint in writing a competent person or competent persons to be in charge of every magazine for the storage of explosives, and no person shall be in charge of a magazine without such written authority.

(*3*) Explosives shall be issued only to competent persons appointed in writing by the manager, and no unauthorized person shall have explosives in his possession.

(*4*) The person in charge of a magazine shall keep a correct record of the quantity of gunpowder and of the numbers of cartridges of other kinds of explosives and of detonators issued from the magazine to each authorized person, and a similar record of explosives returned to the magazine.

62. Underground magazines shall be placed at a sufficient distance from one another and from any portion of the mine, in which work is going on or which is used as a travelling road, to prevent the risk of injury to any person in the event of the explosion of the maximum amount of explosive stored.

63. The quantity of explosive which may be stored in an underground magazine shall not exceed the supply required for one working day in the level in which the magazine is situated and working places adjacent thereto.

64. Detonators shall be kept in a securely locked box separate from any other explosive and no detonator shall be inserted into a priming cartridge until immediately before it is to be used :

Provided that, in the case of a wet working, priming cartridges may be prepared at the nearest convenient dry place adjacent to the working.

65. Every precaution shall be adopted to prevent the explosion or ignition of explosives stored in an underground magazine. An Inspector may prescribe precautions to be adopted in addition to those required by the terms of the explosives licence.

66. No naked light shall be taken into an underground magazine or store.

67. Explosives shall not be sent down in the cage, skip or bucket unless there is a distinguishing mark attached to the cage, skip or bucket, or they are accompanied by a shot-firer or responsible person.

68. All blasting operations shall be conducted by, or under the personal direction of, duly competent persons, not less than 18 years of age, appointed in writing by the manager or underground manager of the mine. The names of these persons shall be registered in a book to be kept for the purpose.

69. The number of shots fired, the quantity of explosives used and the number of shots (if any), which have misfired shall be recorded daily in a book to be kept for the purpose.

70. All unused explosives shall be returned to the magazine without delay. Such returned explosives shall be re-issued before fresh stock is used.

71. No explosives shall be taken into a mine except in a secure case, canister or bag containing not more than five pounds each, and a person shall not have in use or keep for use, at one time in any one place within the mine, more than one such case, canister or bag. The place in the mine at which any such case, canister or bag is in use, or is kept for use, shall, unless solid ground directly intervenes, not be less than thirty feet from a place at which any other such case, canister or bag is in use or kept for use :

Provided that the Chief Inspector may in special cases and by order in writing, permit, subject to such limitations as he may prescribe, the use at one time in one place of more than one of such cases, canisters or bags :

Provided further that nothing in this regulation shall prohibit the conveyance of larger quantities of explosives for supplying an underground magazine.

72. When explosives are being carried on a ladder, each case, canister or bag shall be securely fastened to the person carrying it.

73. In the process of charging or stemming a hole no person shall use an iron or steel tool, scraper or tamping rod, nor shall he forcibly press the explosive into the hole or strike it when at the bottom of the hole.

74. In any working place in an underground mine only those holes which are to be fired in the next round shall be charged, and all holes which have been charged shall be fired together.

75. Before a shot is fired in an underground working place due warning shall be given to persons in the vicinity, and every entrance to the place where a shot is about to be fired shall be guarded so as to prevent any person, not having received warning, from placing himself in dangerous proximity to the shot.

76. (*1*) When two working places in an underground mine have approached to within 10 feet of one another, no blasting shall be done in any one of such workings unless the workmen have been withdrawn from the other working, and the same has been fenced.

Explanation.—For the purpose of this regulation any place to which workmen have lawful access shall be deemed to be a working place.

(*2*) In open workings blasting shall not be commenced until such warning as will prevent danger to the persons working in the mine and in its vicinity has been given by an efficient system of signals or by other means arranged by the manager. Notice shall similarly be given as soon as blasting is finished.

77. When shots are fired, the number of reports shall be counted by at least two persons. The lowest count shall be taken to be correct. Unless it is certain that all the shots have exploded, no person shall re-enter such working place until 30 minutes after blasting, unless the shot has been fired by electrical means when this interval may be reduced to not less than ten minutes after the source of the electricity has been disconnected from the cable, and the place becomes clear of fumes. If the charge is known to have burnt away without exploding no person shall re-enter the working place for an hour.

78. After a shot has been fired in an under-ground mine the person who fired the shot or a competent person appointed in writing by the manager of the mine shall, before any other person enters the place, make a careful examination and with his assistants make the place safe. No other person shall enter the place until the examination has been made and the place has been declared to be safe in all respects.

79. No person shall bore out a hole that has once been charged or attempt to withdraw a charge either before firing or after a misfire, or deepen or tamper with empty holes or sockets left after blasting.

80. When a misfire occurs, a portion of the tamping may be sludged out with compressed air or water under pressure, but no kind of tool shall be used for this purpose. The hole shall thereafter be reprimed and fired.

81. No person shall drill or cause or permit to be drilled any hole within 12 inches of a misfired hole, and care shall be taken to drill the new hole in such a direction that there is no danger of touching the unexploded charge. The new hole shall be bored in the presence of an authorized shot-firer, and he shall be present during operations undertaken for the removal of rock lying within six feet of the misfired hole. A careful search amongst the debris shall be made for cartridges and detonators, if any.

82. If a place where a misfire has occurred is temporarily vacated a man shall be posted to warn all persons in the neighbourhood of the fact, or the place shall be fenced so as to prevent access. In open workings it will be sufficient to mark the place of misfire with a red flag.

CHAPTER IX.

MISCELLANEOUS.

83. At the top of every incline on which the haulage, not being endless rope or endless chain haulage, is worked by mechanical power or gravity there shall be stop-blocks or other similar contrivances to prevent wagons from running away. Additional stop-blocks or runaway switches, or some other appliance for arresting or diverting the descent of wagons in the event of a runaway, shall be fixed below the first stop-blocks at a greater distance than the length of a train of wagons. There shall also be provided and attached behind the ascending wagon or train of wagons a back-stay, drag or other suitable contrivance for preventing the wagon or wagons from running back.

84. Where wagons are moved by hand no person shall permit a wagon to run uncontrolled, and, if sprags are necessary a sufficient number shall be provided by the manager.

85. All water tanks and every fly wheel and all exposed and dangerous parts of the machinery used in and about a mine shall be kept securely fenced.

86. Efficient guards shall be provided for such parts of any machinery and any electrical conductors as may be a source of danger.

87. No person shall ride upon any tub, truck or wagon either above or below ground without the permission of the manager.

88. If any person, when in charge of any machinery, apparatus or appliance used in or about a mine, observes any defect or dangerous flaw therein, he shall immediately report the fact to the manager, under-manager or enginewright.

89. Every person shall strictly comply with all lawful orders issued by the manager or such other official as may be empowered by the manager to issue the same.

90. No person occupying any position of trust in or about a mine shall depute another person to do his work without the sanction of the official to whom he is subordinate ; and no such person shall absent himself without having previously obtained permission from such official for the term of his absence or without having been relieved by a competent person.

91. No person shall negligently or wilfully do anything likely to endanger life or limb in the mine, or negligently or wilfully omit to do anything necessary for the safety of the mine or the persons employed therein.

92. No person shall damage, destroy or improperly interfere with anything provided for or used in the working of the mine.

93. No person shall remove or pass through any fence, or remove or pass any danger-signal unless so specially authorised by the manager or an official empowered by the manager in that behalf.

94. No person occupying any position of trust in or about a mine shall sleep whilst on duty.

95. Where any person required by these regulations or by any rule or bye-laws made under the Act to make any report is unable to write, he shall be present when his report is written for him, and shall have it read over to him, and shall attach his thumb mark to it. The person writing the report shall also sign his name at the end together with a statement that it has been read over to the person for whom it was written.

96. Whenever the circumstances at any mine or part of a mine are such as to render any provision of these regulations not reasonably applicable to such mine or part of such mine the Chief Inspector may, at his discretion, grant exemption from such provision under such conditions as he may think fit

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

DEPARTMENT OF AGRICULTURE, BENGAL.

Preliminary forecast of the *Bhadoi* crops of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1923-24, the area under autumn rice in Bengal has represented some 6·2 per cent. of the total area under rice in British India.)

Character of the season.—Preparatory tillage for the autumn crops commenced under favourable weather conditions in East and North Bengal, with the result that the sowings were facilitated in the low lands by the early rainfall of March. The dry weather which followed up till the first half of April somewhat hindered growth and delayed further sowings over the greater part of Eastern Bengal. Later continuous and excessive rain caused water-logging on low lands in certain North Bengal districts and parts of Mymensingh, thereby affecting the crops considerably. During the early part of May weather was more favourable for the growth, but towards the latter part heavy showers again proved injurious. The districts which suffered most were Dinajpur, Rangpur,

Bogra, Malda, Mymensingh, Bakarganj, Tippera and Noakhali. Occasional showers with alternate sunshine in June helped the standing crops to recover from the effects of prolonged wet weather. In West Bengal the weather was favourable in its early stages, but insufficient rainfall during the period of growth adversely affected the outturn. On the whole the season has been an unfavourable one for the crops.

Acreage.—The total area sown with the different *bhadoi* crops this year is reported to be 5,864,200 acres, as against 5,539,400 acres and 5,606,100 acres, respectively, in the corresponding and final forecasts of last year. Of this the area under autumn rice is estimated at 5,134,200 acres, as against 4,789,900 acres and 4,857,200 acres, respectively, in the corresponding and final forecasts of last year. The increase is mainly due to revision of estimates in Bankura and Midnapore.

Outturn.—According to the District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 72 per cent. of the normal, as against 65 and 73 per cent. reported, respectively, in the corresponding and final forecasts of last year. The autumn rice yields an outturn of 71 per cent. of the normal for the province this year, as against 64 and 73 per cent. reported in the corresponding and final forecasts of last year.

BANKURA.	*Bhadoi* paddy (autumn rice).	278,000*	5,000	196,000	83	67	1st July. Normal.	The increase in area under *aman* paddy is due to revision made on the basis of the last settlement records; so long the transplanted *aus* paddy was being shown under winter paddy. The weather was favourable at the sowing time, but owing to want of sufficient rains from the middle of July it has retarded the cultivation and growth of the crops. The outturn is therefore much below the normal.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Winter Rice Crop of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1923-24, the area under winter rice in Bengal has represented some 18 7 per cent. of the total area under rice in British India.)

Character of the season.—At the outset the weather was generally favourable for the preparatory tillage and for the sowing of broadcast paddy. The rainfall in April being much in excess of the normal, impeded the sowing of broadcast paddy in the low-land tracts of North and East Bengal. In May the ploughing of fields for transplanted winter paddy was proceeding in West Bengal districts, while excessive rain in the latter half hindered the field operations in North and East Bengal. Occasional showers with alternate sunshine in June helped the sowing of seedbeds for transplanted paddy. The rainfall in July was about the average, with the result that the transplantation was proceeding favourably, except in the highland tracts where the progress was slow owing to want of sufficient rain. Deficient rainfall in August further delayed transplantation in West Bengal and in parts of Mymensingh ; elsewhere the operation was normally active. The gradual rise of rivers during the course of the month helped the growth, especially in the riparian tracts of Eastern Bengal. Good rainfall in the beginning of September further facilitated transplantation. As a result of the weak monsoon the area has been decreased considerably and the outturn is also likely to be affected in the high-land tracts. On the whole the outlook is promising in East and North Bengal, but only fair in West Bengal.

Acreage.—According to the figures returned by the District Officers, the total area under winter rice is 14,976,300 acres, as compared with 15,430,500 and 15,589,800 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended, it will be seen that eight districts expect a normal crop, nine districts 94 to 83, three districts 79 to 70, and the rest below 70 per cent. of the normal crop. According to the above estimates the provincial outturn works up to 86 per cent., as against 87 and 86 per cent. of the normal estimated, respectively, in the first and the final forecasts of last year.

Director of Agriculture, Bengal (offg.).

24-Parganas ...	840,600	709,600	749,800	92	83	End of April to end of June. Normal.	July. Normal ...	The increase in area is due to timely rainfall. The weather has been fair. A little damage due to drought has been reported from the Barasat subdivision. The outturn is below the normal for want of sufficient rain.
Nadia	136,800	150,400	130,900	67	67	Latter part of May. Normal.	Beginning of July. Late.	The decrease in area is due to want of sufficient rain both at the time of sowing and transplantation. Insufficient and unequal distribution of rainfall has adversely affected the crop.
Murshidabad ...	351,400	279,900	264,400	83	67	June to end of July. Partly normal and the rest late.	End of July to August. Late.	The decrease in area is due to want of timely rainfall both at the time of sowing and transplantation. Insufficient rainfall has retarded the growth of the crop.
Jessore ...	658,800	483,000	474,900	75	67	End of April. Normal.	July. Late ...	The decrease in area is due to want of sufficient rain at sowing time and partly due to increased cultivation of jute in Magura. The effects of weather have not been favourable. Some damage has been caused by drought.
Khulna ...	800,000	740,800	722,700	100	100	End of June to May. Normal.	July. Normal ...	The weather has been favourable.
Burdwan ...	731,100	755,200	693,200	100	75	Middle of June. Late.	Middle of July. Late.	The decrease in area is due to insufficient rain, which is causing some damage. The weather was favourable at the beginning but not so subsequently. More rain is needed.
Birbhum ...	604,700	446,100	537,000	92	67	June. Normal ...	July. Normal ...	The weather has been partly good and partly bad. Owing to insufficient rainfall transplantation is still proceeding.
Bankura ...	*440,000	550,000	320,000	75	67	Normal	End of July. Late	The abnormal decrease in area is due to revision based on settlement records, a large area under transplanted autumn paddy being so long shown under winter paddy The weather was favourable at the sowing time, but drought at the time of transplantation has been retarding the growth of the crop.
Midnapore ...	1,537,100	1,450,000	1,411,800	83	83	Middle of June. Late.	Middle of July. Late	The decrease in area is due to late monsoon. The effects of weather have not been favourable due to insufficient rain which is likely to cause damage to the crop.
Hooghly ...	352,100	184,400	142,000	83	67	End of May. Normal.	Ditto ...	The decrease in area is due to inadequate rainfall at the time of transplantation. The weather was favourable at sowing time but unfavourable afterwards. Owing to failure of rain many fields could not be ploughed and the plants withered in many places before they could be transplanted. Considerable damage has been done by drought.
Howrah ...	117,000	92,700	92,700	100	92	Middle of May. Normal.	End of June. Normal.	The weather has been favourable.
Rajshahi ...	822,700	685,500	566,000	100	83	April. Normal.	July. Normal	The decrease in area is due to the fact that transplantation is still in progress owing to insufficient rainfall. The weather has been fair. Damage is reported from the Natore subdivision.
Dinajpur ...	1,055,300	986,100	926,700	83	79	First week of May. Early.	First part of July. A little late.	The decrease in area is due to late rainfall. The effects of weather have not been favourable owing to late rainfall which is likely to reduce the outturn.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 30th September 1925.

Summary.—The rainfall during the week continued generally light almost throughout the province, the fall being, however, heavy in parts of Jalpaiguri, Rangpur and Mymensingh. More rain is urgently required in the West Bengal districts for the growth of standing crops. Weeding of winter rice and preparation of fields for spring crops continue. The prospects of standing crops are reported to be fair. The average price of common rice for the province has fallen by about 0·10 per cent. as compared with that of the previous week.

RESOLUTION ON THE ANNUAL REPORTS OF THE BENGAL VETERINARY COLLEGE AND OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, FOR THE YEAR 1924-25.

GOVERNMENT OF BENGAL.

AGRICULTURE AND INDUSTRIES DEPARTMENT.

Veterinary.

DARJEELING, THE 23RD SEPTEMBER 1925.

RESOLUTION—No. 1011T.-A.I.

READ—

The Annual Reports of the Bengal Veterinary College and of the Civil Veterinary Department, Bengal, for the year 1924-25.

Mr. P. J. Kerr resumed charge of his duties as Director of the Civil Veterinary Department and Veterinary Adviser to Government on his return from leave on the 31st October 1924. During his absence Mr. A. D. MacGregor held charge of the office of Veterinary Adviser in addition to his own duties as Principal of the Bengal Veterinary College. Mr. R. T. Davis, the Vice-Principal, acted as Director, except for one month when he was on leave. Mr. S. S. Ahmed acted as Vice-Principal in Mr. Davis's place.

2. The number of students at the Bengal Veterinary College at the end of the session was 132 as compared with 143, 139 and 137 in the three preceding years. This steady decline in the number of students has been accompanied by a falling off in the number of Bengal students which dwindled from 71 in 1921-22 to 49 in the year under report. On the other hand, the percentage of unemployed among the passed students rose from 10 in the three years ending 1920-21 to 27 in the corresponding period ending 1923-24.

This unsatisfactory state of affairs has been referred to by the Veterinary Adviser in paragraph 78 of his report and is receiving the consideration of Government.

3. Useful work continued to be done in the Raymond Research Laboratory, in which besides the work on rabies, examination of pathological specimens, autopsies, etc., auto-vaccines were prepared which were extensively used in the college hospital with success. These were also supplied to private parties on payment. Research into improved methods of treatment for surra, and experiments on the mode of infection and the infectivity of different rabid materials in dogs were also carried on at the laboratory.

The Glanders Department continued to work efficiently and took prompt action to check outbreaks of epizootic diseases in and near Calcutta.

There was a decrease in the number of patients treated and operated on during the year at the college hospital from 2,573 to 2,088 and 601 to 218, respectively, with a corresponding fall in fee receipts from Rs. 34,060 to Rs. 30,038. An inquiry will be made into the causes of this falling off.

The experiment of growing fodder crops in the surplus area of the college compound, besides providing a continous supply of green fodder for the patients and reducing the cost of feed, has been a source of revenue which rose from Rs. 1,563 to Rs. 4,242.

4. The Principal has again drawn attention to the extremely small number of animals sent to the college infirmary in connection with prosecutions under the Prevention of Cruelty to Animals Act. The attention of trying Magistrates has been drawn to this matter in the past, and it is hoped that the trying Magistrates will in future invariably pass orders for sending all disabled and diseased animals to the Bengal Veterinary College infirmary for treatment.

5. The Director's report on the working of the department shows a fall in the mortality of live-stock in Bengal from 27,349 to 21,901. Although rinderpest took a comparatively low toll on bovines during the year it still accounted for 88 per cent. of the deaths. The districts which suffered most from the disease were Bankura, Tippera and Rangpur.

The record of the result of preventive inoculation undertaken during the year, which shows a negligible percentage (0·5) of death amongst the inoculated animals, is a striking proof of the protection it affords to animal life. In the resolution on the preceding year's report stress was laid on the great importance of prevention of cattle disease. His Excellency in Council, therefore, notices with regret that the decrease in number of inoculations principally against rinderpest was due, partly, to the restrictions imposed by certain district boards on the supply of serum. It is also reported that some of these local bodies are endeavouring to realise the cost of serum from the owners of cattle and that there is a general tendency to curtail the supply of serum during outbreaks. Government, while recognising that many district boards have to exercise strict economy in expenditure, desire to impress upon local bodies the fact that in an agricultural province like Bengal it is an essential part of their duties to make adequate provision for the protection of cattle by preventive inoculation against rinderpest.

The Veterinary Adviser's proposals on the subject of the supply of serum will receive the sympathetic consideration of Government.

During the year a start was made with serum simultaneous inoculation at the Rangpur cattle farm. This method of anti-rinderpest inoculation practically affords a life-long protection to the cattle so inoculated. It is hoped that the antipathy which at present exists against preventive inoculation owing to its effect being more or less temporary, will be gradually removed by the introduction of the new system. Government trust that the Veterinary Adviser will take early steps to give special training to the Veterinary Assistant Surgeons in carrying out the new method of inoculation and to popularise it among all sections of the public.

6. During the year of report the Veterinary Assistant Surgeons visited 15,022 villages and treated 94,894 cases against 14,571 and 75,657, respectively, in the preceding year.

The total number of patients treated in the 41 dispensaries in Bengal was 47,260 against 44,952 in the preceding year. Now that the usefulness of veterinary dispensaries is widely appreciated by the public, it is hoped that district boards will adopt a forward policy in the matter of establishment of new dispensaries so as to work up to the programme of a dispensary in each district and subdivisional headquarters with a Veterinary Assistant Surgeon in charge. There is at present no veterinary dispensary at the headquarters stations of the districts of Darjeeling, Jessore and Murshidabad, while 42 out of 58 subdivisional headquarters in the province are still without such dispensaries.

7. With a view to educating the masses in veterinary matters such as the improvement of cattle, prevention and treatment of cattle-diseases, etc., a scheme for propaganda through the medium of magic lantern demonstrations has been prepared at an estimated cost of Rs. 1,000 and necessary provision for the purpose has been made in the current year's budget.

8. The thanks of the Governor in Council are due to Mr. P. J. Kerr and Mr. A. D. MacGregor for their administration of the department during the year.

By order of the Governor in Council,

G. S. DUTT,

Secretary to the Government of Bengal.

INDIAN CIVIL SERVICE.

Open Competition of 1926.

An open Competitive Examination for admission to the Indian Civil Service will be held in London in 1926. The *viva voce* test (subject 6) will be held in July and each candidate will in due course be informed when he is to appear. The question papers for some written test that are taken by small numbers of candidates may also be set in July. The examination in section A subjects which are taken by all candidates will begin on the 2nd August.

The number of persons to be selected at this examination will be announced hereafter.

No person will be admitted to compete from whom the Secretary, Civil Service Commission, has not received, on or before the **15th May, 1926,** *an application on the prescribed form, a copy of which is sent herewith. No allegation that an Application Form or a letter respecting such Form has been lost or delayed in the post will be considered by the Commissioners unless the person making such allegation produces a Post Office Certificate of Posting. Candidates who delay their applications until the last days will do so at their own risk.*

Acknowledgments of such Application Forms are sent, and any candidate who has filled up and returned the printed Application Form but has not received an acknowledgment of it within four complete days should at once write to the Secretary, Civil Service Commission, Burlington Gardens, London, W. 1. Failure to comply with this provision will deprive the candidate of any claim to consideration.

Candidates will be notified in June of the date and place fixed for their viva voce *test and of the manner in which the fee* (£8) *is to be paid. The Time Table of the written part of the examination will be posted early in July to the address given on the Form of Application, and will contain instructions as to the time and place at which candidates are to attend.*

NOTE.

If Open Competitive Examinations for the following services, viz :—

Eastern Cadetships in the Colonial Service ;
Junior Grade of the Administrative Class in the Home Civil Service ;

should be held in 1926 concurrently with the Open Competitive Examination for the Indian Civil Service, candidates duly eligible in respect of age, etc., will be admitted to compete for any two or all three of these Services, subject to the following conditions :—

(1) Every successful candidate who may have been admitted to compete for either the Indian or the Colonial Service (or both), as well as for the Home Service, will be called upon to declare, immediately after the announcement of the result of the competitions, whether he prefers his name to remain on the list of candidates for the Indian or Colonial Service or on the list of candidates for the Home Service.

The name of any candidate who fails to declare his choice when called upon to do so will be removed from the list of candidates for the Home Service.

(2) Every successful candidate who may have been admitted to compete for both the Indian and Colonial Services will be called upon to declare, immediately after the announcement of the result of the competitions, whether he prefers his name to remain on the list of candidates for the Indian Service or on the list of candidates for the Colonial Service.

The name of any candidate who fails to declare his choice when called upon to do so will be removed from the list of candidates for the Colonial Service.

(3) All declarations of choice are irrevocable.

(4) Candidates for all three or any two of the abovementioned services will be required to pay a consolidated fee of £8.

CIVIL SERVICE COMMISSION,

August, 1925.

EXAMINATIONS FOR THE INDIAN CIVIL SERVICE.

REGULATIONS FOR ADMISSION TO THE INDIAN CIVIL SERVICE.

*** *The following Regulations, made by the Secretary of State for India in Council, are liable to alteration from year to year.*

1. An examination for admission to the Indian Civil Service, open to all qualified persons, will be held in London in July and August of each year for such number of appointments to that Service as the Secretary of State may on each occasion determine. The date of the examination will be announced beforehand by the Civil Service Commissioners.

2. Save as hereinafter provided a candidate must be a British subject. If the candidate (being a British subject) or his father or his mother was not born within His Majesty's Dominions and allegiance then at the time of his birth his father must have been a British subject or the subject of a State in India and such father must be or must have continued to be until his death a British subject or the subject of such State in India. Provided that a ruler or subject of any State in India in respect of whom the Governor-General in Council has made a declaration under section 96 A of the Government of India Act may be considered eligible.

3. A candidate must have attained the age of twenty-one, and must not have attained the age of twenty-four on the first day of August of the year in which the examination is held.

4. A candidate who is a Native of India must obtain a certificate of age and qualification under Regulations 2 and 3 issued under notification of the Government of India, No. 1114, dated 12th September, 1918, and signed, should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division within which his family resides, or, should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides.

5. A candidate must be free from disease, constitutional affection, or bodily infirmity, unfitting him, or likely to unfit him, for the Indian Civil Service.*

6. A candidate shall satisfy the Civil Service Commissioners that his character is such as to qualify him for employment in the Indian Civil Service.

7. No person who, in a previous year, accepted the offer of a nomination as a Selected Candidate for the Indian Civil Service and subsequently resigned his position as a Selected Candidate, will be admitted to the examination.

8. Should the evidence upon the above points be *prima facie* satisfactory to the Civil Service Commissioners, the candidate, on payment of the prescribed fee, will be admitted to the examination. The Commissioners may, however, in their discretion, at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries in the case of any candidate should be unsatisfactory to them in any of the above respects he will be ineligible for admission to the Indian Civil Service, and, if already selected, will be removed from the position of a Probationer.

9. The examination will include the following subjects.† The numerical value is shown against each subject.

SECTION C.—An extra numerum subject may be offered carrying 100 marks and chosen from the following:—

Physical Anthropology.
Social Anthropology.
An auxiliary language.

10. The auxiliary language in Section A or Section C will be tested by means of translation from the language. The following languages may be offered: French, German, Italian, Spanish, Portuguese, Dutch, Norwegian, Swedish, Danish, Russian, Latin, Ancient Greek.

No candidate may offer any language or Physical Anthropology or Social Anthropology twice in the examination.

No candidate may offer in Sections A and C together two languages of the group Italian, Spanish, Portuguese or two of the group Norwegian, Swedish, Danish.

Only a candidate who takes two modern languages in Section B may offer Latin or Ancient Greek as an auxiliary language.

Instead of an auxiliary language a candidate whose mother tongue is an Indian language may offer as subject 5 either Physical Anthropology or Social Anthropology.

11. In subjects 50 to 67 the civilization subject associated with a language can only be taken by candidates who offer the language itself for examination.*

12. A candidate desiring to offer any of the subjects 30 to 42 or subject 47 must produce evidence satisfactory to the Commissioners of laboratory training in an institution of university rank. For Astronomy (28), Geography (43), Physical Anthropology (44), and Agriculture (46), other equivalent training will be required. There will be no laboratory test as part of the examination.

13. From the marks assigned to candidates in each subject such deduction will be made as the Civil Service Commissioners may deem necessary in order to secure that no credit be allowed for merely superficial knowledge.

14. Moreover, if a candidate's handwriting is not easily legible a further deduction will, on that account, be made from the total marks otherwise accruing to him.†

15. A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order so many competitors, up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination, shall be designated to be Selected Candidates for the Indian Civil Service, provided that they appear to be duly qualified in other respects.

Should any Selected Candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case the candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a Selected Candidate.

16. Application for permission to attend an examination must be made in the handwriting of the candidate, at such time and in such manner as may be fixed by the Civil Service Commissioners.

INDIAN CIVIL SERVICE GROUP OF COMPETITIONS.

Syllabus for the open Competitive Examination of August 1926 for appointments in the Indian Civil Service, and for any other competition that may be held in combination therewith.

The other competitions to which the same syllabus applies and which may, if required, be held simultaneously are:—

Junior Grade of the Administrative Class in Home Civil Service

Colonial Service: Eastern Cadetships.

Foreign Office and Diplomatic Service.

Consular Services (General, Levant, and Far East) and Intelligence Officer Grade in the Department of Overseas Trade.

Evidence of Training.—Candidates who desire to offer any of the subjects 28, 30-44, 46, or 47 must send to the Secretary of the Civil Service Commission, so as to arrive not later than 15th May 1926, the evidence of training described below. Such evidence should be in the form of a certificate signed by a responsible officer of the institution, and may be sent in advance of the Form of Application. In the case of an institution not situated in the British Isles, the certificate must state that the institution in which the work has been done is authorized to prepare candidates in that subject for a degree. A candidate who has been refused permission to take one of these subjects will be allowed to substitute another subject within the regulations provided the substitution is made within the time allowed for sending in application forms.

SECTION A.

1. **Essay.**—An essay to be written on one of several specified subjects.

2. **English.**—A paper of questions to test the understanding of English and the workmanlike use of words. An optional exercise in the writing of verse will be included.

3. **Present Day.**—Questions on contemporary subjects, social, economic, and political. A liberal choice of questions will be given. Effective and skilful exposition will be expected.

* e.g. a candidate desiring to offer subject No. 51 (Roman Civilization) must also offer subject No. 50 (Latin Language).

† It is notified for general information that the number of marks deducted for bad handwriting may be considerable.

4. **Everyday Science.**—In this subject such knowledge will be expected as candidates will have who have studied science intelligently at school and have since then kept their eyes open. A liberal choice of questions will be given. Attention should be paid to orderly, effective, and exact expression.

5. **Auxiliary Language.**—Passages dealing with history and politics may be set, but no technical matter. Verse is not excluded. Accuracy and skill in the use of English will be expected.

6. **Viva Voce.**—The examination will be in matters of general interest, not in matters of academic interest; it is intended to test the candidate's alertness, intelligence, and intellectual outlook.

SECTION B.

HISTORY. *Subjects 7-10.*—Candidates should know something of the original authorities, of the principles of historical criticism, and of the principles and the facts of geography in relation to history. They must be prepared to draw sketch maps.

7, 8. **English History to 1660, British History 1660-1914.**—The history will be taken as a whole; politics, economics, and constitution will be considered as mutually affecting each other, and all together as the outcome of the common life of the nation. Literature will not be excluded. Candidates will be expected to know so much of European history as will make the external action of this country fully intelligible and will explain those movements at home which had their beginnings abroad, *e.g.*, the Renaissance, the Reformation, and the reactions in this country of the French Revolution. In subject 8 the outstanding incidents and movements in the history of British possessions will be included.

9, 10. **European History.**—*Period* 1, from 400 to 1494; *Period* 2, from 1494 to 1763; *Period* 3, from 1763 to 1914.

Although a fixed date is given for the beginning of a period, candidates will be expected to know in general outline how the initial position was reached. The history of the American continent, of India, and of the Far East, will be included in so far as it influences European fortunes in an important degree.

11. **General Economics.**—The subject will be treated as a whole, and candidates should be prepared to illustrate the theory by the facts and to analyse the facts by the help of the theory. The history of economic thought will be included.

12. **Economic History.**—Candidates will be expected to have a general acquaintance with the early economic history of England; but special attention will be paid to the economic development of the British Isles and other portions of the Empire during the last two or three centuries, and so much knowledge of European and American conditions will be expected as is necessary for the understanding of British economic history.

13. **Public Economics.**—The questions will deal with the main forms of state action central and local, in the economic sphere, together with public finance.

14. **Political Theory.**—Candidates will be expected to show a knowledge of political theory and its history, political theory being understood to mean not only the theory of legislation, but also the general history of the State and its connection with kindred studies such as Ethics, Psychology, Jurisprudence, Public International Law, and Economics. Candidates will be expected to show a knowledge of original authorities.

15. **Political Organization.**—This will include Constitutional Forms (Representative Government, Federalism, etc.) and Public Administration, central and local. The history of institutions is not included, but candidates will be expected to know the earlier stages from which existing institutions have directly developed.

16. **Constitutional Law.**—The Constitutional Law of the United Kingdom and of the British Empire, and the Law of English Local Government.

17. **Private Law.**—The following branches of English Private Law:—the Law of Real and Personal Property (including the Law of Succession), Contracts, and Torts.

18. **Roman Law.**—Passages will be set for translation and comment, but credit will not be given merely for capacity to translate the texts.

19. **International Law.**—Public International Law and International Relations. Candidates will be expected to show a knowledge of the principal treaties which have affected international relations from 1815 inclusive to the present day.

20. **Moral Philosophy.**—The history of the subject will be included. Candidates will have an opportunity of showing their strength either in Ancient Philosophy or in Modern Philosophy.

21. **Metaphysics.**—As for Moral Philosophy.

22. **Logic.**—The subject will be interpreted in a wide sense. Epistemology in its bearing on logical problems will be included, together with Formal Logic and Scientific

Method. Questions may be set on Mathematical Logic, *i.e.*, on the Logic of Mathematics, Symbolic Logic, and the Logic of Probability; and also on the history of Logic. A considerable choice of questions will be allowed.

23. **Psychology.**—Questions on the history of the subject may be included.

MATHEMATICS. *Subjects 24-27.*—The use of the slide-rule and of mathematical tables will be allowed.

24. **Lower Pure Mathematics.**—Geometry of two and of three dimensions according to Euclid (synthetic geometry), to Descartes (analytical geometry), and to Monge (descriptive geometry, dealing with three-dimensional figures by the use of plan and elevation). The method of vectors including scalar and vector products, with applications. Only the main properties of conics and quadrics, including those of poles, polars and polar planes, are expected.

Algebra: Complex numbers; uniformly converging infinite series; the elements of the theory of equations, including the numerical solution of algebraic equations, but not including the formal solution of the cubic and quartic.

Infinitesimal calculus of real variables to partial differentiation and multiple integrals, ith applications to geometry. Candidates should be able to deal with the types of differential equations occurring in elementary mechanics.

The proof of Taylor's series will not be required.

No great skill will be expected in solving complicated problems of an elementary nature. The questions will involve the use of mathematical instruments.

25. **Higher Pure Mathematics.**—Lower Pure Mathematics together with:—

The geometry of curves and surfaces. Tensor calculus.

Elementary analysis, including simple functions of a complex variable and contour integration.

Differential equations in one independent variable. Elementary treatment of partial differential equations, with special reference to the differential equations of mathematical physics. Existence theorems are excluded.

Mathematical theory of probability, including theory of errors, method of least squares, curve fitting, and correlation.

Calculus of finite differences, including numerical integration and summation and linear difference equations.

A considerable choice of questions will be allowed, so that full marks may be obtained by covering about half the range stated.

26. **Lower Applied Mathematics.**—Statics, hydrostatics, dynamics, elementary theory of electricity and magnetism, including the induction of currents Questions will be of an elementary character, but will not be confined to two dimensions; they will involve the use of the calculus. Candidates are free to use differential equations, but a knowledge thereof will not be necessary to answer the questions. Attention will be paid to problems which arise naturally and to general principles: artificial problems will be avoided. The questions will involve the use of mathematical instruments.

27. **Higher Applied Mathematics.**—Lower Applied Mathematics together with:—

Statics to a more advanced stage, including graphical treatment.

Dynamics to the equations of Euler and Lagrange and including the theory of the vibration of strings and other simple systems.

Hydrodynamics, including the elementary theory of the motion of solids through a liquid, surface waves, and vibrations in gases.

Elasticity, including the elements of the vibrations of rods, plates and bars.

Electricity and magnetism.

Thermodynamics, kinetic theory of gases, radiation.

A considerable choice of questions will be allowed, so that full marks may be obtained by covering about half the range stated.

28. **Astronomy.**—Geometrical optics will be included.

A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners of practical training in an observatory.

29. **Statistics.**—Frequency distributions, averages, percentiles, and simple methods of measuring dispersion; graphic methods; elementary treatment of qualitative data, *e.g.*, investigation of association by comparison of ratios, consistency of data: the practice of the simplest graphic and algebraic methods of interpolation.

Practical methods used in the analysis and interpretation of statistics of prices, wages and incomes, trade, transport, production and consumption, education, etc.; the more elementary methods of dealing with population and vital statistics; miscellaneous methods used in handling statistics of experiments or observations.

Elements of modern mathematical theory of statistics:—frequency curves and the mathematical representation of groups generally; accuracy of sampling as affecting averages, percentages, the standard deviation; significance of observed differences between averages of groups, etc., the theory of correlation for two variables.

NATURAL SCIENCE. *Subjects 30-41.*—The standard of the higher division of a science will be that which is required in the main subject for an honours degree at the universities. The standard for the lower division of a science will be that required in a subject subsidiary to the main subject whether required at the final degree examination or at a preceding examination.

A candidate who desires to offer a science must produce evidence satisfactory to the Civil Service Commissioners of laboratory training in that science in an institution of university rank; the length of such training must be at least two academic years for the higher division of a science and at least one academic year for the lower division, except that a candidate may offer Higher Physics without Lower Physics on one year's training.

34. **Lower Botany.**
35. **Higher Botany.** } Vegetable Physiology will be included in each division.

36. **Lower Geology.**
37. **Higher Geology.** } Mineralogy will be included in each division.

42. **Engineering.**—Strength of materials; theory of structures; mechanism and dynamics of machines; heat and thermodynamics; surveying; hydraulics, including hydraulic machines; electricity and magnetism.

The subject will be treated in a general manner and the questions will be confined to the more elementary parts of the subject. The candidate will be expected to be familiar with graphical methods and to have some skill in mechanical drawing.

A candidate who desires to offer Engineering must produce evidence satisfactory to the Civil Service Commissioners of training for at least one academic year in an institution of university rank.

43. **Geography.**—Geography as understood in the universities, not excluding topics which concern geography jointly with other subjects such as economics, history, physics, botany, and geology. There will be a practical test which will necessitate a knowledge of cartographical methods and notations, and for this test drawing instruments may be required.

A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners of training for at least one academic year in an institution of university rank.

44. **Physical Anthropology.**—Physical Anthropology, Prehistoric Archæology and Technology. Candidates will be expected to have such knowledge as may be acquired by laboratory and museum work, consisting mainly in the handling and study of specimens and exhibits. The subject will be treated with special, but not exclusive, reference to peoples of rude culture, including prehistoric civilization.

A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners of training in an institution of university rank.

45. **Social Anthropology.**—Candidates will not be expected to have an extensive experience of laboratory and museum work. The subject will be treated with special, but not exclusive, reference to peoples of rude culture, including prehistoric civilization.

46. **Agriculture.**—Agricultural chemistry, agricultural botany, and agricultural zoology will be included.

A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners of training in an approved institution.

47. **Experimental Psychology.**—A candidate who desires to offer this subject must produce evidence satisfactory to the Civil Service Commissioners of laboratory training in an institution of university rank.

48, 49. **English Literature.—Period 1,** from 1350 to 1700; **Period 2,** from 1660 to 1914.

Candidates should be prepared to show a first-hand knowledge of some of the works of the following authors and of their place in the history of their country :—

PERIOD 1.

Chaucer	Bacon
Malory	Milton
Spencer	Bunyan
Shakespeare	

PERIOD 2.

Dryden	Fielding	Scott	Keats
Congreve	Johnson	Jane Austen	Dickens
Defoe	Burke	Wordsworth	Carlyle
Swift	Goldsmith	Coleridge	Tennyson
Addison	Burns	Shelley	Browning
Pope			

Questions on other writers will not be excluded, but, on the whole, the questions will be directed to the best-known authors and their best-known works. Candidates should know so much of the history as is necessary to understand the literature in its relation to other activities of the nation.

Questions will not be set on the history of the language before Chaucer, nor, in general, on its morphological or phonological changes since his time; the history of workmanship, style, and prosody will not be excluded,

CIVILIZATIONS AND LANGUAGES *Subjects 50-67.*—In these the civilization subject associated with a language can be taken only by candidates who also offer themselves for examination in the language itself.

In the questions on civilization, history and literature will, as far as possible, be brought into close relation. In history, candidates will be expected to show a knowledge of the original authorities. They must also be prepared to answer questions on historical geography, and to draw sketch maps. The questions on literature will require first-hand knowledge of the authors; and the authors dealt with will be those which candidates, ought to have read. Passages of literature may be set for comment on matters of social political, legal or other historical importance. Questions on philology and the older forms of the languages may be set, but will not be compulsory. In the question papers on civilization, candidates will not be required to write their answers in the foreign language.

In the conversation test importance is attached to pronunciation. The study of phonetics is an important aid to correctness of pronunciation, and candidates who take modern languages will be expected to have studied phonetics in connection with the language or languages taken.

50. **Latin Language.**—Translation, and prose or verse composition. The composition paper will be so arranged that candidates may confine themselves to prose composition or to verse composition or, if they prefer, may take some prose and some verse.

51. **Roman Civilization.**—Roman History and Latin Literature. The outlines of the history and development down to 180 A.D. should be known; but the main stress will be laid on the period 133 B.C. to 117 A.D.

52. **Greek Language.**—As for Latin.

53. **Greek Civilization.**—Greek History and Literature. In history the main stress will be on the period 510 B.C. to 323 B.C.

54. **French Language.**—Translation, free composition, set composition, and conversation.

55. **French Civilization.**—French History and Literature. The outlines of the history and development prior to 1589 should be known; the period from 1589 to 1660 in somewhat more detail; but the main stress will be on the period from 1660 to the present day.

56. **German Language.**—As for French.

57. **German Civilization.**—German History and Literature. Candidates should know in outline the history of the Medieval Empire, of the growth of the German cities, of the Reformation in Germany, and of the Thirty Years' War; but the main stress will be on the period from the accession of Federick the Great to the present day.

58. **Spanish, Italian, Language.**—As for French.

59. **Spanish Civilization.**—Spanish History and Literature. In history the main stress will be on the periods from the Union of Castile and Aragon under Ferdinand and Isabella to the liberation of the Netherlands, and again from 1800 to the present day.

Italian Civilization.—Italian History and Literature. In history the main stress will be on the 15th century and the first half of the 16th century, and again on the period from 1789 to the present day. Sufficient should be known of the earlier period to understand the position of the Pope and the Emperor in Italy, the rise of the towns, and the position of the Dante in history.

60. **Russian Language.**—As for French.

61. **Russian Civilization.**—Russian History and Literature. Something should be known of the history since the accession of Peter the Great, but the main stress will be on the period from 1800 to the present day. Only the broadest outlines of the history prior to Peter the Great will be required.

62. **Arabic Language.**—Translation, free composition, set composition, conversation. The examination will be in the modern language.

63. **Arabic Civilization.**—Arabic History and Literature. The main stress in both history and literature will be on the period from the middle of the 6th century A.D. to the middle of the 13th century A.D.

64. **Persian Language.**—Translation, free composition, set composition, conversation. The examination will be in the modern language.

65. **Persian Civilization.**—Persian History and Literature. The main stress in both history and literature will be on the period 1000 A.D. to 1500 A.D. Candidates will be expected to have a general knowledge of the History of Persia before 1000 A.D. and from 1500 A.D. to the present time.

The following applies only to candidates for the Indian Civil Service:—

66. **Sanskrit Language.**—Translation, prose composition, and questions on Vedic and and Sanskrit grammar. Both Vedic and classical Sanskrit passages will be set for translation; composition will be required in classical Sanskrit alone.

67. **Sanskrit Civilization.**—Sanskrit literature and the history of the civilization and thought of India from the Vedic period to A.D. 1200.

APPLICATION FORM

For the use of candidates seeking admission to the concurrent open competitive examinations to be held in London in July and August, 1926, for appointment to services of the Administrative Group, namely :—

Home Civil Service : Administrative Class.
Indian Civil Service.
Colonial Service : Eastern Cadetships.

NOTE 1.—Male candidates may include any or all of these three Services in their application (see paragraph 3 below) ; but it should be understood that the only competition yet announced as certain to be required in 1926 is that for the Indian Civil Service, the regulations for which are enclosed herewith.

An announcement as to whether competitions will be required in 1926 for the Home and Colonial Services will be made in due course.

NOTE 2.—This form is to be filled up and returned to the Secretary (C. Room 19), Civil Service Commission, 6 Burlington Gardens, London, W. 1, in time for delivery on or before *May 15th*, 1926. *No Application Form received after that* date *will be accepted.*

A candidate who fills up and returns this Application Form and does not receive an acknowledgment of it within a reasonable time should inform the Secretary of the Civil Service Commission.

NOTE 3.—Candidates should, by consulting the regulations, make certain that they are eligible to compete for the services for which they make application, and that their selection of subjects conforms with the regulations. No scrutiny of the information which is given on this sheet is made by the Commissioners before the examination.

NOTE 4.—Should any of the particulars furnished by candidates be found to be false within their knowledge they will, if appointed, be liable to be dismissed ; and, if otherwise entitled to Superannuation Allowance, they will forfeit all claim thereto The wilful suppression of any material fact will be similarly penalised.

1. (*a*) Surname ... ... (*b*) Christian name, or names (in full)	
2. Postal Address (in full) ... ... (Any change of address should be at once communicated.)	
3. Name the Service or Services for which you desire to be considered (*see page* 4)	
4 Date of birth (*see page* 4) ... ... Give place of birth, and state whether a natural born British subject	Age last birthday ....
5. Father's Name ... ... ,, Address ... ... ,, Profession or Trade ... ... (If deceased, give the last address, profession, &c.) ... Give place of Father's birth and his nationality at birth Give place of Mother's birth and her nationality at birth	
Only for candidates for Eastern cadetships :— 6. Are you of pure European or pure Ceylonese descent, or of mixed European and Ceylonese descent ? If so, state which	
7. Name, in order, the Schools you have attended since the age of 12, giving addresses with dates of entering and leaving	

8. Have you been on any former occasion examined by the Civil Service Commissioners? If so, state when, and for what appointment	
9. Age on finally quitting School	
10. Have you been a student at any University? If so, name it, and give the dates of entering and leaving State any degrees, honours or prizes you have obtained. Name your College.	
11. Give the name of your College Tutor, or of the Professor or other University Authority to whom reference can be made as to your conduct.	
12. Have you had any special preparation for examinations for these situations? If so, state (1) where and by whom it was given, (2) the dates of the beginning and end of each period, (3) whether it was whole-time or part-time work, and if part-time what part of your time of study it occupied, (4) whether it took place by day or in the evening.	
13. Have you served in the Naval, Military or Air Forces? If so, state your Rank (or Rating) and Official Number, if any. Corps, Regiment or other Unit ... ... Dates of Service ... . Did you serve abroad or at sea in the War which began in August, 1914? If you have served, state your medical category on demobilisation *or* If you were discharged on account of physical unfitness for further service, state the cause of discharge, so far as known to you; say whether you are in receipt of a disability pension, and, if so, the percentage of disability at which you are assessed.	
14. If your time since leaving School is not fully accounted for by replies given above, account for the remainder here, with dates. If you have had employers, state their names and addresses in full.	
15. Give the names, professions, and *present* addresses (in full) of two referees, who should be responsible persons (not relations), well acquainted with you in private life, and unconnected with your School or College.	1 2.
16. Are you free from pecuniary embarrassments? If you are under liability to repay money advanced by an institution or party for your education, state the particulars.	
17. Signature and date	

ADMINISTRATIVE GROUP COMPETITION, 1926.

Selection of subjects.

1. For which Service or Services are you a candidate?

2. What auxiliary language or substitute for an auxiliary language do you select under subject 5?

3. Is your mother tongue an Indian language? If so, name it.

4. What Extra Numerum subject do you select?

5. Do you select any of the subjects of which evidence of training is required? If so, pin the necessary vouchers to this form, stating here the subjects to which each voucher applies.

6. In the following list place a cross, so, ✕, on the dotted line opposite each of the optional subjects you choose from Section B. If you are a candidate for more than one Service and you wish to offer different subjects for different Services, append a statement showing to which Service your selection applies, and the variations you desire for other Services.

PROCEDURE.

Immediately the results of the examination are known, successful candidates will be summoned to attend at the Civil Service Commission to be medically examined and to state their choice among the Services open to them and among the various Departments, Provinces or Colonies. That statement of choice is irrevocable.

EVIDENCE OF AGE.

A candidate born in the United Kingdom must not send in a birth certificate with this form but must be prepared to produce it when required.

A European or Anglo-Indian who was born in India must be prepared to produce when required a certificate of baptism from the district in which he (or she) was baptized. If this does not also mention the date of birth it must be accompanied by a statutory declaration by one of the candidate's parents, stating the date and place of birth.

An Indian born in India must send in with this form a certificate under Government of India Notification No. 1114 of 12th September 1918. If the candidate's family is resident in British India the Certificate must be signed by the Secretary to the Government of their province or by the Commissioner of their Division. If they reside in an Indian State it must be signed by the highest political officer accredited to that State.

FEE.

Fees are *not* to be forwarded by candidates. Instructions respecting the manner of payment of the fee prescribed (£8), and respecting the time and place of the examination, will be sent to candidates before the examination.

EXAMINATIONS OF SELECTED CANDIDATES FOR THE INDIAN CIVIL SERVICE.

Regulations made under section 97 of the Government of India Act for the probation in the United Kingdom and the further examination of Selected Candidates for the Indian Civil Service.

*** *The following regulations made by the Secretary of State for India in Council are liable to alteration from year to year.*

(1) Candidates selected at the Open Competition held in London will be required to remain in the United Kingdom on probation for one or two years, as may be decided by the Secretary of State for India in Council.

(2) Candidates selected at the Open Competition held in India and candidates selected in India otherwise than by competitive examination will be required to proceed to the United Kingdom on probation for a period of two years.

ONE-YEAR PROBATIONERS.

(3) One-year probationers will, at the end of the year of probation, undergo an examination called the Final Examination. The subjects and the marks allotted to them are as follows :—

Compulsory subjects.

	Marks.		Marks.
1. Indian Penal Code ...	200	5. The principal vernacular language or the substituted subject ...	600
2. Code of Criminal Procedure	200	6. Riding	200
3. The Indian Evidence Act	200		
4. Indian History ...	400		

Optional subjects, one only to be taken.

	Marks.
7. Hindu and Mohamedan Law	400
8. A classical language selected from Sanskrit, Arabic, Persian, Pali	400

TWO-YEAR PROBATIONERS.

(4) Two-year probationers will, during their period of probation, undergo two examinations—the Intermediate Examination at the end of the first year and the Final Examination at the end of the second year.

(5) The subjects of the Intermediate Examination and the marks allotted to them are as follows. All the subjects are compulsory :—

	Marks.		Marks.
1. The principal vernacular language or the substituted subject ...	400	4. Law of Evidence and Criminal Law ...	200
2. Phonetics	200	5. Indian History ...	200
3. Jurisprudence ...	200	6. Notes of Cases ...	200
		7. Economics ...	200

(6) The subjects of the Final Examination and the marks allotted to them are as follows :—

Compulsory subjects.

	Marks.		Marks.
1. The principal vernacular language or the substituted subject ...	600	4. The Indian Evidence Act	200
2. Indian Penal Code ...	200	5. Notes of Cases ...	400
3. Code of Criminal Procedure	200	6. Indian History ...	400
		7. Economics	400
		8. Riding	200

Optional subjects, one only to be taken.

	Marks.
9. Hindu and Mohammedan Law	400
10. A classical language selected from Sanskrit, Arabic, Persian, Pali	400

ONE-YEAR AND TWO-YEAR PROBATIONERS.

(7) The principal vernaculars prescribed for the various provinces are shown in the following table :—

Province.	Vernacular.
Madras	Tamil or Telugu
Bombay	Marathi.
Bengal	Bengali.
United Provinces	Urdu.
Punjab	Urdu.
Burma	Burmese.
Bihar and Orissa	Hindi.
Central Provinces	Hindi.
Assam	Bengali.

(8) An Indian assigned to Madras whose mother tongue is one of the two principal vernaculars of the province must offer the other for examination. An Indian assigned elsewhere whose mother tongue is the principal vernacular language of his province must substitute in place of the principal vernacular language the following subject or subjects :—

One-year probationers—

British History.

Two-year probationers—

British History at the Intermediate Examination, and European History at the Final Examination.

(9) A candidate whose mother tongue is Hindi or Urdu may not offer either of these languages as the principal vernacular language.

(10) Candidates who at the Final Examination in riding satisfy the Commissioners that they are sufficiently at home in the saddle for the efficient performance of any duties required of members of the Indian Civil Service will be awarded marks ranging between 101 and 200, according to the degree of proficiency displayed.

Candidates who fall short of this adequate proficiency but show such minimum proficiency as is evidence that with a moderate amount of practice they can attain full proficiency, will receive marks ranging between 1 and 100; they will be allowed to proceed to India and will on their arrival there be subjected to such further tests in riding as may be prescribed by their Local Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government.

A candidate who fails at the end of the period of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding will be liable to have his name removed from the list of selected candidates.

Selected candidates will also be examined in riding at such time or times as the Commissioners may appoint during the course of the probationary period.

(11) Such deductions as the Civil Service Commissioners may consider necessary will be made from the marks assigned to candidates at the Intermediate and Final Examinations in order to secure that no credit is allowed for merely superficial knowledge.

(12) The Civil Service Commissioners will prepare lists of the candidates in order of merit; the order for the one-year probationers being based on the sum of the marks obtained by the candidates at the Open Competitive and Final Examinations, the order for the two-year probationers being based on the sum of the marks obtained by the candidates at the Intermediate and Final Examinations.

(13) The selected candidates whose performance in the compulsory subjects of the Final Examination is such as to satisfy the Civil Service Commissioners, and who have also satisfied the Commissioners of their eligibility in respect of nationality, age, health, character and conduct during the period of probation, shall be certified by the Commissioners to be entitled to be appointed to the Indian Civil Service, provided that they shall comply with the regulations in force, at the time, for that Service.

(14) If any candidate is prevented by sickness or any other adequate cause from attending the Final Examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination. A selected candidate absent for such adequate cause from the Intermediate Examination may, under similar conditions, be allowed to appear at the Intermediate Examination a year later or at a special examination, or may be excused the Intermediate Examination and allowed to appear for the Final Examination in regular course.

Any candidate who at the Intermediate Examination shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected candidates.

ANNOUNCEMENTS

made by the Civil Service Commissioners with the authority of the Secretary of State for India in Council :—

(i) *Selected candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.*

(ii) *An allowance of £300 a year, or, in the case of Selected Candidates possessing an Indian domicile, an allowance of £350* a year will be given to any candidate who passes his probation at one of the Universities or other Institutions that have been approved for the purpose by the Secretary of State for India in Council.*

*The attention of candidates selected at examinations held in London is, however, directed to paragraph (viii).

In the case of Selected Candidates on probation for one year the allowance will be payable in four equal instalments on the following dates respectively: December 24th after his selection, March 25th, June 25th and after signature of Covenant on appointment to the Service.

In the case of Selected Candidates on probation for two years the allowance will be payable in eight equal instalments, the first on the December 24th after selection, the second to the seventh on the six following quarter days and the eighth after signature of Covenant on appointment to the Service.

The payment of the various instalments of the allowance except the final instalment, and, in the case of the two-year probationers, the instalment payable at the end of the first year of probation, will be conditional on the receipt by the Secretary of State through the Civil Service Commissioners of a certificate that the candidate has fulfilled up to date the requirements of the authorities and shown satisfactory conduct at the approved Institution.

If an Indian Government Scholar becomes a selected candidate for the Indian Civil Service, his scholarship stipend shall cease to be paid with effect from the 1st October of the year in which he becomes a selected candidate. He may, however, provided he has executed the agreement referred to in (iv) *below, be granted on, or at any time after, the 1st October, an advance on account of the instalment of the allowance payable on the 24th December.*

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

N. B.—The Secretary of State for India gives notice that the amount of the allowances will be reconsidered in 1926, with a view to a possible reduction with effect from the instalment payable in December, 1926.

(iii) *A First Class passage to India will be engaged for Selected Candidates with a view to their proceeding to India during the November following their Final Examination.*

(iv) *Each Candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety jointly and severally to refund all moneys he may have received from the Secretary of State for India in the event of:—*

(1) *his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or*

(2) *his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.*

(v) *All candidates obtaining Certificates will be also required to enter into covenants by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make for the pensions of their families. The stamps payable on these covenants amount to £1.*

(vi) *The seniority in the Indian Civil Service will be determined by the results of the examinations taken during the source of probation.*

(vii) *Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the candidate.*

(viii) *"Overseas pay" will not be admissible to Indian members of the Indian Civil Service selected at Open Competitive Examinations held in London in 1925 and subsequent years.*

PUBLIC HEALTH.

No. 502 T.-P.H.—The 3rd October 1925.—In pursuance of section 37 F. of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), it is hereby notified for general information that the scheme submitted by the Commissioners of the Pabna Municipality for the supply of water in that municipality has been approved by the Government of Bengal and that the particulars of the said scheme are as follows :—

Pabna.

(*a*) The scheme is designed to give an initial supply of 120,000 gallons of water per day from a tube well which has been already sunk. The engines and pumps will be fixed below ground in a 10 feet diameter masonry well and the water will be pumped direct to an elevated reservoir of 75,000 gallons capacity from whence it will gravitate through the distribution mains.

(*b*) The estimated cost of the scheme is Rs. 1,67,600.

(*c*) The estimated annual cost of maintenance is Rs. 6,000.

(*d*) The cost of the scheme will be met as follows :—

	Rs.
Government grant	80,000
Donation by the local zamindars ...	50,000
Contribution by the District Board of Pabna	25,000
House connection fees	12,600
Total ...	1,67,600

(*e*) The cost of maintenance will be met from water rates.

(*f*) Water rate will be levied at 5 per cent. on the annual value of holdings.

(*g*) The average incidence of water rate per head of the population will be ·46 rupee.

2. The said scheme will be taken into consideration on or after the 7th December 1925, and any objections or suggestions with regard thereto which may be received by the undersigned through the District Magistrate before that date will be duly considered.

CIVIL MEDICAL DEPARTMENT.

NOTICE.

Examination of compounders at the Faridpur Sadar Hospital and Dispensary.

The next qualifying examination of compounders and dressers will be held at the Faridpur Sadar Hospital and Dispensary on Wednesday, the 28th October 1925, at 8 A.M. and subsequent days.

The examination will be conducted in accordance with Bengal Government notifications Nos. 1410 Medl., and 1411-Medl., dated the 7th July 1913.

(*a*) The Examination Committee will consist of—

President	...	Civil Surgeon, Faridpur.
Member	...	Sub-Assistant Surgeon in charge, Sadar Hospital and Dispensary, Faridpur.

No person will be admitted to this examination unless he produces certificates as required by rules 9, 10, 11 and 12 of Government notification No. 1410-Medl., dated the 7th July 1913.

(*b*) All candidates must forward to the undersigned an examination fee of Rs. 5 at least three days before the commencement of the examination. A fresh fee must be paid on each occasion that the candidate enters for the examination; but a candidate who, after payment of the fee, is unable, through illness, to attend the examination, will be allowed, on producing a satisfactory medical certificate to that effect, to attend the next examination without payment of a fresh fee.

Administration and Progress in India under British Rule.

Book recommended :—

N. N. Ghosh ... England's Work in India, revised edition, 1921.

Geography.

(Books recommended to be used by students in studying the subject in accordance with the syllabus.)

E. Marsden ... Geography for Senior Classes, edition, 1923.

The World with fuller treatment of India (Longman's Geographical Series for India, Book II).

F. D. Unstead ... The Practical Geography, Parts I and II.

B. C. Wallis ... Macmillan's Geographical Exercise Book (India).

Ideal Advanced Regional Geography published by the Grant Educational Co., Ltd.

The following books are recommended for the use of teachers :—

Blandford ... The Rudiments of Physical Geography for the use of Indian Schools.

Frew ... A Regional Geography of the Indian Empire (Blackie and Son).

Wallis ... The Teaching of Geography (Cambridge University Press).

O'Malley ... Bengal, Bihar and Orissa, Sikkim (Macmillan and Co.).

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower classes of schools :

A. F. Frye ... The Child and Nature.

[*N. B.*—Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list :—

I. (The total cost need not exceed Rs. 65.)

(1) A measuring tape and metre scale and foot-ruler.
(2) A magnetic compass.
(3) Squared paper and tracing paper.
(4) Clay, dry sand, paper pulp for modelling.
(5) A globe not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude and outlines only of the land masses marked upon it.
(6) A map of the school locality on a scale of 4" or 6"=1 mile.
(7) A map of the district in which the school is situated on the scale 1"=1 mile.
(8) A coloured map of the province.
(9) A coloured political map of India.
(10) A physical map of India.
(11) A relief map of India.
(12) A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand map, and with a drawing instrument box. Maps for school work should not contain too much detail or be crowded with names.

II. The following additional equipment is recommended when it can be provided, but the lack of it is not to be considered as a bar to the recognition of the school in Geography :—

(1) A thermometer.
(2) A mercury barometer.
(3) A rain-gauge.
(4) A small collection of typical rocks, in particular, those of the province and India.
(5) A small museum of typical products.
(6) A good standard atlas.
(7) Geographical pictures.
(8) Magic lantern and slides.

(1) The attention of teachers is invited to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailaschandra Dutta, Head Pandit, Habigunj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5, respectively.

(2) Globes of all kinds are made by George Phillip and Son, London, W., and A. K. Johnston, London, and Messrs. Ruddiman, London. Small hand globes of German make can be obtained through the Indian School Supply Depôt for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by George Phillip and Son is good and up to date; so also are the Geographical wall maps published by Edward Standford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District Maps; also ordinary and relief maps of the province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card-board, named on one side, and the same map without names on the reverse, published by Armond Collin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand-maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each, are the best of their kind.

The uncoloured half penny maps, showing river systems and a few towns, published by the same Company, are excellent for class use.

The autograph hand maps, with hill shading in brown, published by Messrs. Edward Standford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15 inches map of the world on Mollweide's equal area projection is especially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Horns Hacbette of Paris, Messrs. Holzel of Vienna, and Messrs. Longmans, Green and Company. They cost, delivered in India, from two or three rupees each.

Map lantern slides and view slides especially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Burlington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.]

Elementary Mechanics.

The following books are recommended :—

Sir Phillip Magnus	...	... Elementary Mechanics (Longmans, 1903).
A. N. Sen	...	... Elementary Mechanics.

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination :—

Plumb-line and level.
Simple lever (including brass slotted weight).
Roman steel-yard.
Lecture apparatus for experiment on movements.
George's New Atwood's Machine.
Stop watch.
Glazebrooke's apparatus (to demonstrate movement of a body).
Hick's Ballistic Balance.
Compound Wheel and Axle.
4 Single Brass Pulleys.
2 Triple Brass Pulleys.
Weston Differential Pulleys Blocks (½ ton).
16 feet of Chain at 6d. per foot.
Inclined Plane.
Parallelogram of Forces apparatus.
Wall Crane.
Becker's New Physical Balance.
Set of grame Weights (200 grams to 1 mgr.)
2 Composition-ivory Balls.

NOTE.—The above list is not exhaustive, and much of it might be replaced by similar forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list, specially for demonstration purposes, and subsequently to develop simplified duplicates illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual account or working in pairs.

Elementary Hygiene.

No text-books are prescribed or recommended. The subject is to be studied in accordance with the syllabus prescribed in the Regulations.

SYLLABUS IN HYGIENE.

I. *Definition of Hygiene—Personal and Public.*

SENATE HOUSE, *the 19th September 1925.*

CALCUTTA UNIVERSITY.

NOTIFICATION No. MISC. N. 145.

Orders by the Hon'ble the Vice-Chancellor and Syndicate.

Books prescribed and recommended for the B. Sc. Examination, 1928 :—

[In all cases where reference is made to Chapters, Sections, Pages or Lines (thus Chapters I-III), the reference is to be understood as inclusive.]

B. Sc. EXAMINATION, 1928.

MATHEMATICS.

(Pass Course.)

The following books are recommended :—

1. Higher Plane Trigonometry—

Todhunter	...	Plane Trigonometry, edited by Hogg.
Loney	...	Plane Trigonometry.

2. Plane Analytical Geometry—

C. Smith	...	Elementary Treatise on Conic Section.
Loney	...	Elements of Co-ordinate Geometry.

3. Differential Calculus—

Edwards	...	Differential Calculus for Beginners.
Ganesh Prasad	...	Differential Calculus.
Taylor	...	Differential and Integral Calculus and Differential Equations.

4. Integral Calculus and Differential Equations—

Edwards	...	Integral Calculus for Beginners.
Ganesh Prasad	...	Integral Calculus.
Taylor	...	The Differential and Integral Calculus and Differential Equations.

5. Hydrostatics—

Besant	...	Elementary Hydrostatics.
Loney	...	Elements of Hydrostatics.

6. Astronomy—

D. N. Mallik	...	Elements of Astronomy.
Parker	...	Astronomy.

(Students are recommended to read Tancock's Descriptive Astronomy as an introduction to the subject, and to use "Stars in the Northern Tropics" by T. Bhattacharyya.)

(Honours Course.)

1. Higher Algebra—

Hall and Knight	...	Higher Algebra.
C. Smith	...	A Treatise on Algebra.
Briggs and Bryan	...	Tutorial Algebra (Advanced Courses).

2. Elementary Theory of Equations—

Cajori	...	Introduction to Theory of Equations, Chapters I-VII.
Burnside and Panton	...	Theory of Equations, Vol. I.

3. Higher Plane Trigonometry—

Todhunter	...	Plane Trigonometry, edited by Hogg.

4. Plane Analytical Geometry—

C. Smith	...	Elementary Treatise on Conic Sections.
Salmon	...	Conic Sections.
Askwith	...	Plane Co-ordinate Geometry.

5. Elementary Solid Geometry—

C. Smith	...	Elementary Treatise on Solid Geometry.
Bell	...	Analytical Geometry of Three Dimensions.

6. Elementary Principles of Vector and Vector Analysis—

Kelland and Tait	...	Introduction to Quarternions, Third Edition, edited by Knott.
Weatherburn	...	Vector Analysis, Vol. I.

7. Differential Calculus—

Edwards	...	Differentirl Calculus.
Williamson	...	Ditto.
Carey	...	Infinitesimal Calculus, Sections I and II.

8. Integral Calculus and Differential Equations—

Williamson	...	Integral Calculus.
Murray	...	Introductory Course in Differential Equations.
Carey	...	Infinitesimal Calculus, Sections I and II.
Bateman	...	Differential Equations.

9. Statics—

Minchin	...	Statics, Vol. I.
Lamb	...	Statics.
Loney	...	Statics.

10. Dynamics of a Particle—

Lamb	...	Dynamics.
Loney	..	Dynamics of a Particle.

11. Hydrostatics—

Besant	...	Elementary Hydrostatics.
Loney	...	Elements of Hydrostatics.
Minchin	...	Hydrostatics, Part I.
Greaves	...	Hydrostatics.

12. Astronomy—

D. N. Mallik	...	Elements of Astronomy.
Young	...	Manual of Astronomy.
Barlow and Bryan	...	Astronomy.

Students are recommended to read Tancock's Descriptive Astronomy as an introduction to the subject, and to use "Stars in the Northern Tropics" by T. Bhattacharyya.

N. B.—Candidates who take up Mathematics at the B.A. or B.Sc. Examination are recommended to refer to Saxelby's "Practical Mathematics."

PHYSICS.

Books recommended to be used by the students in studying the subject in accordance with the syllabus :—

(Pass Course.)

Hadley	...	Magnetism and Electricity for Students.
Watson	...	Text-book of Physics.
Duncan and Starling	...	Ditto.

(Pass Practical.)

Schuster and Lees	...	Advanced Exercises in Practical Physics.
Allen and Moore	...	A Text-book of Practical Physics (Macmillan & Co.).
Watson	...	Practical Physics.

(*Honours Course*)

(In addition to the books recommended for the Pass Course.)

A. C. Datta	...	Text-Book of Sound.
Edser	...	Heat.
S. C. Starling	...	Electricity and Magnetism.
Edser	...	Light for Students.
Edser	...	General Physics.

The following books may also be consulted :—

Barton	...	Sound.
Poynting and Thomson	...	Sound.
Poynting and Thomson	...	Heat.

(*Honours Practical.*)

Watson	...	Practical Physics.
Henderson	...	Ditto.

N.B.—Candidates who take up the Honours Course in Physics, at the B.A. or B.Sc., Examination are recommended to refer to Saxelby's "Practical Mathematics."

CHEMISTRY.

Books recommended to be used by the students in studying the subject in accordance with the syllabus prescribed in the Regulations :—

(*Pass Course.*)

Holleman	...	Inorganic Chemistry.
Mellor	...	Ditto.
Holleman	...	Organic Chemistry.
F. Mollow Parkin	...	Qualitative Chemical Analysis, Organic and Inorganic.
J. B. Cohen	...	Theoretical Organic Chemistry.
Sauter	...	Physical Chemistry.

(*Honours Course.*)

(In addition to the books recommended for the Pass Course.)

H. C. Jones	...	Elements of Physical Chemistry.
Clowes and Coleman	...	Quantitative Analysis.
J. Walker	...	Introduction to Physical Chemistry.
Thorpe	...	Essays on Historical Chemistry.
Mollow Parkin	...	Practical Method of Inorganic Chemistry.
Bernthsen's Organic Chemistry		(Revised by Sudborough.)
Caven and Lander	...	Systematic Inorganic Chemistry.
Gateman	...	Text-book of Physical Chemistry.

N.B.—Candidates who take up Chemistry at the B.A. or B.Sc. Examination are recommended to refer to (*a*) Saxelby's "Practical Mathematics" and (*b*) "Duncliff's Laboratory Glassware Economics."

BOTANY.

Books recommended to be used by the students in studying the subject in accordance with the syllabus :—

(*Pass Course.*)

Reynolds Green, J	...	Manual of Botany, Vols. I and II.
Darwin, F. and Acton, G. H.	...	Practical Physiology of Plants (Cambridge, latest edition).
Bose, G. C.	...	A Manual of Indian Botany.
Strasburger and Hillhouse	...	Practical Botany, latest edition.
Coulter, Barnes and Cowles	...	Text-book of Botany, 2 vols.
Small	...	Text-book of Botany.

(*Honours Course.*)

(In addition to the books recommended for the Pass Course.)

Vines	...	Student's Text-book of Botany.
Reynolds Green, J.	...	Vegetable Physiology.
Stopes	...	Fossil Botany.

Students are recommended to consult—

Schimper, A. F. W. ... Geography of Plants.

GEOLOGY.

No text-books are prescribed or recommended. The subject is to be studied with the help of the syllabus prescribed in the Regulations.

ZOOLOGY.

Books recommended to be used by students in studying the subject in accordance with the syllabus :—

(*Pass Course.*)

Shipley and MacBride	...	Zoology.
Parker and Haswell	...	Text-book of Zoology.
Hertwig	...	Manual of Zoology, translated by Kingsley.
L. Doncaster	...	An Introduction to the Study of Cytology.
Parker and Bhatia	...	Text-book of Zoology for Indian Students.
Foster and Balfour	...	The Elements of Embryology.
Bateson	...	Mendel's Principles of Heredity.

Books recommended for consultation—

Darwin	...	The Origin of Species.
Kellog	...	Darwinism to-day.

(*Honours Course.*)

(In addition to the books recommended for the Pass Course.)

Schafer	...	Essential of Histology.
Bateson	...	Problems of Genetics.
Lillie	...	Problems of Fertilisation.
Miall and Hammond	...	The Structure and Life History of the Harlequin Fly.
Miall and Donny	...	The Cockroach.

The following works are recommended for reference :—

The Cambridge Natural History.

Ray Lankaster ... A Treatise of Zoology.

PHYSIOLOGY.

Books recommended to be used in studying the subject in accordance with the syllabus :—

(*Pass Course.*)

Flack and Hill	...	Text-book of Physiology.
Howell	...	Text-book of Physiology.

(*Practical.*)

Schafer	...	Essential of Histology and Ether.
Milroy	...	Practical Physiological Chemistry.
Halliburton	...	Essentials of Chemical Physiology.
Brodie	...	Essentials of Experimental Physiology.
Beddard, Edkins, Hill, Pembrey and Macleod	...	Practical Physiology.

(*Honours Course.*)

(In addition to the books recommended for the Pass Course.)

Starling	...	Principles of Human Physiology.
Hill	...	Recent Advances in Physiology.
Hill	...	Further Advances in Physiology.

(*Practical.*)

(The same as for the Pass Course.)

SYLLABUS IN EXPERIMENTAL PHYSIOLOGY.

(*Pass Course.*)

The induction coil; single shocks, short circuiting key; effects of single shocks on the tongue; break-stock is stronger than the make-shock; Helmholtz's modification; Meef's hammer.

Pithing a frog; nerve-muscle preparation. Mechanical, chemical, thermal and electrical stimulation of muscle and nerve.

The graphic method; simple lever; crank lever (myograph), moist chamber, minimal and maximal excitation with single induction shocks (make and break). Stimulation by constant current; contraction of muscle only at make and break.

The muscle curve.—Single contraction of a frog's muscle; the latent period, the period of contraction and the period of relaxation. Time-tracing by tuning-fork, Method of afterloading. The influence of temperature and of load on muscular contraction. The work performed by a muscle during a twitch.

Elasticity and extensibility of muscle.

Summation of muscular contraction; tetanus.

Fatigue of muscle.

Thickening of a muscle on contraction.

Barnard's curare experiment.

Stimulation of a motor nerve; unequal excitability (greater nearer the centre or a motor nerve), excitability of flexor and extensor nerves.

Velocity of nerve-impulse (myographic method).

Electro-physiology.—Galvani's experiment of contraction with metals; Galvani's experiment of contraction without metals.

The frog's heart:—Beating of the heart; effect of heat and cold (heart *in situ*); section of the heart; effect of heat and cold on excised heart.

Stannius' experiment.

Graphic record of the heat of the heart (suspension method and also direct registration with heart-lever).

Pulse-Sphymographic tracing.

Blood-pressure in man. Sphygmometer and Sphygmomanometer.

Reflex action (simple experiments on a pithed frog).

Vision.—Accommodation, Scheiner's experiment, near and far point.

Purkinje-Sanson's images, Phakoscope; Blind Spot; Yellow Spot; Colour vision, Complementary Colours.

(*Honours Course.*)

Additional Experiments:—

The induction coil—Break extra-current of Faraday.

The Rhoonome, Effect of sudden variation of current.

Isotonic and isometric contraction.

Influence of veratrine on muscular contraction.

Indefatigability of nerve.

Excitation of muscle by constant current, Polar excitation of a muscle.

Electrotonus. Electrotonic changes in excitability of a nerve.

Kuhne's experiment of contraction without metals.

Examination of currents in muscle, nerve and heart by means of the reflecting galvanometer.

Frog's heart—Minimal stimulus causes maximal contraction.

"Staircase effect." Single contraction of the ventricle.

Tetanisation. Refractory period. Stimulation of the vagus.

Action of drugs (Muscaring digitalin, Pilocarpin and Atropin) on the heart.

Voice and Speech, Laryngoscope.

Vision, Ophthalmoscope, perimeter.

EXPERIMENTAL PSYCHOLOGY.

The subject is to be studied as defined by the syllabus. Students are recommended to use one or more of the following books:—

(*Pass Course.*)

1. General Psychology—

Yerkes	...	Introduction Psychology.
Wundt	...	Human and Animal Psychology.
Titchener	...	Text-book of Psychology.
Lickley	...	The Nervous System (Longmans & Co.).
Angell	...	Psychology.

Preparatory Reading.—Students are advised to read Titchener's Primer of Psychology before joining the regular class.

2. Experimental Psychology—

Sanford	...	Course in Experimental Psychology.
Myer	...	Text-books of Experimental Psychology. Part I—Text-book.

Preparatory Reading.—Students are advised to read Myer's Primer of Experimental Psychology before joining the regular class.

(*Laboratory Course.*)

Titchener's Experimental Psychology, Vol. I, Part I, and Vol. II, Part I (Student's Manual, Qualitative and Quantitative).
Myer's Text-book of Experimental Psychology, Part II (Laboratory Course).

(*Honours Course.*)

I. General Psychology—

(Same as in pass course with the addition of Kulpe's Outlines of Psychology.)

II. Physiological and Comparative Psychology—

Wundt	...	Principles of Physiological Psychology, Vol. I. Part I. (The Bodily Substrate of Mental Life.)
Ladd	...	Elements of Physiological Psychology
Lloyd Morgan	...	Comparative Psychology.
M. Greenwood (Jr.)	...	Physiology of Senses.
McDougall	...	Physiological Psychology (Home University Library).
Holmes	...	Evolution of Animal Intelligence.

III. Experimental Psychology—In addition to the books recommended for the Pass Course the following :—

Sreiptnre	...	New Psychology.
Titchener	...	Lectures on the Psychology of the Thought Processes.
Titchener	...	Instructor's Manual—Quantitative (Introduction).

LAND SALE NOTICE.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Lakeham-Noakhali extension of the Assam Bengal Railway, in the district of Noakhali, will be put up to sale at 11 o'clock on 15th December 1925, corresponding with the 29th Agrahayan 1332 B. S., at Collector's Office, Noakhali.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold either revenue free or subject to an annual assessment which would be notified hereafter and which will be subject to revision at the next general settlement of the temporarily-settled estates of the district to the highest bidders.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it and a regular conveyance will then be granted to the purchaser

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quin-quennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

Insertion of new sections 31A and 31B in Act XII of 1911.

12. After section 31 of the said Act the following sections shall be inserted, namely:—

Employment in engine room or boiler house.

"31A. The Local Government may, subject to the control of the Governor General in Council, by notification in the local official Gazette, exempt on such conditions, if any, as it may impose any factory from the provisions of section 22 in respect of persons employed in the engine-room or boiler house of such factory.

Night employment of women

31B. The Local Government may, subject to the control of the Governor General in Council, by notification in the local official Gazette, exempt on such conditions, if any, as it may impose any factory from the provisions of clause (*a*) of section 24 in respect of women employed on any work in connection with raw material or on any process in connection with any material in which the material is during the process subject to rapid deterioration, where the employment of such women, outside the limits provided by clause (*a*) of section 24, is necessary to prevent any damage to or deterioration of the material."

Amendment of section 33, Act XII of 1911.

13. In sub-section (*3*) of section 33 of the said Act, for the words "the occupier shall himself" the words "or during which the person designated does not manage the factory, any person found acting as manager of the factory or, if no such person is found, the occupier himself shall" shall be inserted.

Amendment of section 34, Act XII of 1911

14. In section 34 of the said Act, after the word "factory," where it occurs for the first time, the words "due to any cause which the Local Government may, by notification in the local official Gazette, specify, or" shall be inserted.

Amendment of section 35, Act XII of 1911.

15. To section 35 of the said Act the following proviso shall be added, namely:—

"Provided that, where it is proved to the satisfaction of the Local Government that no person can be employed in a factory in contravention of the provisions of Chapter IV, the Local Government may, by notification in the local official Gazette, exempt on such conditions, if any, as it may impose such factory from the provisions of this section in respect of persons other than children employed in such factory:

Provided, further, that where in the opinion of the inspector a muster roll or register kept in a factory gives the particulars required in the prescribed form, he may, by order in writing, direct that such muster roll or register shall be kept in place of the register in the prescribed form, and such muster roll or register shall thereupon, for all or any of the purposes of this Act, be deemed to be the register kept in the prescribed form."

Amendment of section 36, Act XII of 1911

16. For sub-section (*3*) of section 36 of the said Act the following sub-section shall be substituted, namely :—

"(*3*) The said notice shall be correctly maintained and kept up to date; any change in the standing orders of the factory shall be entered therein by the manager before such change comes into force; when any such change is entered in the notice, a copy of the notice or of the order in which the change is made shall be sent in duplicate by the manager to the inspector within twenty-four hours."

Amendment of section 41, Act XII of 1911

17. In clause (*g*) of section 41 of the said Act, after the word "under" the word, figure and letter "section 9A" shall be inserted.

Insertion of new section 44A in Act XII of 1911

18. After section 44 of the said Act the following section shall be inserted, namely :—

Employment of children in two factories on the same day

"44A. Where a child is employed in any factory and such child has already been employed on the same day in any other factory, the parent or guardian or person having legal custody of or control over or direct benefit from the wages of the child shall be punished with fine, which may extend to twenty rupees, unless it appears to the Court that the offence was committed without the consent, connivance or wilful default of the parent, guardian, or such person as aforesaid."

Amendment of section 46, Act XII of 1911

19. In section 46 of the said Act, for the words "process or work incidental to any manufacturing" the words "or other prescribed process or work incidental to any such" shall be substituted.

Insertion of new section 48A in Act XII of 1911

20. After section 48 of the said Act the following section shall be inserted, namely :—

Power to conduct prosecution

"48A. An inspector may conduct the prosecution in any case relating to an offence, of which he has charge, against this Act or any rule or order thereunder, before any Court in which such case is under inquiry, trial or appeal, and shall have the like power of withdrawing from the prosecution as is provided by section 494 of the Code of Criminal Procedure, 1898, and the provisions of that section shall apply to any withdrawal by an inspector." V of 1898

Amendment of section 49, Act XII of 1911.

21. In section 49 of the said Act, after the word "thereunder" the words and figures "other than an offence against section 33" shall be inserted.

Amendment of section 50, Act XII of 1911

22. In sub-section (*1*) of section 50 of the said Act, after the word "under" the word, figure and letter "section 9A" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The Indian Factories Act, 1911 (XII of 1911), was radically revised by Act II of 1922, which introduced a series of important reforms including the adoption of a sixty hours' week, the raising of the minimum age of children from 9 to 12, the prohibition of night work for women, the extension of the Act to a large number of small factories, drastic restriction of the exempting provisions, etc. The experience of the last three years indicates that the amended Act has worked smoothly on the whole, and the main principles followed in 1922 command general acceptance. The Government of India do not propose to modify any of the main principles of the Act.

2. But administrative difficulties have arisen in connection with some sections of the Act ; one such difficulty relates to section 21 which provides for intervals of rest. In practice it has proved difficult to enforce the provisions of this section in some industries. Local Governments were asked in June 1923 to consider a possible solution of the difficulty and to bring to the notice of the Government of India any difficulties which might have arisen, in connection with other provisions. On receipt of their replies, a Conference of Chief Inspectors of Factories was convened ; this met in Simla, in August 1924, and was attended by the officers at the head of the inspection staff in every province but one. The Act was examined in detail in the light of the criticisms received, and the Conference recommended a number of alterations designed by allowing greater elasticity in some directions and by increasing control in others, to make for smoother working. The amendments proposed in the Bill are based on the recommendations of that Conference and on the opinions received from Local Governments. They are explained in the detailed Notes on Clauses below.

NOTES ON CLAUSES.

Clause 2.—There are a number of establishments such as electrical generating stations, water works, etc., which, while they are essentially factories in the ordinarily accepted sense of the term and require regulation as much as other factories do not appear to fall strictly within the definition in section 2 (*3*) of the Factories Act. The amendment proposed is designed to ensure the application of the Act to such factories. The amendment proposed in *clause 19* is consequential.

Clause 3.—The amendment is consequential on the repeal of Act VIII of 1901 by Act IV of 1923.

Clause 4.—Sub-section (*1*) of section 7 directs the certifying surgeon to give to an unfit child a certificate that he is unfit ; such certificates are said to have been given and used for the purpose of employment. The amendments preclude the certifying surgeon from giving a certificate to a child who is found to be unfit for employment.

Clause 5.—The existing Act makes no provision for the prevention of excessive temperatures within a factory. The new section is designed to remedy this defect. The amendments proposed in clauses 17 and 22 are consequential.

Clause 6.—The amendment is of a formal character and is designed to make it clear that, where a manager of a factory has been required to provide a fan, the fan must be maintained in use.

Clause 7.—Under the existing law, women and children are prohibited from cleaning machinery in motion. But a large number of accidents to men have occurred from the cleaning of machinery in motion. It is therefore proposed to give Local Governments power to prevent this practice, where they are satisfied that it is attended with danger to the operatives.

Clause 8.—Two difficulties have arisen in connection with section 21 (*1*) (*a*) of the Factories Act, 1911. The sub-section was designed to secure for employés a daily interval of one hour or, if they so prefer, two intervals of half an hour each, so arranged that no operative is required to work for more than five hours continuously. It is doubtful whether the section carries out the intention of the Legislature as regards the second alternative ; clause (*ii*) may be interpreted as requiring that both the half-hour intervals, if this system is chosen, should be given before the seventh hour of work commences. The first amendment proposed is designed to carry out the original intention of the Legislature.

But the Government of India propose at the same time to make a more substantial amendment. As soon as section 21 came into effect, difficulty was experienced in enforcing it in factories which were working for appreciably shorter hours than the maximum permitted by the Act, and more particularly in engineering works. The operatives, who under the old Act had been given an interval of only half an hour found that the new Act resulted in a diminution of the hours which they were able to spend at their homes. And where, as in many cases, their homes were situated at a considerable distance from their work, their dislike of the new provision was correspondingly increased. The Government of India referred the whole question for detailed consideration to Local Governments and the replies showed a general consensus of opinion in favour of an

amendment of the section. The proposal now put forward is based on the recommendation of the Factory Inspectors' Conference. If it is passed into law, it will be possible for Local Governments to permit the reduction of intervals to one interval of half an hour daily in the case of male operatives working for not more than 8½ hours a day, provided that the operatives themselves desire this arrangement. The Government of India are satisfied that the proposal will not be detrimental to the operatives concerned, and they hope that it may have the effect of reducing the hours of work in some factories.

Clause 9.—The existing Act prohibits the employment of women and children in more than one factory on the same day. It has been brought to the notice of the Government of India that in certain cases this provision operates to prevent women from securing adequate employment. In some factories which work for only a few hours each day, it was formerly the custom for women to do a few hours' work in one factory and then to proceed to a neighbouring factory to complete their day. Provided that the weekly and daily limits placed by the Act on hours of work are not exceeded, there is no reason why this practice should be prevented; and where, as in the case of the factories in question, the hours of opening and closing of the factories are simultaneous, there is no risk of abuse in a relaxation of the existing provision. The relaxation will only be effective when the sanction of the Local Government has been obtained, and it is contemplated that this sanction will only be given to the employment of women within specified hours, so arranged that it is not possible for a woman to work outside the limits provided by sections 24 and 27.

Clause 10.—A number of minor modifications are proposed in section 30 of Act XII of 1911. As the section at present stands it is not possible for Local Governments granting exemption to limit the exemption to particular areas and, if an exemption proves necessary in a particular part of the province, they are compelled to grant an exemption applicable throughout the province. Amendment (*b*) is designed to remedy this defect.

In the case of person engaged in preparatory or complementary work, it is frequently necessary that the provision relating to intervals should be abrogated and, where work is essentially intermittent, the workers, although they enjoy as a rule long intervals of rest, cannot always be given them at specified hours. It is proposed therefore in amendments (*c*) and (*d*) to give the Local Government power to grant exemptions from section 21 of the Factories Act.

A number of factories in which continuous production is necessary for technical reasons work upon a shift system and, with such a system, it is not always possible to secure that on no day of the week shall the hours of work exceed eleven. It is proposed therefore in amendment (*e*) to give the Local Government power to grant exemption from section 28 of the Factories Act.

No exemptions are at present possible from section 26 of the Factories Act, which requires the manager to fix beforehand specified hours for the employment of each person employed. But it is not possible in a number of cases for the manager of a factory to comply with this provision. Where work depends on the irregular action of natural forces, it is obviously impossible for the manager to predict beforehand the hours at which the operatives will commence work. Much the same difficulty arises in the case of work which is essentially intermittent. It is proposed therefore by amendments (*a*), (*d*) and (*f*) to permit the Local Government to grant exemptions from the provisions of section 26 of the Factories Act. The exemptions will in all cases be subject to any conditions which the Local Government may consider necessary for the purpose of ensuring that the provisions of the Act limiting hours of work are not contravened.

Clause 11.—The existing Act provides that where persons, by virtue of an exemption granted under section 30 (*1*), are permitted to work for more than 60 hours in a week, they are entitled to overtime at the rate of at least 1¼ times the normal rate of wages. There is no reason why this provision should not apply equally to exemptions granted under section 30 (*2*).

Clause 12.—It is frequently necessary that the persons employed in the engine-room or boiler-house of a factory should attend on the weekly holiday, and the new section 31A is designed to meet this need.

The existing section 24 (*a*) prohibits the employment of women in factories before 5-30 A.M. and after 7 P.M. This provision has proved prejudicial to the working of fish curing and canning factories. It is essential in such cases that work should commence as soon as the material is available, and this was recognized in the International Convention relating to the employment of women by night, which has been ratified by India. The Factories Act, however, contains no provision for the purpose and the new section 31B is designed to supply the deficiency.

Clause 13.—Difficulties have arisen in enforcing the Act where no person has been officially designated as manager of the factory. This difficulty has been especially felt in Burma in the case of factories owned by Chinese proprietors who cannot easily be traced. The person managing the factory cannot be prosecuted for an infringement of the law unless he has actually been designated as manager. The amendment proposed is designed to make it possible for responsibility to be brought home to the person actually managing the factory.

Clause 14.—As section 34 of the Factories Act stands at present, it does not enable the inspector or the Local Government to receive notices of dangerous accidents, which do not actually result in death or a bodily injury. For example, if part of a factory collapses when no one is working in it, so that no casualties result, no report need be made, and the necessity of enforcing more stringent precautions may thus be overlooked. It is therefore proposed to insert a provision giving Local Governments power to require notices of accidents of any special class of explosion, fire, collapse of buildings, accidents to machinery or plant, etc., which they may specify.

Clause 15.—Section 35 of the Factories Act, which is supplementary to section 26, has given rise to considerable difficulty in administration. It requires the manager to maintain a register of all persons employed and of their hours of work, and these hours must necessarily be specified beforehand. As has been indicated in the note on clause 10, it is not always possible for the manager to predict the exact hours within which each person shall be employed, and it is therefore proposed to give the Local Government power to dispense with the necessity of the register in certain cases. It is intended that this power should only be used where the total hours worked by the factory are such that it is impossible for any adult to work for hours longer than those permitted by the Act, and provided that this condition is observed, there is no danger of any infringement of the limits which the Act imposes upon hours of work. It would not be possible to prevent abuses arising in connection with the employment of children if a similar exemption were granted in their case. It is proposed therefore that the exemption should only be possible in the case of adults.

In a number of factories, elaborate muster-rolls are maintained, which give all the necessary particulars but which are not necessarily in the form prescribed by the Local Government. It is proposed to grant the inspector power to permit the substitution of these muster-rolls for the register prescribed under the Act.

Clause 16.—Under section 36 of the Factories Act, notices must be displayed, giving the standing orders of the factory relating to hours of work, rest intervals and holidays, and alterations in these notices must be sent to the inspector within seven days. At present, an inspector who visits the factory and finds that the standing orders are being contravened may be informed that the change has been made a few days before his visit to the factory, and it is difficult for him to check the accuracy of this statement. There is no reason why changes in the hours of work should not be notified to the inspector as soon as they are made, and the amendment will, it is hoped, place the inspecting staff in a position to exercise more effective control than is possible at present.

Clause 18.—Considerable difficulty has been experienced in preventing the employment of children in two factories on the same day. It is seldom possible to prove that either manager is aware that the child is working in another factory and in many cases the manager may have no such knowledge. On the other hand, it is almost universally the case that such employment is obtained under compulsion from or on the instigation of the parent or guardian of the child. It is believed that, if it were possible to punish the parent or guardian for what is essentially a gross dereliction of his duty to the child, the hands of those who are endeavouring to stamp out the abuse would be considerably strengthened. The proposed section is an adaptation of section 138 (*1*) of the British Factory and Workshop Act, 1901.

Clause 20.—The new clause is designed to enable inspectors to conduct prosecutions under the Factories Act.

Clause 21.—Section 33 of the Factories Act provides that persons occupying factories should send a written notice to the inspector on or before the date on which the factory commences work. Section 49 prevents prosecution for any offence unless complaint has been made within six months of the date of the alleged offence. If follows that, if a factory has worked for more than six months without being discovered, the occupier cannot be prosecuted for failure to inform the inspector of the opening of the factory. The amendment is designed with a view to rectifying this defect.

CALCUTTA, THE 8TH OCTOBER 1925.

RESOLUTION—No. 1847P.H.

READ—

The report on the working of the Asansol Mines Board of Health for the year 1924-25.

The constitution and personnel of the Board remained unchanged except that one member, nominated by mine owners, resigned and another was nominated in his place. One casual vacancy was not filled up during the year in view of the impending triennial reconstitution of the Board.

The Board was reconstituted in April 1925.

Twelve ordinary and three special meetings of the Board were held during the year. Three special meetings failed for want of quorum.

2. The total income of the Board, including an opening balance of Rs. 21,563 amounted to Rs. 1,64,332 during the year. The receipts from cess increased from Rs. 84,775 to Rs. 1,39,064 during the year, of which Rs. 1,16,977 was collected from mine owners and Rs. 22,087 from receivers of royalties. The increase was due to the cess being levied at a higher rate as also to the increased number of assessees. Miscellaneous receipts fell from Rs. 7,376 to Rs. 1,456. The total expenditure amounted to Rs. 1,39,526, leaving a closing balance of Rs. 24,806.

3. There was no severe outbreak of any epidemic disease during the year, which was a remarkably healthy one. The settlement was practically free from malaria, the number of cases and deaths from the disease being much below the average. There was no case of plague, influenza or epidemic dropsy throughout the year. Mortality from cholera showed a slight increase, there being 444 seizures with 273 deaths, against 381 cases with 199 deaths in the previous year. The use of the Essential Oils mixture, both in treatment and prophylaxis, was continued throughout the year with success. It is reported that the bacteriology of cholera in the Mining Settlement is now being investigated in the Board's Laboratory which was informally opened by His Excellency the Governor of Bengal on the 26th February 1925.

The usual quinquennial epidemic of small-pox was anticipated, and at the initiative of the Board, Government issued temporary regulations under the Epidemic Diseases Act, 1897 (III of 1897), for the prevention and control of small-pox in the Mining Settlement, which will remain in force for one year with effect from the 1st of January 1925. During the cold months of the year the disease spread in epidemic form within the limits of the Raniganj Municipality where there was a large number of unvaccinated children. The remainder of the settlement which was efficiently protected by vaccination, remained practically free from the epidemic. There were altogether 202 cases of small pox with 28 deaths, against 50 cases with 6 deaths in the preceding year. Vaccination and re-vaccination were performed in 33,459 cases against 23,533 in 1923-24.

The birth-rate remained practically stationary, being 26·02 per mille against 26·28 in the preceding year, while the death-rate rose from 17·90 to 18·53 per mille. The total number of births recorded during the year was 8,570 against 8,655 in 1923-24, while the number of recorded deaths rose from 5,897 to 6,103.

There was a satisfactory decline in the rate of infantile mortality, which was 138 per thousand of births registered against 150 in the preceding year. The low rate of infantile mortality, which compares favourably with the provincial rate, can rightly be attributed to the satisfactory hygienic conditions maintained in the settlement by the activities of the Mines Board of Health. It is satisfactory to note that amongst several hundred of deliveries attended by the Board's midwives not a single case of maternal death was reported during the year.

4. The Board continued to pay careful attention to such special measures as anti-malarial investigations, improvement of rural water-supplies, inspection of school children and delivery of weekly lectures by the sanitary assistants in primary schools on hygiene and public health, while the Board's midwives, in addition to their specific duties, paid house to house visits and delivered simple lectures on the general principles on domestic hygiene to the women of the settlement.

5. The sanitary administration of the settlement area was marked by the same degree of efficiency as in the preceding year. As compared

with other rural sanitary authorities, the Board have liberal funds for a comparatively small area, but their conspicuous success in dealing with epidemic disease within that area nevertheless provides a very useful object lesson for the rest of Bengal. There can be no doubt that if similar organizations existed throughout the province, the incidence of disease would be enormously reduced The Governor in Council has read with interest the account of the public health organization of the Board which was published by the Chief Sanitary Officer in the *Indian Medical Gazette* of April 1925, and desires to congratulate the Board, and their officers and staff for the continued progress maintained in the administration of this local area.

By order of the Governor in Council,

S. W. GOODE,
Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL

Second Forecast of the *Cotton* Crops of Bengal, 1925-26.

[NOTE.—On an average of the five years ending 1923-24, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts, and in the Tripura State, and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—The weather has been generally favourable except in the Tripura State, where irregular and excessive fall hampered the growth at places. The present outlook, so far, is promising on the whole.

Sowings for late variety commenced under favourable conditions.

Area sown.—The area sown with the early crop is reported to be 75,210 acres this year, as against 75,347 acres reported in the corresponding forecast of last year.

Of the late crop, an area of 963 acres is reported to have been sown this year against 857 acres reported in the corresponding forecast of last year.

Director of Agriculture, Bengal (offg.).

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 7th October 1925.

Summary.—Light and scattered showers fell in a number of districts. More rain is needed for growth of the winter paddy on the highland tracts in some of the West Bengal districts; elsewhere it is thriving. The effects of weather on the growth of sugarcane and other standing crops are generally favourable. The preparatory tillage for the spring crops is progressing and their sowings have commenced under favourable conditions. The prospects of standing crops are reported to be fair. The average price of common rice for the province has risen by about 0·18 per cent. as compared with that of the previous week.

NOTIFICATION.

No. 253T.-Medl.—The 28th September 1925.—The following draft of rules which the Government of Bengal propose to make under clause (*j*) of sub-section (*2*) of section 101 of the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919), in continuation of the rules sanctioned in notification No. 292Medl., dated the 27th January 1925 (published at pages 196-198 of the *Calcutta Gazette* of the 5th February 1925), is published for the information of persons affected thereby.

2. The draft will be taken into consideration on the 21st November 1925, and any objections or suggestions received by the undersigned through District Officers before that date will be duly considered :—

Rules for the management of a jointly managed dispensary.

22. **Management of jointly controlled dispensaries.**—Two or more union boards in a district may, with the approval of the District Board, join together and open or take over a dispensary. The management of such a dispensary and the general control of its staff shall be vested in a managing committee appointed by the union boards concerned, with the approval of the District Board which shall determine the number of representatives to be appointed by each such union board. The managing committee shall not include persons who are not members of the union boards concerned.

23. **Term of office of members of managing committee.**—Every member of a managing committee appointed under rule 22 shall vacate his office when the term of his office as a member of the union board expires :

Provided that the term of office of the members of the committee shall be held to include any period which may elapse between its expiration and the date of the first meeting of a new committee appointed to take its place.

24. **Removal of members.**—A member of a committee appointed under rule 22 may at any time be removed by the District Board on the recommendation of the union board by which he was appointed.

25. **Filling of vacancies.**—When the place of any member of the committee becomes vacant by reason of his removal, resignation or death, or of his having taken leave granted by the committee, the vacancy caused by the resignation, removal, death or absence on leave may be filled up by the appointment of another person by the union board which appointed the outgoing member, and the person so appointed shall hold office so long as the member whose place he fills would have been entitled to hold office if such vacancy had not occurred.

26. **Chairman and Vice-Chairman.**—The managing committee shall elect two of its members to be the Chairman and the Vice-Chairman respectively and may also elect another member to be the Secretary.

27. **Meetings of committee.**—The managing committee shall hold meetings at such intervals as may be necessary, not less than once a quarter, to enable it to exercise an efficient scrutiny over the accounts and to enquire into all matters affecting the welfare of the dispensary. One-third of the total number of members shall form a quorum at any meeting.

28. **Powers of managing committee.**—Rules 1 to 21 shall apply *mutatis mutandis* to the managing committee appointed under rule 22, which shall, except as otherwise provided, exercise all the powers vested in a union board in respect of a dispensary managed by the Board.

29. **Budget.**—The managing committee shall prepare a budget estimate of the probable income and expenditure of the dispensary for the ensuing financial year and submit it to the union boards concerned for their approval. No expenditure shall be incurred by the managing committee in excess of the sanctioned amounts, except with the approval of the union boards. The proportion of the cost of maintenance of the dispensary to be borne by the union boards shall be fixed by the District Board.

ESTABLISHMENTS.

Simla, the 5th October 1925.

No. F.-178-11-i-24.—The following resolution passed by the Secretary of State for India in Council is published for general information :—

In exercise of the powers conferred by sub-section (*2*) of section 96-B of the Government of India Act, the Secretary of State for India, with the concurrence of a majority of votes at a meeting of the Council of India held this 1st day of September 1925, hereby makes the following amendments in the Superior Civil Services (Revision of Pay and Pension) Rules, 1924, namely :—

(*i*) In Rule 4 of the said Rules, in Note 1, for the words "in Europe" the words "resident elsewhere than in Asia" shall be substituted.

(*ii*) For Rule 8 of the said Rules the following shall be substituted, namely :—

"8. (1) An officer who would be entitled under Rule 4 while on the time-scale or in a selection grade to draw overseas pay in sterling, shall be entitled, while holding any post included in Schedule III, to draw overseas pay in sterling at the rate of £13 6*s.* 8*d.* a month, subject to the following conditions, namely :—

"(*a*) that the rupee pay of his post (excluding passage pay) does not, including any special pay attached thereto, exceed Rs. 3,000 a month, or

"(*b*) that if the rupee pay of his post (excluding passage pay), not being itself in excess of Rs. 3,000 a month, with the addition of special pay exceeds that sum, the special pay is purely temporary or has been given in respect of special work which does not form part of the work of the post by virtue of which he draws overseas pay.

"(2) Notwithstanding the provisions of sub-rule (1) (*b*), a Chief Engineer who also holds the appointment of Secretary to the local Government shall be entitled to overseas pay under that sub-rule, irrespective of the amount of his special pay.

"(3) Officers to whom Rule 4 does not apply shall be entitled to draw the overseas pay admissible under this rule if at the date of their first appointment to the Civil Service of the Crown in India they were domiciled elsewhere than in Asia."

And the said Rules shall have effect and shall be deemed always to have had effect as though they had been enacted as so amended.

J. CRERAR,
Secretary to the Government of India.

The 8th October 1925.

No. F.-373-25.—In exercise of the powers conferred by rule 16 of the Superior Civil Services (Revision of Pay and Pension) Rules, 1924, the Governor General in Council, with the sanction of the Secretary of State in Council, is pleased to include the temporary post of Co-opted Member, Civil Justice Committee (held by Mr. H. P. Duval, C.I.E., I.C.S.), in Schedule III to the Rules.

PUBLIC.

The 5th October 1925.

No. F.-121-3-25.—In exercise of the powers conferred by sections 45-A and 129-A of the Government of India Act, the Governor General in Council, with the sanction of the Secretary of State in Council, is pleased to direct that the following further amendments shall be made in the Devolution Rules, namely :—

(*a*) After rule 12 the following rule shall be inserted, namely :—

"12-A.—The Governor General in Council shall have power to declare that any road or other means of communication is of military importance, and to prescribe in respect thereof the conditions subject to which it shall be constructed or maintained, including the amount of expenditure to be from time to time incurred upon such construction and maintenance by the Governor General in Council and by the local Government respectively :

Provided that before prescribing under this rule the sums to be expended by any local Government, the Governor General in Council shall consult the local Government or local Governments concerned."

(*b*) For item 6 (*b*) in Schedule I, Part II, and in Schedule II, to the said rules, the following item shall be substituted namely :—

"(*b*) Roads, bridges, ferries, tunnels, ropeways, causeways and other means of communication, subject to the provisions of rule 12-A, of these Rules, and of any orders made thereunder."

No. F.-121/6/25.—In exercise of the powers conferred by sections 45-A and 129-A of the Government of India Act, the Governor General in Council, with the sanction of the Secretary of State in Council, is pleased to direct that the following further amendments shall be made in the Devolution Rules, namely :—

1. Rule 22 of the Devolution Rules shall be renumbered as sub-rule (*1*) of rule 22 and in the said rule as so renumbered, for the words " at the average rate at which the Governor General in Council has borrowed money in the open market during the year by the issue of treasury bills " the following shall be substituted, namely :—

" at a rate which shall be one *per cent.* less than the rate charged by the Governor General in Council during the year for advances made to the Provincial Loans Fund."

To the said rule the following sub-rule shall be added, namely :—

"(2) The Governor General in Council may also pay to a local Government interest on its surplus balances on such conditions as he may, with the approval of the Secretary of State, prescribe."

2. In paragraph 6 of Schedule IV to the Devolution Rules, for the words " at the average rate at which the Governor General in Council has during the year borrowed money by the issue of treasury bills " the following shall be substituted, namely :—

" for the financial year 1924-25 at a rate which shall be one *per cent.* less than the rate charged by the Governor General in Council during the year for advances made to local Governments and for every subsequent year at a rate which shall be one *per cent.* less than the rate charged by him during the year for advances made to the Provincial Loans Fund."

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

No. 2T.-B.—The 5th October 1925.—The following list of text-books written in accordance with the revised Primary curriculum, published with Government notification No. 1665Edn., dated 16th November 1920, and approved for use in all classes of Primary Schools and in the primary stages of Middle Vernacular Schools in this Presidency, for the year 1926, is published for general information.

E. F. OATEN,
Director of Public Instruction, Bengal.

NOTE.—(*i*) District Boards in charge of primary education are authorised to select text-books from the approved list. The boards may select from the list approved by the Department a small number of text-books for use in both board and aided Primary Schools under their control, care being taken to discourage anything in the shape of exclusive prescription and to secure that selection is made with the utmost care so as to avoid undue patronage. Inspecting officers should refrain from recommending any books to the teachers of Primary Schools for selection and, in giving advice to District Boards in the matter of selection of text-books, should bear in mind that the system of exclusive prescription is to be discouraged.

(*ii*) The compulsory subjects in all Primary Schools will be the following :—

(*a*) Reading,
(*b*) Writing,
(*c*) Arithmetic,
(*d*) Geography,
(*e*) History,
(*f*) Hygiene (for boys) or Hygiene and Domestic Economy (for girls),
(*g*) Observation lessons (for boys), and
(*h*) Drill (for boys) or Needle-work (for girls).

The Primary Final Scholarship (Upper Primary) examination will be held at the end of class V, and the subjects of examination will be the first six subjects only. The Primary Preliminary Scholarship (Lower Primary) examination will be held at the end of class III, and the subjects of examination will be the first four and the sixth subjects.

For the Primary Final Examination any two of the following optional subjects should be taken :—

(*a*) Drawing,
(*b*) Manual work,
(*c*) Science or Nature Study based on school gardening,
(*d*) English, and
(*e*) Zamindari and Mahajani accounts.

For the Primary Preliminary Examination any one of the following optional subjects should be taken :—

(*a*) Drawing,
(*b*) Manual work.

(*iii*) Classes IV and V of a Primary School will correspond to present classes III and IV of a High and Middle English School. A boy from a Primary School intending to enter a High or Middle English School should leave at the end of class III. A boy may also enter a High or Middle English School at the end of class V, provided he has taken English as an optional subject in classes IV and V.

(g) Observation Lessons (for boys).

Class I—

Observation lessons.—To be begun by conversation lessons on the things in the school such as benches, desks, stools; children measuring the benches, desks, etc., collecting leaves, flowers and fruits from plants and trees growing in the locality and comparing them as to shape, colour, smell, number, etc. Additional observation lessons should be given in correlation with other class subjects.

Class II—

Observation lessons.—Collection and observation of plants such as may be available in the locality, comparing the different parts of each, root, stem, leaves, bark, flowers and fruits with those of another. Collecting crop plants growing in the season. Conversation about the food materials obtained from each. The organs of our body and their uses; children measuring and comparing the respective lengths of their arms, legs, fingers and their height. The teacher testing their eye-sight, power of hearing.

Class III—

Observation lessons.—Growth of plants to be observed by growing any kind of pulse and paddy in pots or in small plots. To observe the roots and seed leaves and mark the difference. Experiments to show the effect of light and moisture on growth. Collecting

other plants having roots and seed leaves like those grown. Collecting and observing plants having creeping or climbing stems. Plants growing in water, plants producing no flowers. Observing leaf buds and flower buds and parts of a flower.

Class IV—

Nature study based on school gardening. (Recommended for rural schools, optional.) —Laying out a garden, a plot of 4 to 6 square cubits, for each scholar, or if the compound is not spacious enough, a common plot for all, for purposes of experiment. Seed testing—showing 50 or 100 seeds of each of several kinds of plants, paddy, pulses, jute, mustard, according to the time of the year in each plot or separate parts of the common plot. Each scholar to keep a diary in which to note down the date of sowing, the time taken for germination, the percentage of germination, the rate of growth after germination. In each stage of growth the scholars will pull up a specimen and observe the roots, their uses and growth, the stems and leaves and their uses and structure: the flowers—their parts and uses, the methods of fertilization, the fruits and seeds. All these to be noted in the diary. To observe the kinds of soil—clayey, sandy, loamy; the power of each to absorb and retain moisture. Plant food in the soil. The effect of manures, showing the effect of different manures as cowdung, oilcake, ashes and nitrate of soda on the growth of plants, of phosphates on fruits, etc. The plots should be drawn to scale and all results recorded in the note book.

Class V—

Nature study based on school gardening (optional).—Boys may work in pairs, one of class IV and another of class V if single plots are available, otherwise all on a common plot, one being set apart for boys of class IV for experiments only and another for those of class V. Plans of work to be prepared in September every year; the plots to be sown with particular seeds should be set out to scale in the note book; plans should include also indoor work, such as raising early seedlings of onions, cauliflowers, cabbages in pots or boxes. Following operations to be explained:—Digging—its effect, purpose: to sow at depths suitable to various seeds; to prepare trenches—manuring effect and purpose; plant, food, seeding crops to be shown—(1) jute, (2) *aus* paddy, (3) maize, (4) *aman* paddy, (5) pulses, (6) mustard, (7) potato, (8) gram, also vegetables—brinjal, radish, turnip, cauliflower, onion, chilli, flowers grown on borders of each plot—arrangements should be made to produce a continuous supply of vegetables throughout the year. Lessons on rotation, on insect pests and insecticides. Records to be kept of the quantity of seed used and of the produce

N. B.—No text-books are required for the use of pupils in the above classes. The following books may be used by teachers for the purpose of oral instruction :—

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Sugarcane Crop of Bengal, 1925-26.

(On an average of the five years ending 1923-24, the area under sugarcane in Bengal has represented some 7·6 per cent. of the total area under sugarcane in British India.)

Character of the Season.—As stated in the first forecast the weather was generally favourable for the planting and growth of the crop excepting in April and May when the young plants in certain low-lying areas were affected by continuous wet weather. Since then light to moderate rainfall has been generally helpful and the crop is expected to be a satisfactory one for the province as a whole.

Area planted.—The total area planted with the crop for the province is reported to be 213,600 acres this year as against 205,700 and 206,200 acres reported, respectively, in the corresponding and final forecasts of last year.

Outturn.—According to the estimates of District Officers, the average outturn of the crop for the province works out at 83 per cent. of the normal this year as against 78 and 76 per cent., respectively, in the corresponding and final forecasts of last year.

Condition Figure.—The condition figure for the cane-crop is estimated at 83 per cent. as against a ten years' average of 82·7 per cent. This means that the condition of this year's crop is equal to about 100 per cent. of the ten years' average.

G. P. HECTOR,

Director of Agriculture, Bengal (offg.).

APPENDIX.

Second Forecast of the Sugarcane Crop of Bengal, 1925-26.

District.	Estimated normal area under sugarcane.	Estimated area under sugarcane.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the planting of setts generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
		Last year.	This year.	Last year.	This year.		
1	2	3	4	5	6	7	8
	Acres.	Acres.	Acres.				
24-Parganas ...	4,600	1,400	1,400	50	75	Middle of November to end of March. Normal.	The weather has, on the whole, been fair for the crop.
Nadia ...	7,900	6,500	6,500	67	75	Middle of January to March. Normal.	The weather has, on the whole, been fair.
Murshidabad ...	3,600	3,300	3,400	83	75	November to April. Normal.	The effects of weather on the cultivation and growth of the crop have been fair.
Jessore ...	5,200	2,500	2,100	67	56	January and February. Normal.	The weather was not favourable at the planting time, but subsequent rains have improved a little the growth of the crop.
Khulna ...	1,500	400	400	75	67	February. Normal.	The weather has been seasonable.
Burdwan ...	11,600	13,500	15,400	75	83	Beginning of April. Normal.	The increase in area is due to timely rainfall. The effects of weather on the cultivation and growth of the crop have been favourable.
Birbhum ...	9,500	6,000	6,000	92	100	April. Early ...	The increase in area is due to favourable weather and its effects on the growth of the crop have been good.
Bankura ...	3,100	3,100	3,000	83	83	April and May. Normal.	The increase in area is due to sufficient rainfall at the planting time. The effects of weather on the growth of the crop have been favourable.
Midnapore ...	6,600	6,400	6,000	58	75	March. Normal.	The decrease in area is due to want of rain at planting time. The weather improved subsequently and its effects on the growth have been fair.
Hooghly ...	3,200	3,500	3,700	75	96	End of February. Normal.	The increase in area is due to the high price of *gur* obtained last year and to favourable weather condition at planting time. The weather has been favourable but want of adequate rain slightly stunted the growth of the crop at some places in the Sadar subdivision.
Howrah ...	3,200	3,800	3,800	48	92	January to March. Normal.	The effects of weather on the cultivation and growth of the crop have been favourable.
Sarkahi ...	7,500	6,000	6,500	100	83	January to February. Normal.	The decrease in area is due to ordinary fluctuation. The weather has been favourable. The outturn is expected to fall below the normal owing to the unequal distribution of rain.
Rajpur ...	29,800	29,800	30,700	80	58	Beginning of March. Normal.	The increase in area is due to high prices of molasses. The weather was favourable at the planting time, but subsequent heavy rains damaged it to a certain extent.

District.	Estimated normal area under sugarcane.	Estimated area under sugarcane.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the planting of cane generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
		Last year.	This year.	Last year.	This year.		
1	2	3	4	5	6	7	8
	Acres.	Acres.	Acres.				
Jalpaiguri ...	6,000	5,000	4,700	100	83	January to April. Normal.	The decrease in area is due to excessive rainfall. The effects of weather on the growth of the crop have been fair.
Darjeeling ...	200	300	300	83	83	April. Normal ...	The effects of weather on the cultivation and growth of the crop have been fair.
Rangpur ...	11,900	21,500	21,000	75	100	Middle of February. Normal.	The effects of weather have been favourable.
Bogra ...	6,700	3,900	4,100	90	100	End of March. Rather late.	The increase in area is due to the spread of the departmental *fasna* canes. The weather has been favourable and the growth of the crop good.
Pabna	5,600	5,000	5,000	83	83	Middle of April. Normal.	The weather has been favourable at the sowing time and at present but excessive rain at the intervening period, specially in May, has affected the growth to a certain extent.
Malda	300	200	400	75	83	End of December. Normal.	The increase in area is due to introduction of the Agriculture Department *fasna* canes. The effects of weather on the growth of the crop have been fair.
Dacca	21,700	20,100	22,900	80	77	November. Normal.	The increase in area is due to high price of sugar obtained last year and to extensive cultivation of *fasna* canes in the Munshiganj subdivision. The weather was favourable at the beginning but early flood has damaged the crop to a certain extent.
Mymensingh ...	11,100	16,500	16,600	75	75	April and May. Normal.	The weather was favourable at planting time, but subsequent rainfall hampered the growth of the plant.
Faridpur ...	7,600	6,900	6,700	70	96	January. Normal.	The effects of weather on the cultivation and growth of the crop have been favourable, but in some places occasional rain affected the growth.
Bakarganj ...	18,800	29,500	29,000	67	100	January and February. Normal.	The decrease in area is due to extended cultivation of *bhadoi* crops including jute. The effects of weather have been good on the growth of the crops. Damage by stem-borer has been reported from places.
Chittagong ...	5,300	6,000	6,000	83	92	February and March. Normal.	The growth of the crop has been retarded somewhat owing to the cessation of rainfall at the planting and growing time.
Tippera ...	6,100	4,100	3,900	67	83	Chandpur. January. Normal. Elsewhere April. Late.	The decrease in area is due to the fact that no sugarcane cultivation was possible at Brahmanberia owing to early rise of water. Excessive rainfall in July and August was not favourable to the growth of the crop.
Noakhali ...	900	1,300	1,600	83	100	March and April. Normal.	The increase in area is due to high price of molasses. The weather has been favourable.
Chittagong Hill Tracts.	1,000	1,000	1,000	90	75	Last week of March. Late.	The weather has been fair on the whole.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 14th October 1925.

Summary.—The rainfall during the week was generally moderate to heavy. It has greatly improved the prospects of winter paddy and other standing crops. Preparatory tillage for spring crops and thier sowings are proceeding, but the operations are being a little retarded by the excessive rain. The average price of common rice for the province has risen by about 0·26 per cent. as compared with that of the previous week.

J. C. ROY, for *Director of Agriculture, Bengal.*

DACCA, *the 17th October 1925.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for September 1925.

I. **Character of the season.**—During the month the rainfall was markedly in defect of the normal in the districts of the 24-Parganas, Murshidabad, Bakarganj, Noakhali and Chittagong Hill Tracts, and in the districts of the Burdwan Division; elsewhere the precipitation was above the average. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Good rainfall during the first-half of the month facilitated the transplantation of winter paddy. As a result of the weak monsoon, the area transplanted with winter rice is considerably less than last year. Harvesting of *bhadoi* crops proceeded in full swing. Weeding of winter rice commenced under favourable conditions especially in Eastern Bengal.

III. **State of standing crops.**—The standing crops were thriving well, except in the highland tracts of the Burdwan Division, where insufficient rain adversely affected the growth.

IV. **Prospects and probable outturn.**—The outturn of autumn paddy was estimated at 71 per cent. and that of winter rice at 86 per cent. of the normal. The outlook of the winter paddy is promising in East and North Bengal, but only fair in West Bengal.

V. **Damage to standing crops.**—No appreciable damage to the standing crops was reported from any district.

VI. **Condition of agricultural stock.**—The condition of live-stock was reported to be fair. Stray cases of cattle disease were reported from eight districts.

VII. **Failure of pasturage and fodder.**—Insufficiency of fodder was reported from Pabna district.

VIII. **Prices of food-grains.**—During the second-half of the month the price of common rice of the cheapest quality rose in 9 districts, fell in 6 districts and remained stationary in the rest of the province. The prices ranged from 5 seers per rupee at Khulna to 7 seers per rupee at the Chittagong Hill Tracts.

IX. **Condition of agricultural population.**—The condition of agricultural population was reported to be fair on the whole.

Simla, the 5th October 1925.

No. D.-2404-A.—In exercise of the powers conferred by section 24 of the Indian Securities Act, 1920 (X of 1920), the Governor General in Council is pleased to direct that the following further amendments shall be made in the Indian Securities Rules, 1920, namely :—

1. For sub-clause (*i*) of clause (*f*) of rule 2 (*1*) of the said rules, the following shall be substituted, namely :—

"(*i*) the Public Debt Office on the books of which a Government security is registered."

2. For rules 13, 14 and 15 of the said rules, the following rules shall be substituted, namely :—

"13. After the publication of the last notification prescribed in rule 12, the Controller of the Currency shall, if he is satisfied of the loss or destruction of the note and of the justice of the claim of the applicant, cause the particulars of the note to be included in a list such as is referred to in sub-section (*3*) of section 10 of the Act, and shall order the Public Debt Office—

Issue of duplicate note and taking of indemnity.

(*1*) if only a portion of the note has been lost or destroyed, and if a portion of the note sufficient for its identification has been produced, to issue to the applicant, on the execution of an indemnity bond *such* as is hereinafter mentioned, a duplicate note in place of that of which a portion has been so lost or destroyed, six months after the date of the publication of the said list, and

(*2*) if no portion or no sufficient portion of the note so lost or destroyed has been produced, on the execution of an indemnity bond such as is hereinafter mentioned—

(*a*) to pay to the applicant, two years after the publication of the said list, the interest in respect of the note so lost or destroyed pending the issue of a duplicate note, and

(*b*) to issue to the applicant a duplicate note in place of the note so lost or destroyed six years after the date of publication of the said list : provided that—

(*i*) if the date on which the note is due for repayment falls earlier than the date on which the said period of six years expires, the Controller of the Currency shall, within six weeks of the former date, invest the principal amount due on the note in the Post Office Savings Bank, and shall repay this amount, together with any interest which may have accrued thereon in such Bank, to the applicant at the time when a duplicate note would otherwise have been issued, and

(*ii*) if at any time before the issue of the duplicate note the original note is discovered or it appears to the Public Debt Office for other reasons that the order should be rescinded, the matter shall be referred to the Controller of the Currency for further consideration and in the meantime all action on the order shall be suspended.

14. A provisional order passed under sub-rule (*2*) of rule 13 shall, on the expiry of the six years referred to therein, become final; provided that the Controller of the Currency may, at any time prior to the issue of a duplicate note, if he finds sufficient reason, alter or cancel any such order, and may also direct that the interval before the issue of a duplicate note shall be extended by such period not exceeding six years, as he may think fit.

Alteration of order, etc.

15. (*1*) Indemnity bonds—

Indemnity bonds.

(*a*) when executed under sub-rule (*2*) of rule 13 shall be for twice the amount of the interest involved, that is to say, twice the amount of all back interest accrued due on the note *plus* twice the amount of all interest to accrue due thereon during the period which will have to elapse before the issue of a duplicate note can be made, and

(*b*) in all other cases shall be for twice the face value of the note *plus* twice the amount of interest calculated in accordance with clause (*a*).

(*2*) The Controller of the Currency may direct that such idemnity bond shall also be executed by such number of sureties not exceeding two as he may think fit, or that the applicant shall furnish collateral security in the shape of Government securities to be deposited with him for such amount and period as he may think fit."

3. In rules 15-C, 24, 25, and 26, the words "as nearly as may be in Form V" shall be omitted.

4. For rule 32 of the said rules the following rule shall be substituted, namely :—

32. Subject to any general or special instructions of the Controller of the Currency, the powers conferred under these rules on the Controller of the Currency may be exercised by the Deputy Controller of the Currency, Bombay, or the Deputy Controller of the Currency, Madras.

DEPARTMENT OF INDUSTRIES AND LABOUR.

NOTIFICATION.

Simla, the 6th October 1925.

No. G.-(B)-6.—The following draft of further amendments to the Indian Boiler Regulations, 1924, which it is proposed to make in exercise of the powers conferred by section 28 of the Indian Boilers Act, 1923 (V of 1923), is published, as required by sub-section (*1*) of section 31 of the said Act, for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 10th January 1926. Any objection or suggestion which may be received in respect of the draft before the date specified will be considered by the Governor General in Council.

Draft Amendments.

1. For sub-regulation (*b*) of regulation 20 of the said Regulations the following sub-regulation shall be substituted, namely :—

"(*b*) *Angle Bars.*—A cold or a temper bend test shall be made from each angle bar rolled."

2. In regulation 48 of the said Regulations after the words " the longitudinal seams shall " the words ", where practicable," shall be inserted.

3. Regulation 49 of the said Regulations shall be re-numbered 49 (*a*) and after the regulation so re-numbered the following sub-regulation shall be inserted, namely :—

"(*b*) Where shell plates and end plates are connected by means of an external angle ring as in the front ends of Lancashire and Cornish type boilers the thickness of the angle ring shall be at least ten per cent. in excess of the thickness of shell plate."

4. After sub-regulation (*e*) of regulation 67 of the said Regulations the following sub-regulation shall be inserted, namely :—

"(*f*) Where stay tubes are not fitted in nests of tubes, as in tube plates of loco-type boilers, and parts of plate outside the space occupied by tubes are supported, in accordance with regulation 99 (*b*), by screwed stays each stay in the row nearest the tubes shall be of sufficient strength to support the plate up to the edges of the tube holes in addition to its share of the plate on opposite side of line of stays.

The working pressure for the plate between tubes and stays shall be determined by Equ. (25), A being the horizontal pitch of the stays in the nearest row, B twice the distance between the centre line of stays and a line touching the tubes opposite them and C the co-efficient appropriate to the kind of stay."

5. In sub-regulation (*c*) of regulation 70 of the said Regulations, in the definition of D, after the words " whichever is applicable," the following shall be inserted, namely :—

" where the circle passes through only three of the possible five points of support mentioned the remaining two shall be embraced within the circle."

6. In regulation 76 of the said Regulations after the words " A is the area in square inches supported by one stay," the following shall be inserted, namely :—

" [For area to be supported by stays near tubes in firebox tube plates of loco-type boilers see regulation 67 (*f*)]."

7. At the end of sub-regulations (*d*) and (*e*) of regulation 92 of the said Regulations the following shall be inserted, namely :—

" For stresses allowed on the sections see regulation 81."

8. After regulation 112 of the said Regulations the following regulations shall be inserted, namely :—

" 112-A.—*Corrugated Fireboxes of Vertical Boilers.*—For the semi-spirally corrugated fireboxes of " Sentinel " standard motor wagon boilers the working pressure shall be determined by the following formula :—

$$\text{W. P.} = \frac{C(t-1)}{D} \quad \ldots \quad \ldots \quad \text{Eqn. (65 A).}$$

t is the thickness of the firebox plate in 32nds of an inch,

D is the mean of the external diameters of firebox measured over the plain part at each end at commencement of curvature of flange,

Acts of the Indian Legislature assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislature received the assent of the Governor General on the 27th August, 1925, and is hereby promulgated for general information :—

ACT No. XIX OF 1925.

An Act to amend and consolidate the law relating to Government and other Provident Funds.

WHEREAS it is expedient to amend and consolidate the law relating to Government and other Provident Funds; It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the Provident Funds Act, 1925.

(*2*) It extends to the whole of British India including British Baluchistan.

(*3*) It shall come into force on such date as the Governor General in Council may, by notification in the *Gazette of India*, appoint.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "compulsory deposit" means a subscription to, or deposit in, a Provident Fund which, under the rules of the Fund, is not, until the happening of some specified contingency, repayable on demand otherwise than for the purpose of the payment of premia in respect of a policy of life insurance, and includes any contribution credited in respect of any such subscription or deposit and any interest or increment which has accrued under the rules of the Fund on any such subscription, deposit or contribution, and also any such subscription, deposit, contribution, interest or increment remaining to the credit of the subscriber or depositor after the happening of any such contingency ;

(*b*) "contribution" means any amount credited in a Provident Fund, by the authority by which the Fund has been constituted, by way of addition to, or otherwise in respect of, a subscription to, or deposit in, the Fund; and "contributory Provident Fund" means a Provident Fund the rules of which provide for the crediting of contributions;

(*c*) "dependant" means any of the following relatives of a deceased subscriber to, or a depositor in, a Provident Fund, namely, a wife, husband, parent, child, minor brother, unmarried sister and a deceased son's widow and child, and, where no parent of the subscriber or depositor is alive, a paternal grand-parent;

(*d*) "Government Provident Fund" means a Provident Fund, other than a Railway Provident Fund, constituted by the authority of the Government for any class or classes of its employees or for teachers in educational institutions;

(*e*) "Provident Fund" means a fund in which subscriptions or deposits of any class or classes of employees are received and held on their individual accounts, and includes any contributions credited in respect of such subscriptions or deposits and any interest or increment accruing on such subscriptions, deposits or contributions under the rules of the Fund;

(*f*) "Railway administration" means—

(*i*) any company administering a railway or tramway in British India either under a special Act of Parliament or of the Indian or a local Legislature, or under contract with the Secretary of State for India in Council, the Governor General in Council or a Local Government, or

(*ii*) the manager of any railway or tramway administered by the Governor General in Council or a Local Government,

and includes, in any case referred to in sub-clause (*ii*), the Governor General in Council or the Local Government, as the case may be;

(*g*) "Railway Provident Fund" means a Provident Fund constituted by the authority of a railway administration for any class or classes of its employees.

Protection of compulsory deposits.

3. (*1*) A compulsory deposit in any Government or Railway Provident Fund shall not in any way be capable of being assigned or charged and shall not be liable to attachment under any decree or order of any Civil, Revenue or Criminal Court in respect of any debt or liability incurred by the subscriber or depositor, and neither the Official Assignee nor any receiver appointed under the Provincial Insolvency Act, 1920, shall be entitled to, or have any claim on, any such compulsory deposit. V of 1920.

(*2*) Any sum standing to the credit of any subscriber to, or depositor in, any such Fund at the time of his decease and payable under the rules of the Fund to any dependant of the subscriber or depositor, or to such person as may be authorised by law to receive payment on his behalf, shall, subject to any deduction authorised by this Act and, save where the dependant is the widow or child of the subscriber or depositor, subject also to the rights of an assignee under an assignment made before the commencement of this Act, vest in the dependant, and shall, subject as aforesaid, be free from any debt or other liability incurred by the deceased or incurred by the dependant before the death of the subscriber or depositor.

Provisions regarding re-payments.

4. (*1*) When under the rules of any Government or Railway Provident Fund the sum standing to the credit of any subscriber or depositor, or the balance thereof after the making of any deduction authorised by this Act, has become payable, the officer whose duty it is to make the payment shall pay the sum or balance, as the case may be, to the subscriber or depositor, or, if he is dead, shall—

(*a*) if the sum or balance or any part thereof vests in a dependant under the provisions of section 3, pay the same to the dependant or to such person as may be authorised by law to receive payment on his behalf ; or

(*b*) if the whole sum or balance, as the case may be, does not exceed five thousand rupees, pay the same, or any part thereof which is not payable under clause (*a*), to any person nominated to receive it under the rules of the Fund, or, if no person is so nominated, to any person appearing to him to be otherwise entitled to receive it; or

(*c*) in the case of any sum or balance, or any part thereof, which is not payable to any person under clause (*a*) or clause (*b*), pay the same—

(*i*) to any person nominated to receive it under the rules of the Fund, on production by such person of probate or letters of administration evidencing the grant to him of administration to the estate of the deceased or a certificate granted under the Succession Certificate Act, 1889, or under the Bombay Regulation VIII of 1827, entitling the holder thereof to receive payment of such sum, balance or part, or

VII of 1889.

(*ii*) where no person is so nominated, to any person who produces such probate, letters or certificate :

Provided that, where the whole or any part of any sum standing to the credit of the subscriber or depositor has been assigned to any other person before the commencement of this Act, and notice in writing of the assignment has been received by the officer from the assignee, the officer shall, after making any deduction authorised by this Act and any payment due under clause (*a*) to or on behalf of the widow or children of the subscriber or depositor—

(*i*) if the subscriber or depositor or, if he is dead, the person to whom in the absence of any valid assignment the sum or balance would be payable under this sub-section gives his consent in writing, pay the sum or part or the balance thereof, as the case may be, to the assignee, or

(*ii*) if such consent is not forthcoming, withhold payment of the sum part or balance, as the case may be, pending a decision of a competent Civil Court as to the person entitled to receive it.

(*2*) The making of any payment authorised by sub-section (*1*) shall be a full discharge to the Government or the railway administration, as the case may be, from all liability in respect of so much of the sum standing to the credit of the subscriber or depositor as is equivalent to the amount so paid.

Rights of nominees.

5. (*1*) Subject to the provisions of this Act, but otherwise notwithstanding anything contained in any law for the time being in force or any disposition, whether testamentary or otherwise, by a subscriber to, or depositor in, a Government or Railway Provident Fund of the sum standing to his credit in the Fund, or of any part thereof, any nomination, duly made in accordance

with the rules of the Fund, which purports to confer upon any person the right to receive the whole or any part of such sum on the death of the subscriber or depositor, shall be deemed to confer such right absolutely, until such nomination is varied by another nomination made in like manner or is expressly cancelled by the subscriber or depositor by notice given in such manner and to such authority as is prescribed by those rules.

(2) Notwithstanding anything contained in the Succession Certificate Act, 1889, or the Bombay Regulation VIII of 1827, any such person shall, on the death of the subscriber or depositor, be entitled to the grant of a certificate under that Act, or that Regulation, as the case may be, entitling him to receive payment of such sum or part, and such certificate shall not be deemed to be invalidated or superseded by any grant to any other person of probate or letters of administration to the estate of the deceased. VII of 1889.

Power to make deductions

6. When the sum standing to the credit of any subscriber or depositor in any Government or Railway Provident Fund which is a contributory Provident Fund becomes payable, there may, if the authority by which the Fund has been constituted so directs, be deducted therefrom and paid to that authority—

(a) any amount due under a liability incurred by the subscriber or depositor to that authority, but not exceeding in any case the total amount of any contributions credited to the account of the subscriber or depositor and of any interest or increment which has accrued on such contributions; or

(b) where the subscriber or depositor has been dismissed from the employment of that authority for any reasons specified in this behalf in the rules of the Fund, or where he has resigned such employment within five years of the commencement thereof, the whole or any part of the amount of any such contributions, interest and increment.

Protection for acts done in good faith.

7. No suit or other legal proceeding shall lie against any person in respect of anything which is in good faith done or intended to be done under this Act.

Power to apply the Act to other Provident Funds

8. The Local Government may, by notification in the local official Gazette, direct that the provisions of this Act shall apply to any Provident Fund established for the benefit of its employees by any local authority within the meaning of the Local Authorities Loans Act, 1914, and, on the making of such declaration, this Act shall apply accordingly, as if such Provident Fund were a Government Provident Fund and such local authority were the Government. IX of 1914.

Savings as to estates of soldiers.

9. Nothing in section 4 or section 5 shall apply to money belonging to any estate for the purpose of the administration of which the Regimental Debts Act, 1893, applies. 56 and 57 Vict. c. 5.

Repeals.

10. The enactments mentioned in the Schedule are hereby repealed to the extent specified in the fourth column thereof.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislature received the assent of the Governor General on the 21st September 1925 and is hereby promulgated for general information :—

ACT No. XXVI OF 1925.

An act to amend the law with respect to the carriage of goods by sea.

Whereas at the International Conference on Maritime Law held at Brussels in October 1922, the delegates at the Conference, including the delegates representing His Majesty, agreed unanimously to recommend their respective Governments to adopt as the basis of a convention a draft convention for the unification of certain rules relating to bills of lading ;

And whereas at a meeting held at Brussels in October 1923, the rules contained in the said draft convention were amended by the Committee appointed by the said Conference;

And whereas provision has been made by the Carriage of Goods by Sea Act, 1924, that the said rules as so amended and as set out with modifications in the Schedule shall, subject to the provisions of that Act, have the force of law with a view to establishing the responsibilities, liabilities, rights and immunities attaching to carriers under bills of lading ; 14 & 15 Geo. V., c. 22.

And whereas it is expedient that like provision should be made in British India ; it is hereby enacted as follows :—

Short title and extent

1. (*1*) This Act may be called the Indian Carriage of Goods by Sea Act, 1925.

(*2*) It extends to the whole of British India.

Application of Rules.

2. Subject to the provisions of this Act, the rules set out in the Schedule (hereinafter referred to as "the Rules") shall have effect in relation to and in connection with the carriage of goods by sea in ships carrying goods from any port in British India to any other port whether in or outside British India.

Absolute warranty of seaworthiness not to be implied in contracts to which Rules apply.

3. There shall not be implied in any contract for the carriage of goods by sea to which the Rules apply any absolute undertaking by the carrier of the goods to provide a seaworthy ship.

Statement as to application of Rules to be included in bills of lading.

4. Every bill of lading, or similar document of title issued in British India which contains or is evidence of any contract to which the Rules apply, shall contain an express statement that it is to have effect subject to the provisions of the said Rules as applied by this Act.

Modification of Article VI of Rules in relation to goods carried in sailing ships and by prescribed routes.

5. Article VI of the Rules shall, in relation to—

(*a*) the carriage of goods by sea in sailing ships carrying goods from any port in British India to any other port whether in or outside British India, and

(*b*) the carriage of goods by sea in ships carrying goods from a port in British India notified in this behalf in the Gazette of India by the Governor General in Council to a port in Ceylon specified in the said notification,

have effect as though the said Article referred to goods of any class instead of to particular goods and as though the proviso to the second paragraph of the said Article were omitted.

Modification of Rules 4 and 5 of Article III in relation to bulk cargoes.

6. Where under the custom of any trade the weight of any bulk cargo inserted in the bill of lading is a weight ascertained or accepted by a third party other than the carrier or the shipper and the fact that the weight is so ascertained or accepted is stated in the bill of lading, then, notwithstanding anything in the Rules, the bill of lading shall not be deemed to be *prima facie* evidence against the carrier of the receipt of goods of the weight so inserted in the bill of lading, and the accuracy thereof at the time of shipment shall not be deemed to have been guaranteed by the shipper.

Saving and operation.

7. (*1*) Nothing in this Act shall affect the operation of sections four hundred and forty-six to four hundred and fifty, both inclusive, five hundred and two, and five hundred and three of the Merchant Shipping Act, 1894, as amended by any subsequent enactment, or the operation of any other enactment for the time being in force limiting the liability of the owners of seagoing vessels. 57 & 58 Vict., c 60.

(*2*) The Rules shall not by virtue of this Act apply to any contract for the carriage of goods by sea before such day, not being earlier than the first day of January 1926, as the Governor General in Council may, by notification in the Gazette of India, appoint, nor to any bill of lading or similar document of title issued, whether before or after such day as aforesaid, in pursuance of any such contract as aforesaid.

SCHEDULE.

RULES RELATING TO BILLS OF LADING.

ARTICLE I.

Definitions.

In these Rules the following expressions have the meanings hereby assigned to them respectively, that is to say—

(*a*) "Carrier" includes the owner or the charterer who enters into a contract of carriage with a shipper;

(*b*) "Contract of carriage" applies only to contracts of carriage covered by a bill of lading or any similar document of title, in so far as such document relates to the carriage of goods by sea, including any bill of lading or any similar document as aforesaid issued under or pursuant to a charter party from the moment at which such bill of lading or similar document of title regulates the relations between a carrier and a holder of the same:

(*c*) "Goods" includes goods, wares, merchandises and articles of every kind whatsoever, except live animals and cargo which by the contract of carriage is stated as being carried on deck and is so carried:

(*d*) "Ship" means any vessel used for the carriage of goods by sea:

(*e*) "Carriage of goods" covers the period from the time when the goods are loaded on to the time when they are discharged from the ship.

ARTICLE II.

Risks.

Subject to the provisions of Article VI, under every contract of carriage of goods by sea the carrier, in relation to the loading, handling, stowage, carriage, custody, care, and discharge of such goods, shall be subject to the responsibilities and liabilities, and entitled to the rights and immunities hereinafter set forth.

ARTICLE III.

Responsibilities and Liabilities.

1. The carrier shall be bound before and at the beginning of the voyage, to exercise due diligence to—

(*a*) Make the ship seaworthy:

(*b*) Properly man, equip, and supply the ship:

(*c*) Make the holds, refrigerating and cool chambers, and all other parts of the ship in which goods are carried, fit and safe for their reception, carriage and preservation.

2. Subject to the provisions of Article IV, the carrier shall properly and carefully load, handle, stow, carry, keep, care for and discharge the goods carried.

3. After receiving the goods into his charge, the carrier, or the master or agent of the carrier, shall, on demand of the shipper, issue to the shipper a bill of lading showing among other things—

(*a*) The leading marks necessary for identification of the goods as the same are furnished in writing by the shipper before the loading of such goods starts, provided such marks are stamped or otherwise shewn clearly upon the goods if uncovered, or on the cases or coverings in which such goods are contained, in such a manner as should ordinarily remain legible until the end of the voyage:

(*b*) Either the number of packages or pieces, or the quantity, or weight, as the case may be, as furnished in writing by the shipper:

(*c*) The apparent order and condition of the goods:

Provided that no carrier, master or agent of the carrier shall be bound to state or show in the bill of lading any marks, number, quantity, or weight which he has reasonable ground for suspecting not accurately to represent the goods actually received, or which he has had no reasonable means of checking.

4. Such a bill of lading shall be *primâ facie* evidence of the receipt by the carrier of the goods as therein described in accordance with paragraph 3 (*a*) (*b*) and (*c*).

5. The shipper shall be deemed to have guaranteed to the carrier the accuracy at the time of shipment of the marks, number, quantity, and weight, as furnished by him, and the shipper shall indemnify the carrier against all loss, damages, and expenses arising and resulting from inaccuracies in such particulars. The right of the carrier to such indemnity shall in no way limit his responsibility and liability under the contract of carriage to any person other than the shipper.

6. Unless notice of loss or damage and the general nature of such loss or damage be given in writing to the carrier or his agent at the port of discharge before or at the time of the removal of the goods into the custody of the person entitled to delivery thereof under the contract of carriage, or, if the loss or damage be not apparent, within three days, such removal shall be *primâ facie* evidence of the delivery by the carrier of the goods as described in the bill of lading.

The notice in writing need not be given if the state of the goods has at the time of their receipt been the subject of joint survey or inspection.

In any event the carrier and the ship shall be discharged from all liability in respect of loss or damage unless suit is brought within one year after delivery of the goods or the date when the goods should have been delivered.

In the case of any actual or apprehended loss or damage the carrier and the receiver shall give all reasonable facilities to each other for inspecting and tallying the goods.

7. After the goods are loaded the bill of lading to be issued by the carrier, master or agent of the carrier, to the shipper shall, if the shipper so demands, be a "shipped" bill of lading, provided that if the shipper shall have previously taken up any document of title to such goods, he shall surrender the same as against the issue of the "shipped" bill of lading, but at the option of the carrier, such document of title may be noted at the port of shipment by the carrier, master, or agent with the name or names of the ship or ships upon which the goods have been shipped and the date or dates of shipment, and when so noted the same shall for the purpose of this article be deemed to constitute a "shipped" bill of lading.

8. Any clause, covenant or agreement in a contract of carriage relieving the carrier or the ship from liability for loss or damage to or in connection with goods arising from negligence, fault or failure in the duties and obligations provided in this Article or lessening such liability otherwise than as provided in these Rules, shall be null and void and of no effect

A benefit of insurance or similar clause shall be deemed to be a clause relieving the carrier from liability.

ARTICLE IV.

Rights and Immunities.

1. Neither the carrier nor the ship shall be liable for loss or damage arising or resulting from unseaworthiness unless caused by want of due diligence on the part of the carrier to make the ship seaworthy, and to secure that the ship is properly manned, equipped and supplied, and to make the holds, refrigerating and cool chambers and all other parts of the ship in which goods are carried fit and safe for their reception, carriage and preservation in accordance with the provisions of paragraph 1 of Article III.

Whenever loss or damage has resulted from unseaworthiness, the burden of proving the exercise of due diligence shall be on the carrier or other person claiming exemption under this section.

2. Neither the carrier nor the ship shall be responsible for loss or damage arising or resulting from—

(*a*) act, neglect, or default of the master, mariner, pilot, or the servants of the carrier in the navigation or in the management of the ship :

(*b*) fire, unless caused by the actual fault or privity of the carrier :

(*c*) perils, dangers and accidents of the sea or other navigable waters :

(*d*) act of God :

(*e*) act of war :

(*f*) act of public enemies :

(*g*) arrest or restraint of princes, rulers or people, or seizure under legal process :

(*h*) quarantine restriction :

(*i*) act or omission of the shipper or owner of the goods, his agent, or representative :

(*j*) strikes or lock-outs or stoppage or restraint of labour from whatever cause, whether partial or general :

(*k*) riots and civil commotions :

(*l*) saving or attempting to save life or property at sea :

(*m*) wastage in bulk or weight or any other loss or damage arising from inherent defect, quality, or vice of the goods :

(*n*) insufficiency of packing :

(*o*) insufficiency or inadequacy of marks :

(*p*) latent defects not discoverable by due diligence :

(*q*) any other cause arising without the actual fault or privity of the carrier, or without the fault or neglect of the agents or servants of the carrier, but the burden of proof shall be on the person claiming the benefit of this exception to show that neither the actual fault or privity of the carrier nor the fault or neglect of the agents or servants of the carrier contributed to the loss or damage.

3. The shipper shall not be responsible for loss or damage sustained by the carrier or the ship arising or resulting from any cause without the act, fault or neglect of the shipper, his agents or his servants.

4. Any deviation in saving or attempting to save life or property at sea, or any reasonable deviation shall not be deemed to be an infringement or breach of these Rules or of the contract of carriage, and the carrier shall not be liable for any loss or damage resulting therefrom.

5. Neither the carrier nor the ship shall in any event be or become liable for any loss or damage to or in connection with goods in an amount exceeding 100*l.* per package or unit, or the equivalent of that sum in other currency, unless the nature and value of such goods have been declared by the shipper before shipment and inserted in the bill of lading.

This declaration if embodied in the bill of lading shall be *prima facie* evidence, but shall not be binding or conclusive on the carrier.

By agreement between the carrier, master or agent of the carrier and the shipper another maximum amount than that mentioned in this paragraph may be fixed, provided that such maximum shall not be less than the figure abovenamed.

Neither the carrier nor the ship shall be responsible in any event for loss or damage to or in connection with goods if the nature or value thereof has been knowingly mis-stated by the shipper in the bill of lading.

6. Goods of an inflammable, explosive or dangerous nature to the shipment whereof the carrier, master or agent of the carrier, has not consented, with knowledge of their nature and character, may at any time before discharge be landed at any place or destroyed or rendered innocuous by the carrier without compensation, and the shipper of such goods shall be liable for all damages and expenses directly or indirectly arising out of or resulting from such shipment.

If any such goods shipped with such knowledge and consent shall become a danger to the ship or cargo, they may in like manner be landed at any place or destroyed or rendered innocuous by the carrier without liability on the part of the carrier except to general average, if any.

ARTICLE V.

Surrender of Rights and Immunities, and Increase of Responsibilities and Liabilities.

A carrier shall be at liberty to surrender in whole or in part all or any of his rights and immunities or to increase any of his responsibilities and liabilities under the Rules contained in any of these Articles, provided such surrender or increase shall be embodied in the bill of lading issued to the shipper.

The provisions of these Rules shall not be applicable to charterparties, but if bills of lading are issued in the case of a ship under a charterparty they shall comply with the terms of these Rules. Nothing in these Rules shall be held to prevent the insertion in a bill of lading of any lawful provision regarding general average.

ARTICLE VI.

Special Conditions.

Notwithstanding the provisions of the preceding Articles, a carrier, master or agent of the carrier, and a shipper shall in regard to any particular goods be at liberty to enter into any agreement in any terms as to the responsibility and liability of the carrier for such goods, and as to the rights and immunities of the carrier in respect of such goods, or his obligation as to seaworthiness, so far as this stipulation is not contrary to public policy, or the care or diligence of his servants or agents in regard to the loading, handling, stowage, carriage, custody, care, and discharge of the goods carried by sea, provided that in this case no bill of lading has been or shall be issued and that the terms agreed shall be embodied in a receipt which shall be a non-negotiable document and shall be marked as such.

Any agreement so entered into shall have full legal effect:

Provided that this Article shall not apply to ordinary commercial shipments made in the ordinary course of trade, but only to other shipments where the character or condition of the property to be carried or the circumstances, terms and conditions under which the carriage is to be performed, are such as reasonably to justify a special agreement.

ARTICLE VII

Limitations on the Application of the Rules.

Nothing herein contained shall prevent a carrier or a shipper from entering into any agreement, stipulation, condition, reservation or exemption as to the responsibility and liability of the carrier or the ship for the loss or damage to or in connection with the custody and care and handling of goods prior to the loading on and subsequent to the discharge from the ship on which the goods are carried by sea.

ARTICLE VIII.

Limitation of Liability.

The provisions of these Rules shall not affect the rights and obligations of the carrier under any Statute for the time being in force relating to the limitation of the liability of owners of sea-going vessels.

ARTICLE IX.

The monetary units mentioned in these Rules are to be taken to be gold value.

DECLARATION.

No. 6974Com.—The 30th October 1925.—Whereas certain land was acquired by Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for such portion of the Sitarampur-Baraboni Loop, East Indian Railway, as lies between chainage 24·28 and chainage 31·14 and such portion of the Sudih siding as lies between chainage 3·87 and chainage 14·53 and as are edged with pink on the plan L. A. M. A. No. 509 and whereas coal mines at Sudih colliery are situate under the said land, and whereas Messrs. Morarji Mulraj and Company have given notice to Government in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as the Dishergarh seam, and whereas the mines have been inspected by the officer appointed by Government for the purpose under section 5 (*1*) of Act XVIII of 1885, and whereas it appears to the Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Messrs. Morarji Mulraj and Company have agreed not to work and get minerals underlying the land acquired for their siding or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working :

Now, therefore, the Governor in Council is pleased to declare, under section 5, sub-section (*2*), clause (*b*) of the above mentioned Act XVIII of 1885, that the working shall be carried on by the said Messrs. Morarji Mulraj and Company in the manner and subject to the restrictions below specified, viz. :—

(1) No gallery shall be driven nor shall any coal be extracted under the areas hatched with yellow on the plan.

(2) No gallery shall be driven nor shall any coal be extracted where the distance from the natural surface of the ground or the bottom of an artificial cutting to the top of the excavation, if made, is less than 50 feet.

(3) Where the distance from the natural surface of the ground or the bottom of an artificial cutting to the top of the excavation, if made, is 50 feet or more :

Under the Sitarampur-Baraboni Loop, galleries, not exceeding 12 feet in width by 12 feet in height, may be driven at distances apart not less than 70 feet, centre to centre, forming pillars not less than 58 feet square to be left unworked.

Under the Sudih Siding, galleries, not exceeding 12 feet in width by 12 feet in height, may be driven at distances apart not less than 60 feet, centre to centre, forming pillars not less than 48 feet square to be left unworked.

(4) Haulage roads may be driven not exceeding 14 feet in width. Crosscuts may be driven for haulage purposes provided that the pillars adjacent to such crosscuts are made not less than 3,364 (equal to 58 × 58) square feet in area under the land acquired for the loop line, and not less than 2,304 (equal to 48 × 48) square feet in area under the land acquired for the siding.

(5) Manholes, not exceeding 6 feet in height by 3 feet in width by 4 feet in depth, may be made where required by any rules made under the Indian Mines Act, 1923.

(6) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(7) Any collapse of workings or symptoms of collapse or crush which may endanger the stability of the acquired land shall be reported to the Chief Inspector of Mines without delay.

(8) These restrictions apply to the Dishergarh seam only at Sudih colliery and to the area edged with pink on the plan and Messrs. Morarji Mulraj and Company shall give notice under section 4 of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area or to work coal under any other area of acquired land.

The plan marked L.A.M.A. No. 509 signed by the Chief Inspector of Mines may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

NOTIFICATION.

PUBLIC.

Simla, the 20th October 1925.

No. F.-558-25.—In exercise of the powers conferred by section 39, sub-section (*1*) of the Government of India Act, the Governor General in Council is pleased to direct that the Governor General's Executive Council shall assemble at Delhi.

RESOLUTION.

PUBLIC.

The 20th October 1925.

No. F.-556-25.—On the 16th September 1925 the Legislative Assembly by a majority of one vote adopted the following resolution :—

> "This Assembly recommends to the Governor General in Council that the rules made under the Government of India Act, 1919, for elections to the Indian and Provincial Legislatures, be so amended as to remove all the disqualifications which are at present imposed upon any person against whom a conviction by a criminal court involving a sentence of transportation or imprisonment for a period of more than one year is subsisting, after he has endured the punishment to which he was adjudged or been pardoned for the offence concerned."

The resolution was opposed by Government, but the Governor General in Council has now again carefully considered the question.

2. Under the old regulations for election to the Imperial and Provincial Legislative Councils any sentence of imprisonment for an offence punishable with imprisonment for a term exceeding six months or an order to furnish security for good behaviour constituted a permanent disqualification for election as a member of one of the Councils unless the sentence or order had been reversed or remitted, or the offender had been pardoned, or unless the disqualification had been removed by an order of the executive government concerned. The Joint Select Committee on the Government of India Bill of 1919 suggested that the stringency of these provisions should be mitigated by providing that a

criminal conviction which actually entailed a sentence of more than six months' imprisonment should be a disqualification but only for five years from the date of the expiration of the sentence. That is, the disqualification instead of being permanent would last for five years, and a definite sentence of more than six months' imprisonment instead of only a sentence of imprisonment for an offence punishable with imprisonment for more than six months was required. The proposal was accepted and effect was given to it in sub-rule (2) of rule 5 of the electoral rules applicable to Provincial Legislative Councils and to the two Chambers of the Indian Legislature. The terms of that sub-rule were as follows :—

"(2) A person against whom a conviction by a criminal court involving a sentence of transportation or imprisonment for a period of more than six months is subsisting shall, unless the offence of which he was convicted has been pardoned, not be eligible for election for five years from the date of the expiration of the sentence."

3. The question was reconsidered by the Government of India in 1923. It appeared to them that in the circumstances of India a disqualification which would subsist for a period after the expiration of a sentence of imprisonment for a criminal offence was necessary, and that it was impossible to provide in the rules any form of words which would properly distinguish between those sentences of imprisonment which should not constitute a disqualification and those sentences which should do so. Any provisions which would permit of the automatic removal of the disqualification were therefore regarded as impossible, and it was considered that each case must be considered on its individual merits. Under the rule the disqualification could be removed by the exercise of the prerogative power of pardon by His Excellency the Governor General, but the adoption of such a course in many cases is open to the objection that the grant of a free pardon involves the removal, not only of the effect of the conviction but also of the conviction itself. On the other hand, it appeared to the Government of India that it should be possible to permit of the removal of the disqualification in the case of, for example, the honest thinker who might have overstepped the law and might have been prosecuted in a moment of tense atmosphere. They accordingly recommended for the sanction of the Secretary of State in Council that local Governments should be empowered to remove the disqualification on application made by the person concerned and that, in order to secure some measure of uniformity, the exercise of this power should be subject to the approval of the Governor General in Council. The recommendations were referred by the Secretary of State to the Standing Joint Committee on Indian Affairs in July 1923, but the Committee did not advise their adoption because of the approaching adjournment of Parliament which would have meant that Parliament would have no opportunity of exercising the control provided in section 129-A, sub-section (*3*), of the Government of India Act. The proposals came again before the Standing Joint Committee in July 1924, when after rejecting various amendments the Committee, on the motion of Lord Clwyd, advised the Secretary of State to adopt the proposals of the Government of India.

4. Before the Secretary of State had given effect to the advice of the Joint Select Committee the question was again considered by the Reforms Enquiry Committee in paragraph 72 of their report. The recommendation of the Committee was summarised as follows :—

"The existing disqualification from being a member of either Chamber of the Indian Legislature or of a Provincial Council which follows from a conviction by a criminal court should be modified—

(*i*) by increasing the period of sentence which constitutes a disqualification from six months to one year ; and

(*ii*) by enabling it to be removed, subject to provisions to secure uniformity, by orders of the local Government instead of only by pardon."

The Government of India then repeated their recommendation of 1923 which was in conformity with the second part of the Committee's recommendation and in addition recommended the exemption of persons sentenced to one year's imprisonment or less from disqualification. These recommendations were sanctioned by the Secretary of State in Council and the necessary amendments to sub-rule (*2*) to rules 5 and 22 of the various electoral rules were notified in the Home Department notifications, dated the 23rd July 1925. The terms of sub-rule (*2*) of rule 5 are now as follows :—

Sub-rule (2) of rule 5 of the electoral rules for the two Chambers of the Indian Legislature.

"(2) A person against whom a conviction by a criminal court involving a sentence of transportation or imprisonment for a period of more than one year is subsisting shall, unless the offence of which he was convicted has been pardoned, not be eligible for election for five years from the date of the expiration of the sentence.

Provided that, on application made by a person disqualified under this sub-rule, and with the previous approval of the Governor General in Council, the local Government of a province may by order in this behalf remove the disqualification in respect of eligibility of such person for election as a member of the Council of State/Legislative Assembly to represent any constituency within that province."

Sub-rule (2) of rule 5 of the provincial electoral rules.

"(2) A person against whom a conviction by a criminal court involving a sentence of transportation or imprisonment for a period of more than one year is subsisting shall, unless the offence of which he was convicted has been pardoned, not be eligible for election for five years from the date of the expiration of the sentence.

Provided that, on application made by a person disqualified under this sub-rule, and with the previous approval of the Governor General in Council, the local Government may remove the disqualification by order in this behalf."

5. A sentence of more than one year's imprisonment must now have been imposed before there is any disqualification, and further it is open to the local Government, with the approval of the Governor General in Council, on the consideration of the circumstances of any individual case, to remove the disqualification. The rules require an application by the person disqualified; but any person, who desires to stand for election for any of the local Councils or for either Chamber of the Indian Legislature, has only to address the local Government in a written application; give particulars of the sentence which constitutes a disqualification in his case; say that he wishes to stand for election; and ask that the disqualification may be removed. The local Government will then be in a position to consider the circumstances of the conviction in his case. By the amendments which have been made the stringency of the previous provisions has been considerably mitigated and elasticity has been introduced. After careful consideration of the views urged in the debate in the Legislative Assembly the Governor General in Council has decided that there is no sufficient reason to modify the conclusions which have been reached so recently, and that in the existing conditions of India it would not be in the public interests to provide for any further relaxation of the provisions.

ORDER.—Ordered that the above Resolution be communicated to all local Governments and Administrations for information and that it be also published in the *Gazette of India*.

Simla, the 22nd October 1925.

No. F.-740-25.—In exercise of the powers conferred by section 14 of the Indian Motor Vehicles Act, 1914 (VIII of 1914), the Governor General in Council is pleased to make the following rules prescribing the conditions subject to which motor vehicles brought temporarily into British India from Afghanistan by persons intending to make a temporary stay in British India may be possessed, used and driven :—

Rules.

1. A motor vehicle brought temporarily into British India from Afghanistan shall carry, fixed in a visible position on the back of the car, a distinctive plate displaying a device or lettering to indicate its nationality.

2 Any person desiring to bring a motor vehicle into British India from Afghanistan may, if he holds a pass granted by His Majesty's Minister at Kabul and containing a certificate to the effect that the vehicle is fit for use and that the driver thereof is fit to drive on the highways of British India, proceed as far as Landi Khana where he shall be entitled to receive from the Political Agent, Khyber, a permit valid for the day of issue and the following day, authorising him to drive the vehicle direct to Peshawar. On arrival at Peshawar he shall produce the aforesaid pass before the District Magistrate, Peshawar, and apply for the endorsement thereof and for the registration of the vehicle covered thereby.

Provided that in the case of vehicles certified by His Majesty's Minister at Kabul to be the personal property of His Majesty the Amir of Afghanistan, endorsement of the pass shall have the effect of registration.

3. On receiving such an application the District Magistrate, Peshawar, shall satisfy himself that the pass was issued by competent authority, that the period of its validity has not expired, that the vehicle corresponds with the vehicle described in the pass and has affixed to it the plate referred to in rule 1 and that the drivers of the vehicle are the persons whose names appear on the pass.

4. If the District Magistrate, Peshawar, is satisfied that the requirements of rule 3 have been complied with, he shall endorse the pass and shall enter in a register to be maintained by him the following particulars :—

(*a*) number,
(*b*) date of issue of pass and authority by which it was issued,
(*c*) full name and address of owner and driver,
(*d*) description of vehicle,
(*e*) shape and colour of body of vehicle,
(*f*) letters and number on identification plates,
(*g*) date of registration.

5. The endorsement by the District Magistrate, Peshawar, of a pass shall be valid during the period of validity of the pass, and shall be subject to the condition of the pre-payment of the following fees :—

	Rs.
For each motor vehicle of the touring car class	16
For each heavy motor vehicle under 3 tons unladen	30
For each heavy motor vehicle exceeding 3 tons unladen	100
For each driver's name entered on the pass	5

Provided that the vehicles referred to in the proviso to rule 2 and vehicles belonging to British and Foreign Ministers accredited to the Court of His Majesty the Amir of Afghanistan shall be exempted from the payment of fees.

6. The affixing of an identification plate in accordance with rule 1, the holding of the pass referred to in rule 2, the endorsement of such pass, and save in the case of motor vehicles which are the personal property of His Majesty the Amir of Afghanistan, the registration of the motor vehicle covered thereby shall during the validity of such pass be deemed to be in compliance with the conditions subject to which the motor vehicle may be possessed, used and driven in British India by the persons respectively referred to in such pass.

7. Nothing in these rules shall affect any of the provisions of the Motor Vehicles International Circulation Rules, 1915, or apply to any motor vehicle covered by an international travelling pass, or registered in British India.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

State Scholarship in Arabic.

APPLICATIONS are invited for the State Scholarship in Arabic to be awarded by the Government of Bengal. Applicants must be Moslems born in Bengal, or of Bengali Moslem parentage, who have made a special study of Arabic and possess high qualifications in the subject. The object of the scholarship will be to enable the successful applicant to acquaint himself with western methods of critical and scientific study in Arabic language and literature and in general to deepen his knowledge of the subject.

2. The scholarship is tenable in Europe for a period of three years, and will be of the value of £300 a year.

3. The scholarship will carry with it no conditions as to any subsequent career or service under Government and no expectations of such employment are held out.

4. Other things being equal, preference will be given to a candidate whose age does not exceed 25, and only in very exceptional circumstances will a candidate above 30 be considered.

5. Intending candidates, who meet the requirements laid down, are requested to apply to the Assistant Director of Public Instruction, Bengal, Writers' Buildings, Calcutta, on forms obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, on or before the 15th of November 1925, with a medical certificate of fitness to undergo a course of study abroad. Each application must include testimonials from professors or other qualified persons, statement of the academic qualifications of the scholar, and an indication of special line of research or study which he desires to pursue in Europe.

6. The selected scholar will be required to deposit with the Educational Adviser for Indian Students at the India Office before his arrival in England the sum of £ 40 for initial expenses. He will have no claim to payment of any instalment of his scholarship until this deposit has been made.

7. The scholar will be required to proceed to England at such time as the Government of Bengal shall direct and to reside there for the period of his scholarship, unless compelled to return sooner in consequence of ill health. The scholarship will be payable from the date from which the scholar reports his arrival in England. The selected scholar will be provided with a second class passage to England and also with a second class return passage if he carries out the instructions of the High Commissioner and completes the full period of residence or if he is compelled by sickness to return within that period.

8. The necessary travelling expenses of the scholar abroad by second class, or by third class, if no second class be available, will be defrayed by the High Commissioner. Travelling expenses within the United Kingdom will be borne by the scholar himself, except in respect of journeys from the place of study in England to the port of embarkation in England and *vice versa* forming part of any journey abroad sanctioned by the High Commissioner, when the necessary travelling expenses by second class, or by third class if no second class be available, will be defrayed by the High Commissioner.

Calcutta, the 28th October 1925. (1935—1)

Notice.

UNDER the orders of the Government of Bengal a competitive examination for the appointment of a native of India to the Bengal Pilot Service, will be held at the Port Office, 15-1, Strand Road, Calcutta, in or about the month of March 1926 The expression "native of India" means any person born and domiciled within the dominions of His Majesty in India, or within the territories of Indian Princes tributary to or in alliance with His Majesty or of parents habitually resident in India, and not established there for temporary purposes only.

2. Each candidate must produce satisfactory evidence to show that—

(*i*) He is not less than 18 or more than 22 years of age on the date of examination.

(*ii*) He has passed the Matriculation Examination of an Indian University or the Cambridge Junior Certificate Examination, or some other public examination regarded as equivalent or, in the alternative, attended a recognised school and was at the date of leaving school a member of the class preparing for such examination.

(*iii*) He has served at sea for four years in a merchant vessel employed in foreign trade as a seaman or apprentice, and his conduct on board has been satisfactory.

(*iv*) He is of good health and physically fit to work as a Pilot and is of good moral character.

3. Candidates will be examined in Navigation and Seamanship up to the standard of a 2nd Mate in the Mercantile Marine and successful candidates will, before being appointed, have to undergo a further medical examination as to their physical fitness by the Medical Board sitting at Calcutta.

4. The cadre of the Bengal Pilot Service, exclusive of leadsmen, is being reduced to 50. The person to be appointed in 1926 will have no claim, even though otherwise qualified, to be promoted from the post of leadsman to that of Mate Pilot, if such promotion has the effect of increasing the strength of the service beyond the figure of 50.

5. The question of the revision of the remuneration of the members of the service is now under consideration. The person to be appointed in 1926 will be subject to such terms and conditions as to remuneration as may be laid down in the final orders by Government on the re-organisation of the service and in particular will not be eligible for the grant of overseas pay in case it is decided to include such pay in the emoluments of the service.

6. Applications will be received by the Port Officer, Calcutta, at his office at 15-1, Strand Road up to the 30th November 1925 Further particulars may be obtained on application to him.

R. DOUGLAS,
Deputy Secretary to the Government of Bengal,
Marine Department.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Legislative Assembly on the 27th August 1925 :—

No. 39 OF 1925.

A Bill further to amend the Code of Criminal Procedure, 1898.

WHEREAS it is expedient further to amend the Code of Criminal Procedure, 1898, for the purposes hereinafter appearing ; It is hereby enacted as follows :— V of 1898.

Short title. **1.** This Act may be called the Code of Criminal Procedure (Amendment) Act, 1925.

Amendment of section 123, Act V of 1898. **2.** In sub-section (*6*) of section 123 of the Code of Criminal Procedure, 1898 (hereinafter referred to as the said Code), V of 1898.—

(*a*) the words and figures "or section 109" shall be omitted ; and

(*b*) before the word and figures "section 110" the words and figures "section 109 or" shall be inserted.

Amendment of section 170, Act V of 1898 **3.** Sub-section (*4*) of section 170 of the said Code is hereby repealed.

Amendment of section 200, Act V of 1898. **4.** In proviso (*b*) to section 200 of the said Code, after the words "thinks fit, and" the words "where the complaint is made in writing" shall be inserted.

Amendment of section 202, Act V of 1898. **5.** For the proviso to sub-section (*1*) of section 202 of the said Code the following proviso shall be substituted, namely :—

"Provided that, save where the complaint has been made by a Court, no such direction shall be made unless the complainant has been examined on oath under the provisions of section 200."

Amendment of section 203, Act V of 1898

6. In section 203 of the said Code, for the words "any investigation" the words "the investigation" shall be substituted; and after the word "inquiry" the words and and brackets "(if any)" shall be inserted.

Amendment of section 476, Act V of 1898.

7. In sub-section (*1*) of section 476 of the said Code,—

(*a*) to the first paragraph the following proviso shall be added, namely :—

"Provided that, where the Court making the complaint is a High Court, the complaint may be signed by such officer of the Court as the Court may appoint"; and

(*b*) in the second paragraph the word "Chief" shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

Since the Code of Criminal Procedure, 1898, was amended by Acts XII and XVIII of 1923, certain difficulties have been brought to light by Local Governments and judicial authorities. These have been examined by the Government of India, and the Bill has been prepared with the object of making such amendments in the law as appear to them to be desirable. The reasons for the amendments are explained in the notes on clauses below :—

Notes on Clauses.

Clause 2.—Prior to the amendment of section 123 of the Code by section 21, (*2*) of Act XVIII of 1923, Courts had discretion to award either simple or rigorous imprisonment in the case of proceedings under section 109. The effect of the amendment was to take away the discretion, and this clause restores it. Several Local Governments have represented that the change has worked injuriously, as most of the persons against whom proceedings are taken under section 109 are men for whom simple imprisonment is quite unsuitable.

Clause 3 deletes sub-section (*4*) of section 170 which provides that the day fixed under this section shall be the day whereon the accused person is to appear, if security for his appearance has been taken, or the day on which he may be expected to arrive at the Court of the Magistrate, if he is to be forwarded in custody. This provision requires, for example, that all witnesses shall be bound down to appear before the Magistrate on the date when the accused is expected to arrive at the Court if he is forwarded in custody. It has been found to be inconvenient, and it is understood is frequently not followed in practice.

Clause 4.—At present a Presidency Magistrate need not record the substance of an examination even if the complaint is not in writing. It is desirable that where there is no complaint in writing the Magistrate should record the examination in writing.

Clause 5.—Under section 202 of the Code of Criminal Procedure a Magistrate receiving a complaint may not direct an inquiry or investigation by any Magistrate subordinate to him or by a police officer if the complaint has been made by a Court. This has caused difficulties in the case of a Court complaining under section 476 of the Code. Under that section the Court has only to record a finding that it is expedient that an inquiry should be made into an offence which appears to have been committed, and it seems clear that cases will arise in which an inquiry or investigation should be made before a person is put on his trial. The difficulty was brought to light by the Bombay High Court and the Local Governments and other High Courts have all agreed that some provision is required. This clause gives effect to the proposal.

Clause 6.—The Calcutta High Court in a recent decision (in the case of Srish Chandra Bose *versus* Madan Lall Surena and others) has held that under section 203 an investigation or an inquiry under section 202 is necessary in all cases, because the words "if any" have been omitted from section 203 after the words "investigation or inquiry". No such change was intended by the amendment made by Act XVIII of 1923, and the proposed addition is to make this matter clear.

Clause 7.—The Lahore High Court has represented that it is a needless waste of time of the Judges of a High Court that they should be required to sign all complaints under section 476. The proposed change in sub-clause (*a*) enables any officer of such a Court whom the Court may appoint to sign the complaint. Sub clause (*b*) proposes to make all Presidency Magistrates, Magistrates of the first class for the purpose of section 476 (*1*). At present if a Chief Presidency Magistrate wishes to take action it is necessary for him to send the case to a first class Magistrate outside the Presidency town because the other Presidency Magistrates are not first class Magistrates for the purposes of this section.

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of State on the 1st September 1925 :—

No. 9 OF 1925.

A Bill to amend the Interest Act.

WHEREAS it is expedient to limit the interest charged on loans of various kinds in British India ; It is hereby enacted as follows :—

Short title, commencement and extent.

1. (*1*) This Act may be called the Amendment of the Law relating to Interest Act, 192

(2) It shall come into force on

(3) It shall extend to the whole of British India.

Repeals.

2. Provisions of other laws and regulations, so far as they are inconsistent with the provisions of this Act, are hereby repealed.

Interest not to exceed amount of principal debt.

3. No creditor, whether of a secured or unsecured loan, shall be entitled to recover by suit interest exceeding the principal amount originally lent or due at the date of suit whichever is less.

Act not to apply to usufructuary mortgages.

4. This Act will not apply to usufructuary mortgages.

STATEMENT OF OBJECTS AND REASONS.

The Bill is designed to prevent the accumulation of interest for long periods, and thereby save many a debtor from utter ruination by his calculating and clever creditors.

There is similar rule in Hindu Law and it is called the Rule of Damdoopat. It is in operation in the Bombay Presidency and Berar. It is made applicable in cases in which the debtors are Hindus, while in the town of Calcutta, it is applied in cases where both the plaintiffs and defendants are Hindus.

The operation of this rule on the lines obtaining in the Bombay Presidency and Berar entails a great hardship upon those who are non-Hindus because if they are creditors they cannot recover interest more than the principal amount due on the date of the suit, and if debtors they are denied the benefit of this rule altogether and they are made to pay interest irrespective of its being more than the principal amount due on the date of the suit.

This rule is a very wholesome one if it were made applicable to all alike. It is so done in many of the Native States even to this day.

Owing to its non-existence in other parts of British India, the Hindus and non-Hindus are alike falling victims to the Wait and Have It game of their scheming creditors who allow the interest to accumulate to such an extent that it become impossible for the debtors to pay up the amount, and they are ultimately deprived of their hearths and homes.

The effect of this amendment would no doubt be that the creditors will sue their debtors as soon as the amount of interest is equal to the principal amount, and even this procedure is beneficial to the debtors because at present sentiment prevents debtors to part with part of their property and pay off their debts and so they go on allowing the interest to be accumulated in the hope of clearing their debts in years of plenty and prosperity but they are unable to do so and the Sahookar allows them time till the interest with principal swells up to the value of the property in suit or with them and at once rushes into Court and takes everything from them in lieu of his money. But if the Sahookar were to bring his suit sooner, the debtor would be getting a chance of laying aside his sentimentalism, sell part of his property, pay off his debt and save the remainder of his property for himself and his family.

The Interest Act of 1839 (Act XXXII) and Usury Repeals Act of 1855 (XXVIII) which are absolutely inconsistent with both the Hindu and Muhammadan Laws on the subject were passed at a time when there was no Indian representative in the Council and have brought ruin on large number of people.

The Usurious Loans Act of 1918, although gives power to Courts to curtail the rate o interest when they consider it excessive, yet provides no remedy to stop accumulatior beyond a certain limit. Careless borrowers who allow unlimited accumulation and inflic ruin on their descendants stand in great need of protection.

Audit Certificate and Report on the accounts of the Calcutta Port Trust for the year 1923-24.

The accounts of the receipts and expenditure of the Calcutta Port Trust for the year 1923-24 have been test-audited and examined under our supervision.

2. The printed balance sheets and the statements of income and expenditure prepared from the accounts have also been checked and found to agree with the books and these have been signed subject to the following remarks :—

Revenue Account.

3. In account No. III.—Revenue Account for 1923-24 credit has been taken for a sum of Rs. 14,13,213, being the excess in the Sinking Fund for the redemption of the Commissioners' Debenture Loans as on the 31st March 1924. The examination of the Sinking Fund made under section 24A of the Calcutta Port Act (III of 1890) disclosed a surplus of Rs 13,44,062 only on the above date, the difference of Rs. 69, 151 being due to the fact that a cheque for this amount paid into the Sinking Fund on the 31st March 1924 was not credited to the fund on that date and was accordingly left out of consideration as not being "cash" within the meaning of Section 24A of the Act. Accounts Nos. I and III and the subsidiary accounts need correction.

4. The Revenue Account opened with a balance of Rs. 3·41 lakhs and closed with Rs. 2·25 lakhs. The income obtained from the tolls, dues, rates, rents and charges levied for the services rendered by the Commissioners amounted to Rs. 251 lakhs while the working expenditure of the year to earn this revenue amounted to Rs. 170 lakhs. The interest earned by the Reserve Fund Investments and cash balances was just sufficient to provide for the necessary contribution to the Vessels Replacement Fund After allowing for a credit of nearly Rs. 6½ lakhs on account of interest earned by the investments of the Sinking Fund in excess of the 4 per cent. basis of improvement on which the contributions to the Fund are paid, a sum of nearly Rs. 90 lakhs had to be paid out of the Revenue Account by way of interest and sinking fund charges on loans. This is a compulsory charge and added to the expenditure of the year exceeded the revenue of the year by about Rs. 9 lakhs. The revenue of the year had however an item of over Rs. 7½ lakhs added to it owing to the rise in the market value of the securities in the Sinking Fund, and thus it was possible to tide over the financial strain of the year with a draft of a lakh of rupees on the balances. This Rs. 7½ lakhs in the improvement of the market value of the securities was, however, in the nature of a windfall and cannot be expected to recur every year. Further the figures of revenue and expenditure mentioned above include two special credits, one of Rs. 1½ lakhs representing special arrear receipts and another of Rs. 2¼ lakhs which is not properly creditable to the Revenue Account. These abnormal items obscure the true position of the Revenue Account and on the year's working there was a deficit. Moreover, there is a charge of Rs. 26½ lakhs under Capital on account of stamp duty and incidental charges on loans which has to be written back to Revenue. There is no margin in the current revenue from which the flotation charges of loans can be met if the expenditure continue on the present scale. There are the Revenue Reserve and other Funds, but these funds are intended for specific purposes and are not intended to be touched for meeting the ordinary revenue deficit over the current expenditure. In view of the heavy additional expenditure which will have to be met from revenue as soon as the first portion of the King George's Dock is open to traffic and to provide for the interest on the Capital cost thereof which cannot thereafter be met out of Capital Funds, it is proposed to augment the Revenue Reserve Fund by an increase of the rates and charges. The fact that the Revenue Account will have to provide for stamp duty, etc., on the loans that have been and will have to be raised to finance the Capital programme does not appear to have been taken into account in determining the extent of the increase.

5. The expenditure under "Miscellaneous Charges" has during the year been reduced by a sum of Rs. 2,76,718-6 on account of adjustment of the amount held at the credit of the Miscellaneous Suspense Account. This amount represents the difference between the rupee equivalent of £ 55,343-13-6*d.* at debit of the London Bankers on the 31st March 1921 at 2*s.* to the rupee. viz, the Commissioners' standard rate of conversion in force up to 31st March 1921 and the revised standard rate of 1*s.* 4*d.* to the rupee adopted by the Commissioners from 1st April 1921.

The transactions appearing in the London accounts were brought to book in India at 1*s.* 4*d.* to the rupee up to January 1920. The basis of conversion was changed to 2*s.* to the rupee from 1st February 1920, and was again altered to 1*s.* 4*d.* to the rupee from 1st April 1921. When the first change was made in February 1920 the difference between the rupee equivalent of the balances with the London Bankers and the London Agents at the old and the new rates was taken to Revenue. No such adjustment was then made in respect of the sum of £ 58,000 invested in National War Bonds the value of which continued to be shewn as Rs. 8,70,000 in the Commissioners' annual accounts for 1919-20. When these Bonds were sold in September 1920 the difference amounting to Rs. 2,75,676-4 between the rupee equivalent at 1*s.* 4*d.* and at 2*s.* to the rupee on the actual amount realised by sale was taken to Capital. At the time, the amount was not regarded as a part of the general cash balance for purposes of adjustment of exchange and the difference in exchange was not adjusted against the Revenue Account as in the case of the cash

balance on 1st February 1920. The amount under the suspense head therefore really belongs to Capital. It has not therefore been correct to leave the debit already taken to Capital unaltered and to transfer to Revenue the entire amount of the unadjusted credit under the suspense head which credit arises out of the reconversion of the London Bankers' balance of £ 55,343-13-6 at the end of 1920-21 at the old rate of 1*s.* 4*d.* to the rupee. It may be poiated out that during the period in question all payments in respect of Capital expenditure in England have been charged to the Capital account at the market rate of exchange. The effect of the adjustment now made in the accounts has been to overstate the debit to the Capital account.

Capital Account.

6. The expenditure by the Commissioners on Capital Account is being incurred both in India and in England. The accounts are maintained in rupees. If the accounts are to shew the rupee expenditure on the works correctly the Capital Account should receive debit for the sterling expenditure at a rate which corresponds as nearly as possible to the market rate of exchange and not at the fixed rate at which sterling is converted for the convenience of maintaining the accounts Such an adjustment might be dispensed with when exchange fluctuates within very narrow limits round the assumed rate but when, as at present, the variations are wide the effect of bringing the Capital expenditure incurred in England, whether direct or on account of stores transferred from stock, to book at the assumed rate is to increase the actual cost of the Block.

7. There is no correspondence between the figures shown in the annual accounts and those appearing in the King George's Dock Ledgers as will be seen from the statement given below :—

Annual Account.

	Rs.	A.	P.
Entrance, Dry Dock, etc.	2,70,37,773	12	10
Suspense Account K. G. Dock	10,248	15	6
Total ...	2,70,48,022	12	4

K. G. Dock Ledgers.

Estimates A to E	2,69,91,631	14	10
Capital Account pending recovery	9,236	12	6
Reclamation of land outside K. G. Dock ...	51,744	12	11
Total ...	2,70,52,613	8	3

The difference of Rs. 4,590-11-11 should be reconciled and adjusted.

8. Out of the above expenditure, Rs. 176·54 lakhs have been charged to final heads against the sanctioned estimates A to E and Rs. 93·97 lakhs still remain under the suspense heads, the suspense balance having gone up very largely during the year 1923-24 from nearly Rs. 27 lakhs at the beginning to the figure mentioned above at its close.

9. (*i*) The amount held under suspense includes the following expenditure which does not appertain to any of the estimates A to E :—

	Rs.	A.	P.
Quarters	4,60,992	10	4
New Road, Ramnagore to Jingirapole	2,32,202	3	3
Hide Road Extension	44,865	3	0
New Warehouse	54,741	12	9

It should be explained how these works came to be undertaken without proper sanction and necessary provision in the estimates.

(*ii*) The amount also includes the following expenditure against estimate A for which no provision appears to have been made in the estimate. The expenditure cannot possibly be met from the provision of Rs. 18·59 lakhs for contingencies included in the estimates, as to the end of 1923-24 a sum of Rs 12·22 lakhs has already been spent on that account :—

	Lakhs. Rs.
Conservancy	1·74
Water-supply	2·77
Temporary Buildings	6·17
Electric Installation	3·67

(*iii*) There is also a debit of about Rs. 8½ lakhs under the Stores Suspense Account which could have been reduced had adjustments been promptly made. The Depot Storekeeper is very much in arrears with his returns; those from October 1923 onwards were not received and adjusted in the accounts for 1923-24. It is necessary that steps should be taken to improve the position. In passing, it may be pointed out that a complete verification of the stores in stock has not been made for some time. This should be done with a view to the necessary agreement being made with the ledger balances

(*iv*) Excluding the expenditure specially mentioned above, there is still a balance of over Rs. 60 lakhs, which has been kept under suspense. It is not clear why the amounts could not be taken to final heads yet. It is necessary that steps should be taken to effect a speedier adjustment.

10. The sanctioned estimate for reclamation of land surrounding K. G. Dock amounts to Rs. 15,74,620 made up as follows :—

Rs.	4,85,400	creditable to estimate A.
„	10,89,220	ditto E.

Of the total expenditure of Rs. 2,51,744-12-11 on this account incurred to the end of March 1924, a sum of Rs. 2 lakhs only has been credited to estimate A against the provision of the same amount in the Budget for the year and the balance has been left under suspense. The adjustment made is not based on any returns showing the sites from which the earth was sent.

11. In connection with the construction of the four riverside berths at Garden Reach it was noticed that payments are being made to Messrs Braithwaite & Co. on the basis of an exchange rate of 2*s*. 8*d*.=1 Re It appears that the original contract with the Company for the supply of the iron and steel works and the erection of these structures in site was in rupees to be paid for in India and was settled just before the outbreak of the War. After some progress had been made the work was interrupted during the War and was resumed in accordance with amended designs after revised arrangements had been made between the Commissioners and the Contractors in March 1920. The concessions that were made at the time were as follows :—

(*i*) The enhancement all round of the schedule rates in the original contract by 20 per cent. owing to rise in prices.

(*ii*) The payment at the option of the contractors of 100 per cent. of the above in sterling, the rupee liabilities arrived at on the basis of the contract rates being converted at the rate of 2*s*. 8*d*. for the purpose.

(*iii*) The re-imbursement of certain extra charges incurred by the contractors as a result of War conditions.

At the time the revised terms were settled the exchange value of the rupee was in the neighbourhood of 2*s*. 8*d*. but very soon thereafter it began to fall. The rate came down from 2*s*. 4*d*. on the 1st April 1920 to 1*s*. 3 1/16*d*. on the 31st March 1921 and has up to the end of 1923-24 remained at about 1*s*. 4*d*. The result has been that the rupee expenditure to cover the payments made in sterling has practically been doubled. So far no steps appear to have been taken to enforce the stipulation contained in the letter from the Secretary to the Port Commissioners No. 2675, dated the 15th March 1920, to Messrs. Braithwaite & Co. in which it is stated that the arrangement referred to in the above paragraph was subject to the condition that "the total expenditure in rupees shall not exceed what the Commissioners would have expended had all payments been made either in England or India". It is understood that final payments are now being made to Messrs. Braithwaite & Co., and the matter will doubtless be looked into in that connection.

Audit Report on the Howrah Bridge Accounts for 1923-24.

The accounts of the receipts and expenditure of the Howrah Bridge for the year 1923-24 have been test-audited and examined under our supervision. The Balance Sheet has also been checked.

The entire debit of Rs. 22,635-10-8 under item No. 38 "Interest on Overdraft" has not been correctly taken to the Revenue Account. This amount represents the interest at 5½ per cent. per annum on the money which the Commissioners for the Port of Calcutta had to advance from time to time to finance the expenditure of the Howrah Bridge under Act IX of 1871. The total sum shown in the balance sheet as due to the Calcutta Port Commissioners on the 31st March 1924 is Rs. 2,93,341-2-9. Of this amount a sum of Rs. 52,640-0-10 is on account of the preliminary expenses incurred, through the Calcutta Port Commissioners, for the new Howrah Bridge, which could not be met out of the Government contribution of Rs. 91,251 made for the purpose. This advance is not a debt repayable from the existing Bridge Fund constituted under the Howrah Bridge Act, 1871. The portion of the interest recovered by the Calcutta Port Commissioners from the existing Howrah Bridge which is really on account of the new Howrah Bridge should have been debited to the Suspense Account, pending final adjustment, after necessary financial provision has been made for the new Howrah Bridge.

The total expenditure during the year on revenue account has been kept within the sanctioned estimates. There have, however, been excesses under individual heads, the most noticeable increases occurring under the grant for maintenance and repairs of the vessels "Howrah" and "Buckland". It appears that a sum of Rs. 7,000 for each vessel was provided in the original estimates for the purpose. The amount was increased by Rs. 4,000 for each vessel on the Commissioners having sanctioned at their meeting No. 1891, dated the 7th January 1924, an estimate of Rs. 8,466 for additional retiring accommodation. The expenditure on this work has been kept with the sanctioned estimate, but nevertheless the total expenditure has amounted to Rs. 23,594 and Rs. 16,924, respectively. The excess is due to large amounts having been spent, without proper authority and in disregard of the sanctioned grants, on the general overhaul of the two vessels. The bulk of this expenditure was incurred during November and December 1923 in the case of the "Buckland" and during January to March 1924 in the case of the "Howrah". It is not clear why no provision was made in the revised estimates therefor.

Secretary to the Government of Bengal.

No. 3260 E., dated Calcutta, the 25th July 1925.

From—G. P. Hogg, Esq., M.A., I.C.S., Commissioner of Excise and Salt, Bengal,

To—The Secretary to the Government of Bengal, Department of Agriculture and Industries.

I have the honour to submit the following report on the administration of the Excise Department in the Presidency of Bengal for the year 1924-25.

From the 2nd April to 16th November 1924, during my absence on leave, Mr. J. C. Platts, Deputy Commissioner of Excise and Salt, was in charge of the department. I was in charge for the rest of the year.

4. **Administrative changes and reforms.**—(1) Under Government Notification No. 247 T.A.I., dated the 21st May 1924, the annual license fee of Rs. 50 for vend of medicated wines in the Presidency was reduced to Rs. 25 except in the areas included within the Municipalities of Calcutta, Howrah, Dacca, Mymensingh, Bakarganj, Chittagong, Tippera, Darjeeling, Rangpur, Dinajpur and Bogra, where the fee remains unaltered. This change was made at the instance of the "All-India Sub-Assistant Surgeons' Association," Dacca Branch.

(4) Under Government Notifications Nos. 4797, 4798 and 4799, dated the 5th September 1924, the "Import Certificate" in the form prescribed by the League of Nations for the export of cocaine, intoxicating drugs, poppy heads and morphia drugs to a Native State, is in future to be signed by the Dewan or the Chief Executive Officer of the State, and countersigned by the Resident or the Political Officer accredited to it.

(5) Under Government Notification No. 380 T.A.I., dated the 18th September 1924, the age limit of children to whom sale or delivery, of excise opium, intoxicating drugs and poppy heads is prohibited, was raised from 14 years to 16 years.

(6) Under Government Notification No. 603 T.A.I., dated the 23rd October 1924, *bakhar*, the fermenting substance used in the manufacture of *pachwai*, was declared to be an excisable article for the purposes of the provisions of the Bengal Excise Act of 1909 in so far as its manufacture, possession and sale by licensed dealers are concerned, and under Government Notification No. 602 T.A.I., of the same date, a license, to be issued free of cost, has been prescribed for its manufacture and sale.

* * * *

(8) Under Government Notification No. 5678 T.A.I., dated the 14th November 1924, the Calcutta Licensing Board was reconstituted with an addition of 3 more members to the existing number owing to the amalgamation of the Municipalities of Cossipore-Chitpur, Maniktala and Garden Reach with the Calcutta Corporation, and under Government Notification No. 144 Ex., dated the 10th January 1925, an additional member representing the Calcutta Temperance Federation was appointed for the whole amalgamated area.

* * * *

(11) Under Government Notification No. 5936 Ex., dated the 27th November 1924, it was prescribed that the permit for the import of intoxicating drugs or poppy heads would not be granted unless—

(*i*) the application to import furnishes the following details :—

(*a*) exact description and amount of the drug to be imported, and,

(*b*) name and address of the firm in the exporting country from which the drug is to be obtained;

(*ii*) the applicant undertakes that the drug to be imported is intended exclusively for medicinal purposes.

* * * *

(13) Under Government Notification No. 791 Ex., dated the 26th February 1925, the rate of retail price of opium

was raised from Rs. 107 per seer to Rs. 120 per seer in certain border shops of the district of Midnapore.

5. **Temperance teaching in schools.**—The existing text-books on Hygiene recommended for use in the middle and upper primary stages of high and middle English schools and in the upper two classes of middle Vernacular schools in this Presidency contain lessons on temperance.

6. **Temperance movements.**—The temperance movement started in Bankura as reported last year gradually died out, and there was little activity in this direction in the district during the year. In Hooghly and Howrah there was a temperance movement amongst the Bagdis which was mainly directed against the drinking of *tari*. At Berhampore the temperance meetings organised last year were not repeated. At Faridpur isolated attempts to promote temperance were made, but they had no effect on the consumption of any excisable article. The temperance movement organised at Teknaff continued, with the result that opium was consumed only in moderation. There are a few *chandu* dens in the Cox's Bazar subdivision, and there was one *chandu* case in the course of the year. The leading Mughs of Teknaff, however, have introduced a social boycott against those who keep such dens and smoke *chandu*. In Dinajpur the Christian Missionaries and some social service workers devoted their attention to securing moderation in the indulgence in drink among the aboriginal tribes. The increase in the rate of license fee for home-brewing of *pachwai* had created a tendency towards temperance amongst the aboriginals, who appear to be more abstemious than before. In Malda there was no agitation against the Excise policy of Government, but the effect produced in the past still lingers in some quarters. For example, 3 liquor vendors and 1 drug vendor were boycotted for part of the year, and it required patience and tact to induce the Sonthals who were brewing at home to take out the necessary license.

7. **Excise Licensing Boards.**—As reported last year, owing to the amalgamation of the Municipalities of Cossipore-Chitpur, Maniktalla and Garden Reach with the Calcutta Corporation, the Licensing Boards of the suburban areas were merged into the Calcutta Licensing Board with a new additional representative for each of the three added areas. Another member representing the Calcutta Temperance Federation was added to the Board. The Licensing Board as reconstituted held 8 meetings during the year.

The Licensing Board for the Municipalities of Howrah and Bally each held 2 meetings respectively during the year.

The Calcutta Board sanctioned the transfer of sites of 7 country spirit, 2 *tari*, 3 opium, 2 *ganja*, 1 *bhang*, 2 foreign liquor "off" public and 3 foreign liquor "off" combined, and abolished 3 country spirit, 1 foreign liquor "on", 1 restaurant, 1 foreign liquor public, and 2 foreign liquor combined "off" licenses with effect from the 1st April 1925. The Board also sanctioned some new licenses from the 1st April 1925, *viz.*, 1 restaurant, 1 hotel, 1 foreign liquor public "off" and 1 opium, and granted 2 public "off" licenses to 2 firms already holding foreign liquor trade licenses. It also sanctioned the privilege of "on" vend to a country spirit shop that was previously an "off" shop. The Board rejected applications for new licenses for 5 restaurants, 3 foreign liquor public "off", 1 foreign liquor combined "off", and for the conversion of a country spirit "off" shop into an "on" and "off" shop.

At a special meeting of the Licensing Board, held on the 1st December 1924, the general principles on which the Board would conduct its business in future were laid down. The new procedure has worked satisfactorily on the whole, although a few defects have transpired in practice. It is not unlikely that these will be removed when the next licensing session opens.

8. **Excise Advisory Committee.**—In areas outside the Calcutta district, local Excise Advisory Committees were convened to advise the Collectors as regards the number and location of the excise and opium shops. All their recommendations were carefully considered, and most of them were accepted. Thirteen country spirit, 1 foreign liquor, 11 *pachwai*, 1 *ganja*, and 3 *tari* shops were abolished; the sites of 20 country spirit, 4 foreign liquor, 10 *pachwai*, 6 *tari*, 4 *ganja*, 4 opium, 4 *bhang*, 1 *charas*, and 1

combined *ganja* and opium shops were changed and 8 country spirit, 3 *pachwai*, 1 *tari*, 13 *ganja*, 12 opium, 6 *bhang*, 3 *charas* and 1 combined *ganja* and opium shops were opened in accordance with their recommendations.

9. **Total revenue and charges**

Difference of the past two years	+5,87,358	-13,115	+6,00,473	-0 22

* * * *

11. **Actual receipts.**—Deducting the advance collections (Rs. 93,978) for 1925-26 and adding the revenue (Rs. 73,169), which was collected in advance in 1923-24, the actual receipts on account of 1924-25 were Rs. 2,15,32,634 against Rs. 2,09,47,964 (after similar adjustment) of the preceding year, showing an increase of Rs. 5,84,670 or 2·7 per cent.

12. **Excise charges** * * * * —The total expenditure of the Excise and Salt Department, excluding refunds, shows a decrease of Rs. 73,548 as compared with 1923-24. The decrease occurred under all the heads except "Contingencies and Special Charges". The decrease under head "Salaries and Establishment" was due to the transfer of launches attached to the department in connection with pooling arrangements and to a gradual reduction in the number of Superintendents. The differences under other heads are small and therefore call for no explanation. The increase under the head "Contingencies and Special Charges" was mainly due to the fact that several boats and cutters attached to the department were thoroughly repaired during the year.

13. **Revenue under different heads** * * * * The largest increase of revenue (Rs. 4,56,582) occurred under "Total receipts from hemp drugs". "*Tari*" comes next with an increase of Rs. 2,28,824 followed by "Opium" (Rs. 1,15,607). Then follow *Pachwai* (Rs. 64,408) and "Receipts from Commercial Spirits" (Rs. 56,979). The largest decrease (Rs. 2,08,854) occurred under the head "Country Spirit" followed by "Duty on wines and spirits manufactured in India and excise at the tariff rate" (Rs. 1,52,427).

14 **Demand and collection** * * * * —Of the gross demand of Rs. 2,15,65,463 a sum of Rs. 2,15,53,443 or 99·9 per cent. was realised. Rupees 1,101 was remitted as irrecoverable. Taking the population of the Presidency of Bengal, according to the census of 1921, to be 46,522,293, the incidence of excise revenue (exclusive of revenue derived from issues of excisable articles to other provinces, Native States and foreign countries) was 7 annas 4 pies against 7 annas 1 pie in the previous year.

SECTION II.—Country Liquor.

* * * *

COUNTRY SPIRIT.

17. **System of supply.**—There was no change in the system of supply.

18. **Country spirit licenses.**—The number of licenses for the sale of country spirit was 962 as compared with 970 in 1923-24, showing a decrease of 8. Three shops in Calcutta were abolished on the recommendation of the Licensing Board. Four shops in Midnapore, 3 shops in Tippera and 1 shop in Pabna were abolished on the recommendation of the Advisory Committees. One shop in Burdwan could not be settled for want of a suitable site, while 1 shop in Dacca was abolished, as the demand for liquor was too small to justify its retention. On the recommendation of the Advisory Committee, 1 new shop was opened in the 24-Parganas to meet an

insistent local demand for liquor. Four new shops were also opened in Jalpaiguri (tea garden area) with a view to check illicit distillation by the tea garden coolies—a practice that had increased to a disturbing extent, owing to inadequate facilities for obtaining supplies of licit liquor.

19. **The fixed-fee system.**—The system continued to work well. Country spirit yielded the largest percentage of the Provincial Excise Revenue. There was a fall in consumption in Calcutta amounting to 16,252 L.P. gallons during the year which was mainly due to trade depression, but also possibly in part to the reduction in facilities, noted in paragraph 7.

In all the other districts of the Presidency the system has worked well. Dilution is much less common, and the petty gains of irregular methods are not worth the risk of losing a license from which a fair income is assured. District Officers are taking an increasing interest in the selection of licensees, and the standard of shop management is steadily improving. The changed conditions, as compared with those prevailing under the auction system are most noticeable, and are reflected in the numberless applications for licenses from people of social standing who, a few years ago, would have avoided anything to do with either liquor or drugs.

20. **Consumption.**—The total consumption of country spirit in the Presidency amounted to 6,09,653 proof gallons as compared with 6,21,183 proof gallons in the preceding year, showing a decrease by 11,530 proof gallons.

Consumption decreased in 11 districts and increased in 16 districts. The decrease in consumption in Burdwan (4,900 proof gallons or 8·9 per cent.) was due to bad harvests and general depression in trade; in Bankura (1,703 proof gallons or 7·7 per cent.) to the indifferent business in the lac area where a number of shops are situated; in the 24-Parganas (3,652 proof gallons or 6·6 per cent.) to the general slump in trade; in Murshidabad (1,241 proof gallons or 11·1 per cent.) to the failure of the paddy crop and to the depression in the lac trade in the Jangipur subdivision; and in Chittagong (400 proof gallons or 8·9 per cent.) to dull trade and to the closure of some branches of the Railway workshop at Pahartali.

The increased consumption in Mymensingh (2,048 proof gallons or 12·8 per cent.) was due to the influx of a large number of up-country people in connection with jute and other business; in Jalpaiguri (7,159 proof gallons or 37·4 per cent.) to the forcible closing down of more than 100 *Shebeens* in the tea gardens in the Duars, where liquors were manufactured and sold at a very low price, and to the opening of 4 new shops therein; and in Rangpur (2,598 proof gallons or 18·9 per cent.) and Darjeeling (2,693 proof gallons or 12·8 per cent.) to the prosperous condition of the people.

The fluctuations in other districts are small and do not call for any special comment.

The consumption of country spirit seems to be very sensitive to trade conditions, which are at once reflected in departmental returns. It is therefore probably safe to conclude that the retail price has been pushed up practically to its maximum, and that any further increase would have an immediate effect in reduced consumption, accompanied by the development of illicit practices.

21. **Total revenue from country spirit.**—The total revenue—license and distillery fees and duty—from country spirit was Rs. 96,61,079 against Rs. 98,69,933, a decrease of Rs. 2,08,854. The revenue derived from duty and distillery fees decreased by Rs. 2,44,847 and that from license fees increased by Rs. 35,993 owing to the revision in the scale of advance fees during the year.

22. **Convictions for drunkenness and action taken against licensees for permitting it.**— * * * * * * In Calcutta 4,246 persons were convicted of drunkenness as compared with 4,586 persons in the previous year, but no statistics were taken to show what proportions of these cases were due to country spirit, *tari* and foreign liquor respectively. The Commissioner of Police, Calcutta, attributes the decrease to the increased price of liquor, high cost of living, and to a

great extent, to unemployment. No complaint was received during the year against any vendor of country spirit of permitting drunkenness in or near his licensed premises.

23. **Distilleries and warehouses.**—There was no change in the number of contract distillers. The cost price of country spirit fixed for Messrs. D. Waldie & Co., Carew & Co., Ltd., and Haji Ismail Sait & Sons from 1st November 1923 continued up to the 14th August 1924. From the 15th August 1924 the cost price of country spirit was fixed for Messrs. D. Waldie & Co. at Re. 1-11 per L. P. gallon, for Messrs. Carew & Co., Ltd., at Re. 1-8-6 per L. P. gallon, and for Messrs. Haji Ismail Sait & Sons at Re. 1-6-6 per L. P. gallon.

The compensation granted to Messrs. Haji Ismail Sait & Sons, in respect of losses incurred previously, is still being paid by means of a surcharge on the price, but the amount due will be cleared off in the course of the year 1925-26. The water-supply of the Russa distillery was obtained from 3 tube-wells and also from Tolly's Nulla. For dilution purposes only tube-well water was used. The difficulty hitherto experienced with regard to the disposal of spent wash has since been removed, the drainage of the distillery having been connected with the underground drainage system of the Calcutta Corporation.

On several occasions the supplies from the distilleries to the bonded warehouses fell short of the prescribed minimum, but the issue to retail shop-keepers did not suffer in consequence.

TARI.

24. **General.**—During the year under review licenses for the retail sale of fermented *tari* were settled by public auction, except in the Calcutta district, in the case of 54 shops in the 24-Parganas, and of 11 shops in the Howrah district, situated within a radius of 5 miles from Calcutta. The licenses of the shops in question were settled with selected vendors under a fixed-fee system which was introduced as an experimental measure with effect from the 1st May 1923. But as reported last year, the system proved a failure from the point of view of both Government and the public. It was therefore abolished from 1st October 1924, and in its place the old auction system was re-introduced in Calcutta and the 24-Parganas. The 11 shops in Howrah were settled under the tree-tax system which is in force in that district. It is now under contemplation to introduce as an experimental measure in the Calcutta district and in a portion of the district of 24-Parganas covering an area of 961 square miles with 154 shops, the tree-tax system which has already proved a success in the districts of Hooghly and Howrah. Definite proposals have already been submitted to Government for sanction.

25. **The tree-tax system in Hooghly and Howrah.**—The tree-tax system which was introduced in the Sadar and Serampore subdivisions of the Hooghly district and the whole of the Howrah district (with the exception of the areas included in the Calcutta district) in the year 1918-19 continued in the same areas during the year under report.

In Hooghly there was no difficulty in settling the shops.

The total number of tree-tapping licenses issued in Hooghly was as follows:—

	1923-24.	1924-25.
(1) Number issued on application of vendors..	1,358	1,396
(2) Number issued to tappers on their own application ..	Nil	3
(3) Number issued to tree-owners for domestic consumption ..	5,958	4,049

The *tari* revenue of the district fell by Rs. 2,337 due to the lesser number of licenses issued to tree-owners for domestic consumption during the year owing to late flowering of palmyra trees.

In Howrah also there was no difficulty in settling the shops under the tree-tax system.

The number of tree-tapping licenses issued was:—

	1923-24.	1924-25.
(1) Number issued on application of vendors	1,395	2,167
(2) Number issued to tappers on their own application ..	Nil	Nil.
(3) Number issued to tree-owners for domestic consumption ..	8,052	5,951

The *tari* revenue of the district shows an increase of Rs. 14,518, due to the settlement of shops at higher fees during

the year. The decrease in the number of licenses issued for domestic consumption is due to the late flowering of palmyra trees.

26. **Statistics.**—The total receipts under head "*Tari*" increased from Rs. 4,83,787 to Rs. 7,12,611.

The number of retail licenses decreased from 564 to 554. There was a decrease of 1 license in each of the districts of Hooghly, Calcutta and Nadia while Midnapore and Howrah showed a decrease of 3 and 4 licenses respectively. The bulk of the *tari* revenue was derived from the Burdwan and Presidency Divisions and the district of Malda, which altogether contributed Rs. 6,80,805 out of the total revenue under this head of Rs. 7,12,611. This amount includes Rs. 40,955 and Rs. 20,524 as license fees and Rs. 40,415 and Rs. 66,217 on account of tree-tax for the districts of Hooghly and Howrah, respectively. The increase was most marked in Howrah (Rs. 14,518), 24-Parganas (Rs. 78,051) and Calcutta (Rs. 1,26,551), the increase in the latter two districts being due to the re-introduction of the auction system of settlements from 1st October 1924.

PACHWAI.

27. **Licenses.**—The total number of licenses issued for retail sale, home-brewing (annual), and manufacture of *pachwai* on special occasions was 34,930 as compared with 23,049 in 1923-24 :—

	1923-24.	1924-25.
Retail sale	1,201	1,206
Home-brewing (annual) ..	21,373	32,844
Manufacture on special occasions	475	880

28. **Fixed-fee system.**—The Bengal fixed-fee system which was introduced in the latter part of the year 1919-20, continued to work satisfactorily in the Asansol subdivision of the district of Burdwan. Of the total *pachwai* revenue of Rs. 8,51,532 of this district, Rs. 7,10,356 was contributed by the Asansol subdivision alone, and the balance, *i.e.*, Rs. 1,41,176 by the Sadar, Kalna and Katwa subdivisions of the district. This system which was also extended to the larger shops in the remaining portion of the Burdwan district and to the more important shops in the districts of Birbhum, Bankura, Midnapore, Hooghly, Murshidabad and Darjeeling from the 1st April 1922, remained in force during the year in respect of all these districts, except Murshidabad, where it had to be abandoned on account of unsatisfactory working as reported last year. In Birbhum and Hooghly, the system was extended and all the shops were settled under the fixed-fee system.

29. **Revenue.**—The revenue from retail license fees increased from Rs. 13,48,564 to Rs. 13,90,993. *Pachwai* is the chief source of excise revenue in the districts of Burdwan and Birbhum. The increase was marked in Burdwan (Rs. 25,339), Bankura (Rs. 10,409) and Darjeeling (Rs. 7,647). In the districts of Burdwan and Bankura, the increase was due to the better working of the system, while in Darjeeling it was due to the settlement of the auction shops at higher license fees.

The revenue from home-brewing licenses increased from Rs. 37,054 to Rs. 59,033. The increase is shared chiefly by the districts of Mymensingh, Rajshahi, Dinajpur, Jalpaiguri, Bogra and Malda. In Mymensingh and Bogra it was due to the raising of the home-brewing license fee from Re. 1-8 to Rs. 2. In Rajshahi and Dinajpur it was due to good harvests. In Jalpaiguri it was due to the transfer of *pachwai* fee collection work from the Khas-Mahal Tahsildars to the departmental officers, and also to the prosecution of a large number of coolies in the tea garden area for possession of *pachwai* in excess of legal limits. In Malda the increase was due to the interest taken by the Collector in the matter, and to the tactful handling of the Santhal population, which led to an abnormal increase in the number of home-brewing licenses issued during the year.

SECTION III—Foreign Liquor.

* * * *

31. **Clearances of foreign liquor from the Custom Houses, Calcutta and Chittagong.**—The following statistics showing clearances on payment of duty, both direct and from bond from Customs

Houses, are quoted from statements furnished by the Collectors of Customs, Calcutta and Chittagong :—

Total	259,706	6,690	289,674	7,501

The Collector of Customs, Calcutta, explains the statistics for the Port of Calcutta in 1924-25 as follows :—

Ale, beer and porter.—There was not only an advance in imports under this head but also a large increase in clearances from bond, the quantity entering into consumption rising from 806,088 gallons in 1923-24 to 888,415 gallons in 1924-25. Despite a reduction of price, British beer declined somewhat but still constitute nearly half the imports. German beer again advanced, but Japanese beer, though the figures are slightly better than last year, only amounted to about 7 per cent. of the total imports. About 30 per cent. of the imports under this head arrived in casks.

Spirits.—Clearances, *ex*-ship and bond, of brandy amounted to 69,570 gallons against 60,158 gallons in 1923-24, while clearances of whisky improved from 168,280 to 179,747 gallons. Larger quantities of gin, vermouth and champagne also went into consumption; and as may be deduced from these figures, bonded stocks of most liquors were reduced during the year. Only in the case of Java *arrack* there was a distinct setback in the trade. The total clearances of methylated spirit were only 180,634 gallons against 319,632 gallons in the previous year, and of this quantity only 29,228 gallons were denatured in bond, so that the stocks of *arracks* remaining in bond at the end of the year were as much as 335,046 liquid gallons. The Collector of Customs attributes the setback to the conditions prevailing in the shellac industry throughout the year, and to the competition of Indian spirit. It is gratifying to note that the Bengal distilleries are making a determined effort to promote the use of denatured Bengal spirit in this industry.

The Customs Department have kindly furnished the following statistics of imports and issues, on payment of duty, of potable foreign spirits at the Calcutta Customs House :—

WINES AND SPIRITS (OTHER THAN MEDICATED WINES AND COMMERCIAL SPIRIT) AND BEER.

33. **Licenses and fees.**—The total number of licenses issued for wholesale and retail vend was 1,403 against 1,088 in the preceding year. The increase occurred under heads, " Wholesale " (2), " Retail off " (2), " Hotels, etc. " (6), " Steamers " (3), " Temporary bars " (8), and " Late closing " (294). The last quoted figure may be regarded as the reflection of a perspiring but determined effort to make a " Brighter Calcutta ".

The total receipts from license fees were Rs. 305,907 against Rs. 2,74,698 in revised figures in the previous year. The increase in license fees is due, apparently to increased consumption and improved working under the Bengal fixed-fee system introduced in the case of foreign liquors in 1922-23.

34. **Potable foreign liquors manufactured in India.**—The following table shows the quantities of Indian-made spirit used in the manufacture of foreign liquors, (*i.e.*, rum, whisky brandy and

gin) which were actually issued from bond in Bengal during 1924-25 :—

The amount of Indian-made spirit used in the manufacture of foreign liquors was 38,308 L. P. gallons. With the exception of 4,962 L. P. gallons, which came from Shahjehanpur in the United Provinces, the whole quantity was manufactured in Bengal.

35. **Locally manufactured beer.**—The 2 breweries licensed in the preceding year continued during the year under report. The Victoria Brewery at Sonada had an outturn of 15,785 gallons of beer during the year, of which 10,719 gallons were sold to the Military authorities and 5,066 gallons to the public. Owing to the difficulty of obtaining barley and hops the brewery at St. Mary's Seminary, Kurseong, remained closed throughout the year, though a license was taken by the Procurator.

Duty was charged on 15,785 gallons against 21,135 gallons in the preceding year.

Receipts from license fees and duty amounted to Rs. 8,617 against Rs. 11,372 in the previous year.

36. **Duty on locally made potable foreign liquors and beer.**—The receipts from duty on potable liquors and spirits manufactured in India, including beer were Rs. 8,45,449 against Rs. 9,97,876 in the previous year. The decrease in duty was mainly due to the decreased use of Indian spirit for blending purposes in the manufacture of locally made foreign liquor.

MEDICATED WINES AND RECTIFIED SPIRIT.

37. **Licenses and revenue.**—The number of licenses for the retail sale of medicated wines and rectified spirits were 145 and 41 respectively, as compared with 153 and 34 in the previous year. The revenue from license fees was Rs. 9,725 against Rs. 9,350 in the preceding year. As noted elsewhere, the fee in mofussal areas for a license to sell medicated wines was reduced from Rs. 50 to Rs. 25 per annum on a representation from the All-India Sub-Assistant Surgeons' Association (Dacca Branch) that the former rate was too high to justify the smaller chemists in keeping stocks for medical use.

38. **Manufacture and issue of rectified spirits.**—Rectified spirits were manufactured in the distilleries at Asansol, Konnagore, Russa and Bahir-Mirzapur Road, Calcutta.

The following quantities of rectified spirits were issued during the year for medicinal, industrial and scientific purposes, from distilleries and excise warehouses in Bengal :—

Place of manufacture.	Duty-free issues to Government Departments, Colleges, etc.	For manufacture of tinctures and other medicinal preparations.	
		In bonded Laboratories	By permit holders.

Duty-free issues (column 2) of rectified spirit manufactured in Asansol were made to the Superintendents, Ammunition Factories, Dum Dum and Ichapur; to the Kirkee Ammunition Factory, Bombay; to the Officer-in-charge, Mathematical Instruments Office; to the Assistant Director, School of Tropical Medicine; to the Director, Zoological Survey of India; and the Officer-in-charge, Government Medical Stores. Similar issues of spirit were also made from the Konnagore distillery to hospitals; and from the Russa distillery to the Controller of Printing, Stationery and Stamps; and the Fibre Expert, Dacca; and to the Deputy Commissioner, Naga Hills, Kohima; also from Bahir-Mirzapur distillery to the Calcutta Corporation Laboratory, to the University College of Science, to the Dacca University, to the Principal, Bethune College, and to the Chemical Examiner.

39. **Manufacture of tinctures, etc.**—Five bonded laboratories in Calcutta and one in Konnagore manufactured tinctures, etc., during the year under report.

Duty was paid on 49,310 L. P. gallons of spirit contained in tinctures and medicinal preparations issued from these six laboratories while medicinal preparations containing 15,796 proof gallons of spirit were issued duty-free to the charitable dispensaries and hospitals in the various provinces. The duty realized on tinctures issued from bonded laboratories was Rs. 2,46,550 against Rs. 2,12,900 last year.

Permit-holders (column 4) took issues of 18,885 L. P. gallons and paid duty amounting, at the concession rate, to Rs. 94,425. The total duty realized from the bonded laboratories and permit-holders together amounted to Rs. 3,40,975. The rapid expansion of this industry in recent years is a striking illustration of the effect of a concession rate of duty, as compared with the tariff rate.

The tinctures and medicinal preparations manufactured in the bonded laboratories and by permit-holders, now conform to the British Pharmacopeia standard, so far as the spirit content is concerned.

GANJA.

45. **Retail licenses.**—The total number of licenses issued in the Presidency for the retail sale of *ganja* was 1,201 as against 1,193 in 1923-24. Four shops were opened in the 24-Parganas district, 2 in Tippera, and 1 in each of the districts of Nadia, Jessore and Khulna with the approval of the Advisory Committees concerned, to meet a legitimate local demand. A shop was abolished in Pabna as being unnecessary. The license fees realized amounted to Rs. 27,14,550 as against Rs. 24,09,931 in the previous year.

46. **Consumption of ganja.**—The total quantity of *ganja* consumed in the Presidency amounted to 1,726 maunds 39 seers as compared with 1,665 maunds 19 seers in 1923-24, an increase of 61 maunds 20 seers. Consumption increased in 22 districts and decreased in 5. The increase was shared by all the divisions except Chittagong. The increase exceeded 10 per cent. in Midnapore (5 maunds or 10·87 per cent.) and Rajshahi (5 maunds or 10·62 per cent.); it exceeded 3 maunds in Howrah (3 maunds 33 seers), 24-Parganas (6 maunds 29 seers), Dacca (4 maunds 5 seers), Mymensingh (9 maunds 1 seer), Faridpur (4 maunds 5 seers), Dinajpur (3 maunds 34 seers) and Pabna (4 maunds 24 seers). The increase in Midnapore is reported to have been due to better control and to the sifting of *ganja* and elimination of refuse, stalk, stem and seeds before issue from the warehouse, which was not done before. Better economic conditions account for the increased consumption in Mymensingh, Rajshahi and Dinajpur. The influx of customers owing to the existence of railway lines within the mill areas, and improvement in the brick business at places lying within Uluberia and Sadar subdivisions, are said to be the main causes for the increase in consumption in Howrah. The opening of 4 new shops accounted for the increased consumption in the 24-Parganas. It has also been reported therefrom that people have resorted to *ganja* in preference to liquor, the former being relatively cheaper. The increase in Dacca is attributed to the influx to the local jute markets of a large number of up-country coolies whose favourite smoke is *ganja*. It has been reported from Faridpur that the increase in consumption was due to a certain extent to the improved quality of *ganja* issued during the year, and partly to better economic conditions. The more flourishing state of the jute trade and the advent of some fishermen to exploit the river Padma are attributed as reasons for the increase in Pabna. The only district in which the decrease exceeded 2 maunds is Murshidabad. The general failure of crops and the slump in the lac trade in the Jangipur subdivision were the causes for the fall. The general fall in consumption in the Chittagong Division may be taken to be due to rise in the price of staple foodstuffs, and to the slackness of business during the year.

47. **Total revenue.**—The receipts for the year amounted to Rs. 42,78,822 as against Rs. 39,27,475 in the previous year, the net increase being Rs. 3,51,347. The revenue from license fees increased by Rs. 3,04,619 and that from duty by Rs. 46,728. The increase exceeded Rs. 50,000 in 24-Parganas (Rs. 60,648) and Rs. 30,000 in Mymensingh (Rs. 38,659) and Dacca (Rs. 30,804). The only districts in which revenue decreased were Murshidabad (Rs. 4,049) and Darjeeling (Rs. 2,925).

48. **Incidence of taxation.**—The incidence of license fee per seer of *ganja* consumed was Rs. 39·3 and that of duty Rs. 21. The total taxation was Rs. 60·3 per seer as compared with Rs. 57·2 in the previous year.

* * * *

51. **Cultivation and outturn of ganja at Naugaon in Rajshahi.**—The continued high prices induced a large number of applications for permission to cultivate *ganja*. Five thousand two hundred and forty-three applications were received for an area of 7,083 bighas against 4,417 applications for an area of 7,216 bighas in 1923-24. The area sanctioned during the year 1924-25 was 2,000 bighas only. The area was reduced, as with normal putturn the area sanctioned is sufficient to meet the requirements for 1 year. Besides, there was a large stock of *ganja* of the previous year in the *golas* at Naugaon. Three thousand three hundred and twenty-nine applications covering an area of 2,000 bighas were granted, as compared with 3,681 licenses covering an area of 2,899 bighas 16 cottahs in the previous year. Nineteen licenses were cancelled on the ground of false entries in the applications. The cultivators concerned are reported to have been debarred from getting licenses for a further period of 5 years. The area actually under *ganja* cultivation was 2,002 bighas 13 cottahs 11 chitaks against 2,920 bighas 11 cottahs 5 chitaks in the preceding year. The area under cultivation, as usual, was carefully tested and, as a result, cases of excess cultivation were detected and the culprits were dealt with under section 65 of the Bengal Excise Act.

The prospects of the crop were satisfactory throughout the season, but just before the cutting, a few showers of rain did much harm. They not only delayed the cutting of the *ganja*, but washed away some of the resinous substance to which the narcotic effect of the drug is due. Red spider appeared in a considerable number of fields, but the damage done was not appreciable, and the outturn per bigha was the highest on record in the last 20 years, being 3 maunds 13 seers 10 chitaks per bigha. The total quantity of the season's *ganja* stored in the public *golas* amounted to 6,689 maunds 26 seers 10 chitaks against 8,641 maunds 12 seers and 6 chitaks in the preceding season.

* * * *

BHANG.

56. **Licenses and revenue.**—There were 311 retail licenses for the sale of *bhang* in the year under report against 306 (revised) in the previous year. Five new licenses were granted in the 24-Parganas and 1 each in Burdwan, Bankura and Khulna with the approval of the Advisory Committees to meet an ascertained local demand. One shop was abolished in each of the districts of Midnapore, Dacca and Jalpaiguri as being unnecessary. The total number of druggists' permits issued was 430 as compared with 433 in the preceding year.

As in the previous year 8 licenses in Bengal Excise and Salt Department Form No. 40-A were also issued to Kavirajes (6 in Dacca, 2 in Darjeeling,) for the collection, possession and use of green *bhang for bonâ fide* medicinal purposes. There was a noticeable increase in the number of druggists' permits issued in the Rajshahi Division from 113 to 127, which, however, was counterbalanced by decreases in the Presidency and Dacca Divisions by 13 and 7 permits respectively. Thus the revenue was not affected in any way. The vend fees of *bhang* shops are insignificant, as they are generally settled with other drug shops of the same locality. The total revenue from license fees and duty amounted to Rs. 2,20,082 as compared with Rs. 1,79,361 in 1923-24, an increase of Rs. 42,721, though there was a decrease in consumption by 31 maunds. The increase in revenue in spite of the decrease in consumption was due to the imposition of a combined fee with effect from 1st April 1924 in cases of *bhang* shops combined with other drug shops.

57. **Consumption.**—An appreciable demand for *bhang*, as in the previous year, was chiefly confined to most of the Western Bengal districts. In most of the districts of Eastern Bengal *bhang* grows wild in abundance, and the demand is small, Dacca being the only district in which there was a considerable sale for the drug.

Bhang is widely considered to be a harmless and refreshing drink, and is used as such by up-country people in Bengal. Its sale in other cases is generally confined to religious occasions. It is also used by Kavirajes in the preparation of various indigenous medicines. The total consumption in the Presidency amounted to 444 maunds 27

seers as compared with 475 maunds 39 seers (revised) in the previous year, a decrease of 31 maunds 12 seers. The only noticeable fluctuation was a decrease of 26 maunds 1 seer in Calcutta. The continued high retail price, it is presumed, accounted for the drop to a certain extent.

Three maunds and 20 seers of duty-paid *bhang* were exported from Hooghly to French Chandernagore, while Tippera supplied 24 seers of duty-paid *bhang* to the adjoining State of Tripura.

There has been a somewhat extensive abuse of certain medicinal preparations of *bhang*, such as *madanananda madak*, *kameswar madak*, etc. These have been consumed more as intoxicants than as medicines, and their use has been spreading rapidly. After an exhaustive enquiry during the last 2 years, the department has moved Government to impose certain restrictions on the sale, possession, etc., of *madak* prepared with *bhang*, and it is hoped that the evil will be checked before it obtains a firm hold on its devotees.

CHARAS.

58. **Licenses and revenue.**—The total number of retail licenses was 31 against 30 in the previous year, 1 shop being opened in the district of the 24-Parganas with the approval of the Advisory Committee to meet the local demand. As in the previous year, 2 wholesale licenses were in force, 1 in each of the districts of Birbhum and Calcutta. The total receipts amounted to Rs. 2,51,132 as compared with Rs. 1,88,618 in 1923-24, an increase of Rs. 62,514. The revenue from license fees increased by Rs. 47,167 and that from duty by Rs. 15,347.

59. **Imports, exports and consumption.**—The total quantity of *charas* imported into the Presidency was 65 maunds 3 seers against 32 maunds 11 seers in the preceding year. The wholesale dealers of Calcutta and Birbhum, as usual, imported the drug direct from the Punjab and supplied the retail vendors in the other districts. Actually, the wholesale dealer of Calcutta met the major portion of the demand of the Presidency.

The total issues to retail shops in the Presidency amounted to 62 maunds 9 seers as compared with 52 maunds 24 seers in the previous year. This year again by far the greater portion of the drug was consumed in Calcutta, which alone accounts for 40 maunds 2 seers. It appears from the figures of consumption of the last 3 years that the sale of *charas* steadily increased in Calcutta with a corresponding fall in the consumption of *ganja*. But the circumstances altered during the year under report. The consumption of *charas*, as usual, increased, but that of *ganja* increased as well. The increased consumption of *charas* is noticeable almost throughout the province. The Collector of Murshidabad reports that the inferior quality of *ganja* supplied there has been the main reason for increase in the consumption of *charas*. Further, the greater intoxicating effect of *charas* and at the same time a retail price which is comparatively favourable, has made the drug more popular. There was a noticeable increase of 7 maunds 1 seer in Calcutta which is said to have been due to the influx of Punjabi and Peshwari motor-drivers. The marked increase in consumption of 1 maund 5 seers in Burdwan is attributed to the influx of Punjabis and Peshwaris in the industrial areas of the Asansol subdivision, and also to the fact that the habit of smoking *charas* in preference to *ganja* is spreading among the class of people who smoke *ganja*. The reasons for the increased consumption of this drug are being investigated by the department, and restrictive measures will be suggested in due course.

The use of *charas* is very limited and is practically confined to Western Bengal, the only districts having licenses for its sale outside this tract being Dacca, Bakarganj and Dinajpur. The consumers of the drug, as reported in previous years, come from almost all sections of the community. Some district officers have reported that the drug is mostly used by the Punjabis, Peshwaris, and up-country men of the labouring classes, while others have reported that its use is confined to the middle as well as well-to-do classes. The Collector of the 24-Parganas reports again that it is generally consumed by wealthy professional singers, jatra-walas, both male and female, and the members of the *bhadralog* class, who dislike the smell of *ganja*.

Eight seers of *charas* were exported to French Chandernagore, during the year.

SECTION V.—Opium.

* * * *

60. **Restricted supply of opium.**—Under this system the monthly issues of

excise opium to retail shops are restricted, as far as possible, to the *bonâ fide* local demand, as ascertained by local inquiry and a study of the issues of preceding years. As in the previous year, the system was applied to all the shops in the districts of Midnapore, Hooghly, Howrah, the 24-Parganas, Calcutta, Khulna, Bakarganj, Faridpur, Chittagong, Noakhali, Tippera and Jalpaiguri, a certain number in the districts of Burdwan, Nadia, Jessore, Darjeeling, Mymensingh, Murshidabad and Rajshahi and one in the district of Bankura.

No extension of the system was made during the year under report.

61. **Licenses for retail sale.**—The total number of licenses issued for the retail sale of excise opium was 846 as compared with 832 in the previous year. Sixteen new shops were opened, *viz.*, 6 in 24-Parganas, 4 in Bakarganj, 2 in Tippera and 1 each in the districts of Howrah, Khulna, Mymensingh and Faridpur. On the other hand 1 shop was abolished in each of the districts of Calcutta and Jalpaiguri. All the new shops were opened with the approval of the Excise Advisory Committee concerned to meet an established local demand. Instructions have been issued that all changes in facilities for the vend of opium should be made with due regard to the level of consumption compared with the standard prescribed by the League of Nations, and any alteration which involves further departure therefrom is carefully scrutinised, and permitted only on exceptional grounds.

62. **Permits and licenses under the Opium and Morphia Rules.**—The total number of permits and licenses issued was 1,308 as compared with 1,309 in the previous year. The number includes 35 licenses issued to manufacturing chemists, 479 to dispensing chemists, 54 to kabirajes and hakims and 55 permits (total 623 for intoxicating drugs), and 36 licenses issued to dealers, 533 to chemists, 44 to persons approved under rules 21(*1*) and 21(*2*) of the Morphia Rules and 72 to persons authorised under rule 22 of the same rules (total 685 for morphia drugs). Licenses under these rules were granted on the recommendation of the Civil Surgeons of the districts concerned, and in Calcutta on the recommendation of the Health Officer to the Corporation or of a Presidency Surgeon.

63. **Consumption.**—The consumption of excise opium during the year was 1,003 maunds and 17 seers as compared with 998 maunds and 22 seers in the preceding year, showing an increase of 4 maunds 35 seers. The consumption increased in 17 districts and decreased in 9. The largest increases occurred in Jalpaiguri (61 seers or 19·3 per cent.), Chittagong (84 seers or 8·5 per cent.), Tippera (33 seers or 8·4 per cent.), Dacca (80 seers or 7·9 per cent.) and Pabna (17 seers or 6·8 per cent.). In Jalpaiguri the increase was due to the influx of Assamese coolies into the tea gardens. The increase in the district of Chittagong was due to increases in allotment of opium to meet a genuine and insistent local demand. The satisfactory condition of trade accounted for the increase in Tippera, while the increases in the districts of Dacca and Pabna were due to the flourishing condition of the jute business.

The decrease in consumption exceeded 10 per cent. only in the district of Darjeeling (27 seers or 13·1 per cent.), which was mainly due to the opening of a new shop at Malli, 3½ miles from Kalimpong, by the Sikkim authorities from the 1st April 1924.

It is interesting to note that in 19 out of 27 districts consumption is below the standard prescribed by the League of Nations as necessary or permissible for scientific and medical use. Tippera for example, consumes 423 seers against a permissible limit of 1,755, and Mymensingh 668 seers against 2,897 seers. Even Chittagong is above the standard by only 3 per cent. These facts indicate that the popular belief that Bengal consumes an alarming quantity of opium, and that Government prospers on the demoralisation of the consumer, is entirely fallacious. It is true that in Calcutta and its neighbourhood consumption is excessive, but in an area representing 74 per cent. of the total area of the province, and including 60 per cent. of the population, the consumption is beneath the prescribed standard by 53 per cent. For the whole province the excess above the standard is only 34 per cent.

64. **Revenue.**—The total receipts amounted to Rs. 33,04,805 as compared with Rs. 31,89,198 in 1923-24, showing an increase of Rs. 1,15,607.

65. **Morphia and opium pills.**—The use of morphia as a substitute for opium does not appear to have been prevalent in any district.

* * * *

SECTION VI—Cocaine.

* * * *

68. **Licenses and revenue.**—Three hundred and fifty-seven licenses were issued during the year to chemists and druggists for the sale of cocaine as compared with 361 in 1923-24. Sixty-two permits for the possession of cocaine were issued free to managers of hospitals or dispensaries not under Government supervision, *viz.*, 12 for tea gardens in Jalpaiguri, 10 for charitable dispensaries in Midnapore, 9 in the 24-Parganas, 8 in Calcutta, 7 in Burdwan, 5 in Tippera, 3 in each of the districts of Howrah and Rangpur, 2 in Nadia and 1 in each of the districts of Khulna, Faridpur and Rajshahi. Thirty-two permits were issued to qualified medical practitioners and dentists, *viz.*, 11 in the 24-Parganas, 7 in Calcutta, 4 in Bankura, 3 in Chittagong, 2 in each of the districts of Burdwan, Faridpur and Noakhali and 1 in the district of Midnapore, for possession and use of the drug in course of their practice.

69. **Preventive operations and illicit transactions.**—The abuse of cocaine continued to be prevalent in Calcutta where alone 280 persons were prosecuted against 256 of the preceding year. The 24-Parganas, Dacca, Hooghly, and Burdwan followed with 17, 10, 7 and 3 prosecutions, respectively. The number of persons convicted of illicit possession, sale or smuggling of cocaine increased from 257 to 270. In Calcutta the number was 249 as compared with 234 in the previous year. An account of some important cases will be found in Section VII of this report.

The total quantity of cocaine seized in Bengal during the year was 1,432 ounces 112 grains as compared with 1,730 ounces 231 grains in 1923-24. Only 25 ounces 8 grains were seized outside the Calcutta district, and of this quantity 23 ounces 349 grains were seized in Dacca. In Calcutta 181 ounces 98 grains were seized by Excise officers, 1,197 ounces 270 grains by Customs officers, and 28 ounces 174 grains by Police officers.

* * * *

SECTION VII—Offences against the Excise and Opium Laws.

* * * *

71 **Prosecutions and convictions.**—Including 157 cases pending in 1923-24, 6,044 cases were under trial during the year. Five thousand, nine hundred and twenty-six cases were disposed of, of which 5,747 or 97·0 per cent. ended in conviction. The percentage of cases ending in conviction to cases disposed of was 97·2 in cases instituted by Excise officers and 93·6 in cases instituted by other officers.

The total number of persons arrested during the year was 6,198 as compared with 5,283 in the previous year. Of these, 5,816 were convicted during the year against 4,929 in 1923-24. The number of arrests increased in 17 out of the 27 districts in this Presidency. The increase was most marked in Calcutta (251), Midnapore (146), 24-Parganas (127), Burdwan (124), Jalpaiguri (98), Darjeeling (79), Dinajpur (65), Bankura (60), and Birbhum (51). On the other hand there was a marked decrease in Hooghly (56). The increase in Calcutta was due mainly to increased and successful activity on the part of the staff, but partly to the widespread hawking of cocaine which afforded opportunities not hitherto available. In Midnapore the activity of the Preventive officers had good results. The increase in the 24-Parganas was due to the abolition of the *tari* fixed-fee system during the year under review, and to greater keenness in the staff. In Burdwan the better results were due to closer supervision of the excise staff and payment of rewards on a more liberal scale than previously, which induced people to give information of cases and help in their detection In Jalpaiguri the increase was due mainly to the personal interest taken and activity shown by the Superintendent of Excise in raiding tea gardens and rounding up illicit distillers with tact and skill. The successful efforts of both Excise and Police officers to check excise crime resulted in the increase of detection in Birbhum. The increases in the districts of Dinajpur, Darjeeling and Bankura were due to the greater activity of the Preventive staff. No reason has been assigned for the decrease in Hooghly.

72. **Classification of offences.**—Eight hundred and thirty-five persons were arrested for " illicit distillation " and 319 for " possession or sale of illicit country spirit " as compared with 516 and 268, respectively, in the preceding year. The chief increases under these two heads taken together occurred in Midnapore (186), Bankura (58) and Jalpaiguri (40) There was no noticeable increase in any other district. In Midnapore the illicit

distillation of liquor from *mohua* flowers and sometimes from rice or molasses continued to be the commonest form of excise crime. The illicit distillers have now become very cunning. They keep the wash buried in the ground outside their houses, and hide the distilling apparatus in the trees to avoid detection. Some cases of this nature ended in acquittal as exclusive possession could not be proved. The illicit distillers are backed by goondas, who are said to have taken shelter at Kharagpur on the introduction of the Goonda Act in Calcutta. These goonda illicit distillers are making good profits by the trade, and unless proper arrangements are made beforehand, there is always a certain amount of danger in raiding their houses. The causes for increase in Jalpaiguri are given in paragraph 71 above.

The detection of a large number of very important cases of illicit distillation of country spirit in the district of 24-Parganas in which the quantities of fermented wash seized, varied from 1 maund to 13 maunds and 35 seers, leads to the belief that the trade in illicitly distilled liquor has been paying handsomely, and has found favourable ground in this district. In Malda 4 Santhals were arrested for distilling liquor with an apparatus of a new type for that area.

The arrests for " unlicensed sale of duty-paid country spirit " increased from 81 to 123. The increase occurred principally in Calcutta.

The prosecutions for " illicit possession of duty-paid country spirit " increased from 36 to 50. The increase is nominal.

The arrests for " illicit import or export of country liquor " increased from 142 to 180. Howrah and Darjeeling mainly contributed to the increase. In Howrah the transport took place partly from the country spirit shops in the district of Hooghly and partly from the shops within the district where the duty is lower. In Darjeeling the liquor was imported from Nepal and Sikkim by the Lepchas, Bhutias and other hillmen living on the borders of those places.

The number of arrests for " illicit sale of foreign liquor " increased from 25 to 50, the increase occurring mainly in Calcutta and Dacca. In Calcutta a Japanese woman (Methoo) had started an unlicensed hotel at 11, Watgunj, and used to sell Japanese beer. Under the instructions of an Excise Sub-Inspector, an Anglo-Indian purchased Rs. 3 worth of beer from the woman with marked coins. The Sub-Inspector searched the hotel and recovered the coins inside a locked drawer which was opened by Methoo herself. About 80 bottles of foreign liquor including 20 bottles of smuggled Japanese beer were recovered from the hotel. Methoo and an associate were arrested and sent up for trial. The associate was discharged but Methoo was convicted and sentenced to pay a fine of Rs. 75; in default, to suffer rigorous imprisonment for 1 month.

The arrests in connection with " *tari* offences " increased from 1,201 to 1,467. This form of crime continues to be common amongst the lower classes (especially the up-country people) of the Presidency and Burdwan Divisions and the district of Malda. It has no special significance, and its extent depends upon the available funds in possession of the consumers.

The number of arrests for " illicit manufacture, sale or possession of *pachwai* " rose from 1,858 to 2,080. The increase was most marked in Burdwan (77), Jalpaiguri (66), 24-Parganas (58), Birbhum (49) and Rajshahi (42). On the other hand there was a marked decrease in Hooghly (63) and Midnapore (60). This type of offence is generally committed by the aborigines and semi-aborigines and other low-class people in the interior, and by tea garden coolies in Jalpaiguri.

The arrests for " illicit cultivation of poppy " remained almost the same (5 against 4) as in the previous year.

Taking the figures under the two heads " illicit opium " and " treasury opium " together, the number of prosecutions remained practically unchanged (131 against 130). Calcutta continued to show a fall in the detection of crime under this head, while Midnapore, Chittagong and Tippera showed much improvement. The total quantity of opium seized in Bengal amounted to 31 maunds 17 seers as compared with 37 maunds and 3 seers in the preceding year. Of this quantity, 21 maunds and 1 seer were seized in Calcutta alone. Three maunds and 17 seers were seized by the special staff at different stations. The Customs officers, Calcutta, made seizures on board the vessels in the port of Calcutta, amounting to 1 maund and 36 seers. Fifteen maunds and 27 seers

were seized by the Calcutta Excise officers as compared with 20 maunds and 3 seers in the preceding year; 9 seers only were seized by the Calcutta Police. Some important arrests were made during the year, but as the details have already been given in the Excise Supplement to the *Criminal Intelligence Gazette*, it is unnecessary to reproduce them here. Mention may, however, be made of the following 5 cases of special interest :—

(1) The Inspector of Excise, Kharagpur, Midnapore, on receipt of information that one K. Krishnananda would pass with a large quantity of opium, kept watch at the Kharagpur station with 2 Sub-Inspectors and staff. At about 2 A.M. when the down Nagpur-Howrah train arrived at Kharagpur, the officers entered the first class compartment, awoke the accused and enquired whether the luggage consisting of a steel trunk, leather suit-case and a Gladstone bag belonged to him. On getting a reply in the affirmative, the officers asked him to allow them to search. The accused remonstrated, and tried to prevent the party from making a search during the night. The officers persevered however, and in the accused's baggage found and seized one maund and 26½ seers of opium. The man was travelling from Bilaspur to Howrah. He was prosecuted and convicted.

(2) On 16th November 1924 after the arrival of the down Punjab mail, one Mr. J. M. Bernard, his wife, Mrs. Bernard, and Mrs. Jacob Tholian were found seated in a taxi with several suit-cases and other articles. The Howrah Excise staff suspected the suit-cases and wanted to examine them. Mrs. Tholian slipped away on the pretext of bringing the keys from her husband, who was said to be on the platform at the time. The accused No. 1, J. M. Bernard, tried to bribe a petty officer with a 5-rupee note. The suit cases were eventually opened, and found to contain 1 maund and 28 seers of opium. Mr. Jacob Tholian was formerly in the employ of a notorious smuggler at Calcutta as his taxi-driver. The opium was smuggled from Delhi. Mr. and Mrs. Bernard, and Mr. and Mrs. Jacob Tholian and the taxi-driver, Aziz Khan, were all sent up under the Opium Act. The first accused only was convicted.

(3) On the 25th July 1924, a Mr. C. W Jarret got down from a second class compartment of the Bombay mail at Howrah station and got into a taxi with his luggage. An Excise petty officer challenged him on suspicion, and his luggage was searched and 1 maund and 13½ seers of opium was recovered. He was sent up under the Opium Act. He pleaded guilty to the charge and was fined Rs. 250 only. Jarret was formerly a sergeant in the Calcutta Police. He admitted before the Excise Superintendent that on two previous occasions he successfully imported large quantities of opium into Calcutta. In spite of this, the learned trying Magistrate thought fit to deal with the accused very leniently, apparently because some of the accused's relatives had been in Government service. The High Court was, however, moved for enhancement of the sentence, and, as a result, it was altered to one of rigorous imprisonment for 3 months.

(4) On information that opium was being smuggled in up-country boats into Chittagong, the Superintendent of Excise, Barisal, deputed a strong Excise force to watch the Meghna river, near Char Meghna and Char Buller. On 24th March 1925, a boat was seen to pass in the Meghna about a mile and a half off. The Excise force, on watch, followed the boat on a small *ghashi* boat and overtook her at Char Buller. The smugglers on sighting the Excise force threw overboard one tin canister covered with oil cloth and another oil cloth bundle which were recovered from the water. Another oil cloth bundle was also found in the boat. These packages were found to contain in all 1 maund 3½ seers of opium. Five men were sent up for trial and the case remained pending at the close of the year. The boat is reported to have been purchased in Bankipore in the Province of Bihar and Orissa.

(5) An officiating Inspector of Excise, Hooghly, received information on 17th November 1924, that a parcel containing opium would arrive either at Rishra or Lillooah railway station. He also got the number of the Way Bill. He posted patrols at both places, and arranged with the booking clerk of Lillooah not to give delivery except in the presence of an Excise peon. He also came to know that 3 parcels of opium which had arrived at Lillooah would be replaced by dummy parcels by the smugglers, who would take away the real parcels at 5-30 P.M. The

officiating Inspector informed the booking clerk about the intention of the smugglers, and instructed him to agree to the proposal for replacement. He and his party posted themselves in disguise outside the railway station. After some time a taxi came from the Howrah side with the 2 accused Musha Khan and Mobarak Khan as occupants. They took down from the taxi 3 dummy packages, and then went into the station, where as instructed by the Inspector, the booking clerk gave delivery of the packages containing opium which were replaced by the dummy parcels. The accused went out saying that they would produce the railway receipt the next day and take delivery of the bogus packages. They then carried the real parcels to the taxi. The detecting force then intercepted the smugglers and arrested the 2 accused as they attempted to board the taxi to get away. The parcels were found to contain 1 maund and 14 seers of opium. The accused were prosecuted and sentenced each to 6 months' rigorous imprisonment and a fine of Rs. 500.

In Calcutta 19 registered parcels were seized and 1 maund and 28 seers and 2 chittacks of opium recovered from them. These parcels came from such places as Ghazipur, Balia, Delhi, Kishangarh, Gorakhpur, Muzafferpur, Etwa, Marwarpalli and Srimadpur. In all these cases every endeavour was made to trace the addressees, but without success.

Chittagong is the most notorious of all the districts of Bengal except Calcutta so far as the smuggling of opium is concerned. Its close proximity to the Akyab district of Burma, and its extensive waterways eminently fit the district for this purpose. Excepting a few Hindus and Mughs, the illicit traffic is in the hands of an ordinary class of Muhammadans, most of whom are sea-faring people of a somewhat daring nature. They have formed several gangs for smuggling purposes, and though each gang is financed mainly by a few headmen, every member of the gang has an interest in the profit accruing from the illicit trade. The business of these gangs is to import contraband opium at cheaper rates mostly from upper India and the Native States, and to export the same to the neighbouring districts of Burma where opium is sold at much higher rates. There are very few local transactions in the contraband drug, and this together with the fact that the business is carried on entirely by the members of the gangs without any help from hired servants, renders the detection of cases very difficult. The *modus operandi* of these smugglers varies in different seasons. The brisk season generally commences from early October and lasts till the latter part of April. During this period opium is imported from up-country by country boats and taken direct to Akyab and other districts of Burma, the Islands of Hatia, Sandip, Kutubdia, Saint Martins and several Chars serving as places of temporary storage *en route*. During the summer and rainy season, when the sea is very rough, the business is comparatively dull. In this season the opium is imported by country boats, railway and steamer parcels and by carriers, stored in the interior of the district and exported to Akyab and other districts of Burma by steamers and through carriers who generally use the land routes.

The prosecutions for "illicit possession or sale of *madak* or *chandu*" remained the same (137 against 136) as in the previous year.

The arrests for "illicit cultivation or collection of *ganja* or *bhang*" fell from 68 to 62. In the Ganja Mahal at Naogaon in the district of Rajshahi 11 cases of "smuggling" of non-duty-paid *ganja*" and "illicit possession of green *ganja*" were detected against 21 in the previous year. Three cases of special importance, in which the quantity seized was comparatively large, are given below:—

(1) Sukra Sarkar, who was arrested for illicit possession of 1 seer and 16 tolas of non-duty-paid *ganja*, was sentenced to rigorous imprisonment for 3 months.

(2) Dina Bandhu Mandal was arrested for illicit possession of 1 seer and 10 tolas of non-duty-paid *ganja* and was sentenced to rigorous imprisonment for 3 months.

(3) Jogi Bairagi was arrested for illicit collection of hemp plant and illegal possession of 8¼ seers of *ganja* and was sentenced to rigorous imprisonment for 2 months.

An important case of smuggling of Chittagong Hill Tracts *ganja* was detected in Chittagong. On receipt of information that one Hamdu Miah had collected a large quantity of hill *ganja* and come down for its disposal, a bogus purchaser was deputed and the smuggler

was arrested with 2 seers of *ganja* when he was making over the contraband to the purchaser. He was sent up and sentenced to undergo rigorous imprisonment for 2 months.

Prosecutions for "unlicensed sale of hemp drugs" decreased from 157 to 133.

Arrests for "illicit possession of *ganja*" fell from 106 to 83.

Prosecutions for "illicit possession of *charas*" decreased from 4 to 1.

The number of arrests for "illicit possession of *bhang*" also fell from 155 to 109. The decrease occurred mainly in Pabna (27) and Mymensingh (20). No reason has been given for the decrease in Pabna. In Mymensingh the fall was due to the fact that the majority of the circles were in charge of new officers during the year.

The arrests for "unlawful import or export or transport of hemp drugs" rose from 33 to 53. Jalpaiguri is principally responsible for this increase.

The prosecutions for "illicit sale or possession of cocaine" increased from 287 to 317. Calcutta alone is responsible for the increase. The illicit traffic in cocaine continued to be prevalent, in order of notoriety, in Calcutta, 24-Parganas and Dacca, where 280, 17 and 10 persons, respectively, were prosecuted. Hooghly joined the list with 7 prosecutions. Calcutta is the principal centre for the illicit trade in cocaine, whence all the contraband imports and exports of the drug are controlled. The total quantity of cocaine confiscated in Bengal during the year under report was 1,432 ounces and 112 grains, of which Calcutta alone contributed 1,407 ounces and 104 grains. Three cases of special importance are noted below :—

(1) The Superintendent of Excise, Detection Branch, Calcutta, on receipt of information that R. Fernandez, a Goanese, was going to dispose of a large quantity of cocaine, laid a trap for the accused with the help of a petty officer, in the Imperial Restaurant, where the accused came with a cane box containing 100 ounces of cocaine. The petty officer, who was previously introduced to him, paid him Rs. 6,000, the price arranged, in Government currency notes (the number of which had previously been noted by the Superintendent) and the accused handed over the cane box and its key. The Excise Superintendent, who was closely watching the whole affair from a short distance, arrested the accused as he was counting the money and about 100 ounces of cocaine were recovered from the cane box. The accused was the second butler on board the SS. "Talma" and was regularly smuggling cocaine from Japan probably with the help of accomplices on board. He was prosecuted under the Excise Act and sentenced to undergo rigorous imprisonment for 1 year.

(2) The second case was a daring one of an attempted conspiracy to victimise an innocent man. The accused Brindaban Lala, in attempting to put one of his enemies to trouble by planting cocaine and a revolver in his house, was himself caught and sent up for trial. An Excise Sub-Inspector, Calcutta, was approached by the accused, who wanted his help for the purpose of planting a revolver and some cocaine on his enemy. The Sub-Inspector pretended to fall in with the suggestion. He reported the matter to his Superintendent under whose orders an Inspector of Excise, on a subsequent date, overheard the conversation that passed between the accused and the Sub-Inspector at the Excise Barracks. On the 4th July 1924, in the presence of the Excise Inspector and a Police Sub-Inspector, the accused was arrested near the Excise Barracks with a package of cocaine (2 tolas or 360 grains) and one five-chambered revolver and 20 live cartridges, in his possession. The accused was sent up for trial under the Excise Act for the possession of cocaine and was sentenced to rigorous imprisonment for 6 months. He moved the High Court and obtained a rule which was subsequently discharged. He was an old offender and was once before convicted and sentenced to 4 months' rigorous imprisonment under section 380, I. P. C. The Arms Act case against the accused for the possession of the revolver and the cartridges was pending when the financial year closed.

(3) The most important detection of the year was the arrest of one Batasia, who is alleged to have amassed considerable wealth by dealing in cocaine. As the case is still under trial it is not permissible to enter into details in this report.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 28th October 1925.

Summary.—Excepting light and scattered showers in a number of places, there was no rainfall throughout the Presidency. The effects of weather on the standing crops and their prospects are generally favourable. Ploughing of fields for the spring crops and their sowings are progressing under fairly good conditions. The average price of common rice for the province has risen by about 0·93 per cent. as compared with that of the previous week.
